Dear Andrew,

Thank you for your recent Written Question asking me when I was made aware of the presence of RAAC at Bronglais Hospital, which was identified in September 2020.

I was formally advised that RAAC was present in a plant room at Bronglais Hospital on 7 June 2022. This advice was in the form of a position statement on the extent of RAAC across the NHS estate based on investigations undertaken at the time. Officials and NHS Shared Services Partnership – Specialist Estate Services continue to engage with Hywel Dda University Health Board with a further request to provide enhance assurance reports issued in February 2023. These reports are currently in the process of being collected and reviewed.

Staff safety is paramount and access is restricted to the plant room for trained staff in identifying RAAC only.

Yours sincerely,

Eluned Morgan AS/MS
