

## WAQ71639: Schools where the pupils achieving A\* to C in Maths gap between

Note that schools with a FSM or non-FSM cohort of less than 5 in either year have been excluded from the data. Based on maintained mainstream schools only.

Please note that some percentages are based on small numbers and should be treated with care.

Year on year changes are more volatile with small cohorts and are not necessarily representative of the overall trend. Negative numbers indicate that FSM pupils performed better than their non-FSM peers.
