ANNUAL GOVERNANCE STATEMENT.....	1
PART B: REMUNERATION AND STAFF REPORT.....	1
PART C: NATIONAL ASSEMBLY FOR WALES ACCOUNTABILITY AND AUDIT REPORT	1

INTRODUCTION TO THE ACCOUNTABILITY REPORT

Powys Teaching Health Board is required, as are all Welsh NHS bodies, to publish an [Annual Report](#) and [Accounts](#). Copies of previous year's reports can be accessed from the health board website.

A key part of the [Annual Report](#) is the [Accountability Report](#). The requirements of the Accountability Report are based on the matters required to be dealt with in a Directors' Report, as set out in Chapter 5 of Part 15 of the Companies Act 2006 and Schedule 7 of SI 2008 No 410, and in a Remuneration Report, as set out in Chapter 6 of the Companies Act 2006 and Schedule 8 of SI 2008 No 410. As not all requirements of the Company's Act apply to NHS bodies, the structure adopted is as described in the Treasury's Government Financial Reporting Manual (FReM) and set out in the 2018-19 Manual for Accounts for NHS Wales, issued by the Welsh Government.

The Accountability Report is required to have three sections:

- A [Corporate Governance Report](#)
- A [Remuneration and Staff Report](#)
- A [National Assembly for Wales Accountability and Audit Report](#)

An overview of the content of each of these three sections is provided below.

THE CORPORATE GOVERNANCE REPORT

This section of the Accountability Report provides an overview of the governance arrangements and structures that were in place across Powys Teaching Health Board during 2018-19. It also explains how these governance arrangements supported the achievement of the health board's core and enabling well-being objectives.

The Board Secretary has compiled the report, the main document being the [Annual Governance Statement](#). This section of the report has been informed by a review of the work taken forward by the Board and its Committees over the last 12 months and has had input from the Chief Executive, as Accountable Officer, Board Members and the Audit and Assurance Committee.

In line with requirements set out in the Companies Act 2006, the Corporate Governance report includes:

- [The Directors Report](#)
- [A Statement of Accountable Officers Responsibilities](#)

- [A Statement of Directors' Responsibilities in Respect of the Accounts](#)
- [The Annual Governance Statement](#)

REMUNERATION AND STAFF REPORT

This report contains information about the remuneration of senior management, fair pay ratios, sickness absence rates etc. and has been compiled by the Directorate of Finance and the Workforce and Organisational Development Directorate.

NATIONAL ASSEMBLY FOR WALES ACCOUNTABILITY AND AUDIT REPORT

This report contains a range of disclosures on the regularity of expenditure, fees and charges, compliance with the cost allocation and charging requirements set out in HM Treasury guidance, material remote contingent liabilities, long-term expenditure trends, and the audit certificate and report.

PART A: CORPORATE GOVERNANCE REPORT

This section of the Accountability Report provides an overview of the governance arrangements and structures that were in place across Powys Teaching Health Board during 2018-19. It includes:

- A Director's Report
- A Statement of Accountable Officer Responsibilities
- A Statement of Directors' Responsibilities in Respect of the Accounts
- The Annual Governance Statement

THE DIRECTORS' REPORT FOR 2018-19

The Directors' report brings together information about the Board of Powys Teaching Health Board (PTHB), including the Independent Members and Executive Directors, the composition of the Board and other elements of its governance and risk management structure.

THE COMPOSITION OF THE BOARD AND MEMBERSHIP

Part 2 of The Local Health Boards (Constitution, Membership and Procedures) (Wales) Regulations 2009 sets out the required membership of the Boards of Local Health Boards, the appointment and eligibility requirements of members, the term of office of non-officer members and associate members. In line with these Regulations the Board of Powys Teaching Health Board comprises:

- a chair;
- a vice-chair;
- officer members; and
- non-officer members.

The members of the Board are collectively known as “the Board” or “Board members”; the officer and non-officer members (which includes the Chair) are referred to as Executive Directors and Independent Members respectively. All members have full voting rights.

In addition, Welsh Ministers may appoint up to three associate members. Associate members have no voting rights.

Before an individual may be appointed as a member or associate member they must meet the relevant eligibility requirements, set out in Schedule 2 of The Local Health Boards (Constitution, Membership and Procedures) (Wales) Regulations 2009, and continue to fulfil the relevant requirements throughout the time that they hold office.

The [Regulations](#) can be accessed via the legislation website.

VOTING MEMBERS OF THE BOARD DURING 2018-19

During 2018-19, the following individuals were voting members of the Board of Powys Teaching Health Board:

Name	Role	Dates
Independent Members		
Vivienne Harpwood	Chair	Full year
Melanie Davies	Vice Chair	Full Year
Anthony Thomas	Independent Member (Finance)	Full Year
Matthew Dorrance	Independent Member (Local Authority)	Full Year

Owen James	Independent Member (Community)	Full Year
Trish Buchan	Independent Member (Third Sector)	Full Year
Duncan Forbes	Independent Member (Legal)	Full Year
Frances Gerrard	Independent Member (University)	Full Year
Sara Williams	Independent Member (Capital and Estates)	To 30 September 2018
Mark Baird	Independent Member (ICT)	To 30/06/18 End of eight year term reached
Ian Phillips	Independent Member (ICT)	From 1 September 2018
Susan Newport	Independent Member (Trade Union Side)	From 1 September 2018
Executive Directors		
Carol Shillabeer	Chief Executive	Full Year
Julie Rowles	Director of Workforce and OD	Full Year
Eifion Williams	Director of Finance and IT	Full Year
Hayley Thomas	Director of Planning and Performance	Full Year
Catherine Woodward	Medical Director	From 05 March 2018 to 09 September 2018
	Director of Public Health	Until 04 March 2018 and From 01 September 2018 to 31 January 2019
Wyn Parry	Medical Director	From 10 September 2018
Stuart Bourne	Interim Director of Public Health	From 5 March 2018 to 31 August 2018
	Director of Public Health	From 1 February 2019
Rhiannon Jones	Director of Community Care and Mental Health	From 23 January 2018 to 13 October 2018
	Director of Nursing	To 22 January 2018 and From 14 October 2019
	Interim Director of Therapies & Health Science	From 25 October 2018
Rhiannon Beaumont Wood	Director of Nursing	To 16 November 2018

Patsy Roseblade	Interim Director of Primary, Community Care and Mental Health	From 15 October 2018 to 31 March 2019
David Murphy	Director of Therapies and Health Science	To 11 July 2018

During 2018/19, vacancies in the Board consisted of:

Independent Member	Executive Director
<ul style="list-style-type: none"> Independent Member (ICT) from 01/07/18 to 31/08/18 Independent Member (Trade Union) from 01/04/18 to 31/08/18 Independent Member (Capital) from 01/10/18 onwards 	<ul style="list-style-type: none"> Executive Director of Therapies and Health Sciences from 11/07/18 to 25/10/18

Whilst roles on the Board were vacant, responsibilities were covered by other Board members to ensure continuity of business and effective governance arrangements. Independent Members attended Board Committee meetings where necessary to ensure meetings remained quorate and the Board's duties could be discharged. The Board's clinical directors (Medical Director, Director of Nursing and Director of Public Health) provided collective leadership and support to the Therapies and Health Sciences Directorate whilst the Director post was vacant. From October 2018, the Director of Nursing provided interim leadership to the Therapies and Health Sciences Directorate in the absence of a substantive Director.

NON-VOTING MEMBERS OF THE BOARD DURING 2018-19

During 2018/19, the following Associate Members, appointed by the Cabinet Secretary for Health and Social Services, attended Board meetings on an ex-officio basis:

- **Alison Bulman**, Corporate Director (Children's and Adult's), Powys County Council (from July 2018).

The following Associate Member positions were vacant on the Board during 2018/19:

- Chair of the Stakeholder Reference Group (Advisory Group of the Board)
The first meeting of the Stakeholder Reference Group was held in September 2018 and a Chair has not yet been appointed.
- Chair of the Healthcare Professionals' Forum (Advisory Group of the Board)
The Healthcare Professionals' Forum is not yet in place and will be

established in 2019/20.

The Board may appoint an additional Associate Member to assist in carrying out its functions, subject to the agreement of the Minister for Health and Social Services. During 2018-19, the following individuals were Associate Members of the Board:

Veronica Jarman, Older Peoples' Champion (up to September 2018)
Whilst Associate Members take part in public Board meetings they do not hold any voting rights.

Further details in relation to role and composition of the Board can be found at pages 17 to 18 of the [Annual Governance Statement](#). In addition, short biographies of all our Board members can be found on the health board website.

The [Annual Governance Statement](#) also contains further information in respect of Board and Committee Activity.

DECLARATION OF INTERESTS

Details of company directorships and other significant interests held by members of the Board which may conflict with their responsibilities are maintained and updated on a regular basis. A [Register of Interests](#) is available on the health board website, or a hard copy can be obtained from the Board Secretary on request.

PERSONAL DATA RELATED INCIDENTS

Information on personal data related incidents formally reported to the Information Commissioner's office and "serious untoward incidents" involving data loss or confidentiality breaches are detailed on page 52 of the [Annual Governance Statement](#).

ENVIRONMENTAL, SOCIAL AND COMMUNITY ISSUES

The Board is aware of the potential impact that the operation of the health board has on the environment and it is committed to wherever possible:

- ensuring compliance with all relevant legislation and Welsh Government Directives;
- working in a manner that protects the environment for future generations by ensuring that long term and short term environmental issues are considered; and
- preventing pollution and reducing potential environmental impact.

The Board's [Sustainability Report](#) that forms a key part of the Performance Report section of the Annual Report provides greater detail in relation to the environmental, social and community issues facing the health board.

STATEMENT OF PUBLIC SECTOR INFORMATION HOLDERS

As the Accountable Officer of Powys Teaching Health Board, and in line with the disclosure requirements set out by the Welsh Government and HM Treasury, I confirm that the health board has complied with the cost allocation and charging requirements set out in HM Treasury guidance during the year.

SIGNED BY: **DATE: 29 MAY 2019**
CAROL SHILLABEER [CHIEF EXECUTIVE]

**STATEMENT OF ACCOUNTABLE OFFICER
RESPONSIBILITIES: 2018-19**

STATEMENT OF MY CHIEF EXECUTIVE RESPONSIBILITIES AS ACCOUNTABLE OFFICER OF POWYS TEACHING HEALTH BOARD

The Welsh Ministers have directed that I, as the Chief Executive, should be the Accountable Officer of Powys Teaching Health Board.

The relevant responsibilities of Accountable Officers, including their responsibility for the propriety and regularity of the public finances for which they are answerable, and for the keeping of proper records, are Set out in the Accountable Officer' Memorandum issues by the Welsh Government.

To the best of my knowledge and belief, I have properly discharged the responsibilities set out in my letter of appointment as the Accountable Officer.

I also confirm that:

- as far as I am aware, there is no relevant audit information of which Powys Teaching Health Boards auditors are unaware. I have taken all the steps that I ought to have taken to make myself aware of any relevant audit information and to establish that Powys Teaching Health Board's auditors are aware of that information.
- Powys Teaching Health Board's annual report and accounts as a whole is fair, balanced and understandable. I take personal responsibility for the annual report and accounts and the judgments required for determining that it is fair, balanced and understandable.

**STATEMENT OF DIRECTORS' RESPONSIBILITIES
IN RESPECT OF THE ACCOUNTS FOR 2018-19**

STATEMENT OF DIRECTORS' RESPONSIBILITIES IN RESPECT OF THE ACCOUNTS

The directors of Powys Teaching Health Board are required under the National Health Service Act (Wales) 2006 to prepare accounts for each financial year.

The Welsh Ministers, with the approval of the Treasury, direct that these accounts give a true and fair view of the state of affairs of the health board and of the income and expenditure of the health board for that period.

In preparing those accounts, the directors are required to:

- apply on a consistent basis accounting principles laid down by the Welsh Ministers with the approval of the Treasury;
- make judgements and estimates which are responsible and prudent; and
- state whether applicable accounting standards have been followed, subject to any material departures disclosed and explained in the account.

On behalf of the directors of Powys Teaching Health Board we confirm:

- that we have complied with the above requirements in preparing the 2018-19 accounts; and
- that we are clear of our responsibilities in relation to keeping proper accounting records which disclose with reasonable accuracy at any time the financial position of the authority and to enable them to ensure that the accounts comply with requirements outlined in the above mentioned direction by the Welsh Ministers.

By Order of the Board

ANNUAL GOVERNANCE STATEMENT

This Annual Governance Statement details the arrangements that were in place to manage and control resources during the financial year 2018-19. It also sets out the governance arrangements in place to ensure probity, mitigate risks and maintain appropriate controls to govern corporate and clinical situations.

SCOPE OF RESPONSIBILITY

Powys Teaching Health Board (PTHB, the health board) was established in 2003. The health board is predominantly a commissioning organisation, buying services on behalf of the population from a wide range of providers, including from primary care contractors, independent sector care homes, ambulance services, district general hospitals and other specialist hospitals. There are a range of directly provided services across Powys, including a network of community hospitals, a health and social care centre, community services such as district nursing, midwifery and health visiting, therapies, mental health and services for people with a learning disability. Increasingly, services are jointly provided by the health board and Powys County Council, working together and pooling resources.

Detailed information about the services we provide and our facilities can be found on our website in the section labelled 'Services' on the health board website. Our [Integrated Medium Term Plan for 2017-2020](#) and [Annual Report](#) also provide helpful overviews of our services.

The Board of PTHB is accountable for good governance, risk management and internal control. As the Chief Executive and Accountable Officer of PTHB I have clearly defined responsibilities as set out in the Accountable Officer Memorandum and my letter of appointment. These responsibilities relate to maintaining appropriate governance structures and procedures, as well as a sound system of internal control that supports the achievement of the organisation's policies, aims and objectives, whilst safeguarding the public funds and the organisation's assets for which I am personally responsible. These duties are carried out in accordance with the responsibilities assigned by the Accountable Officer of NHS Wales.

I am held to account for my performance by the Chair of the health board and the Chief Executive and Accounting Officer for the NHS in Wales. I have formal performance meetings with both the Chair and the Chief Executive of NHS Wales. Further, the Executive Team of the health board meet with the senior leaders of the Department of Health and Social Services on a regular basis.

FUNCTIONS HOSTED BY PTHB

In compliance with requests made by the Welsh Ministers, PTHB hosts the following functions:

- **The seven Community Health Councils that operate across Wales and the Board of Community Health Councils in Wales:**

More information about these functions can be found on the Community Health Council website.

- **Health and Care Research Wales:**
More information about this function can be found on the Health and Care Research Wales website.

The Board of PTHB is not responsible for the delivery of the objectives of these functions, or their day to day management. It is however responsible for ensuring that the functions are staffed using appropriate recruitment mechanisms, and that PTHB's Standing Financial Instructions and Workforce and OD policies are complied with.

A lead director is in place for each hosted function and key officers from the finance and workforce teams identified to provide support to the functions, as appropriate. The Board has reflected on the assurance mechanisms in place at Board level and has agreed to strengthen these during 2019/20.

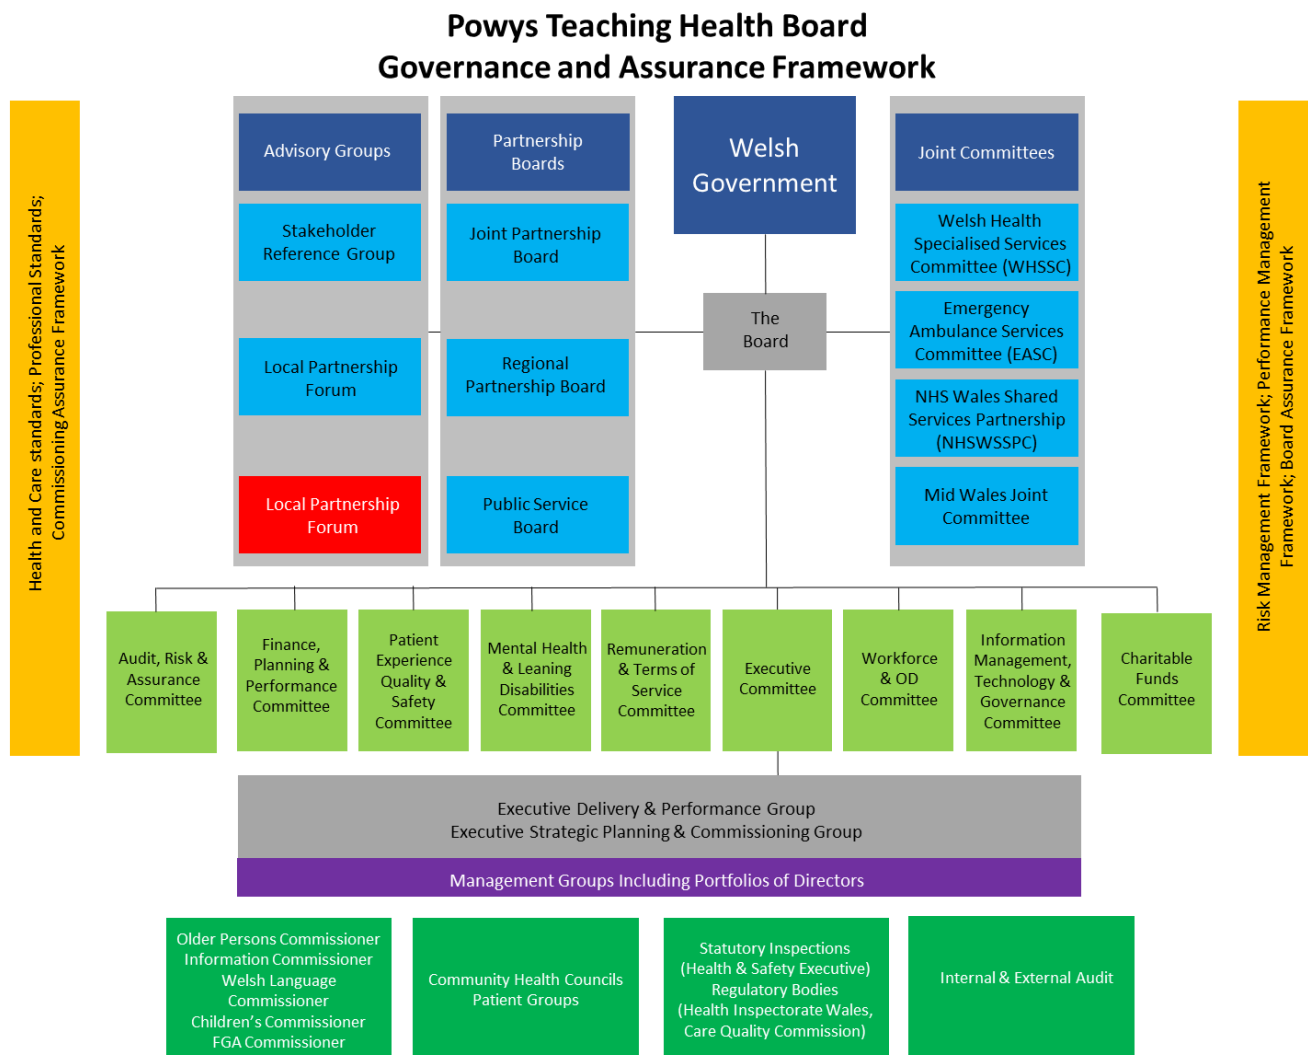

During 2018-19 we continued to work with Welsh Government to strengthen the governance and accountability arrangements for the functions that we host. The Audit and Assurance Committee held discussion in January 2019 regarding the need to have robust governance systems in place to ensure accountability of hosted bodies to the Board on appropriate matters. In 2019/20 this responsibility will be discharged by a sub-committee of the Audit, Risk and Assurance Committee. In addition, the development of robust accountability frameworks, in conjunction with Welsh Government and hosted bodies, will be necessary to allow each function to discharge its responsibilities.

OUR GOVERNANCE AND ASSURANCE FRAMEWORKS

PTHB has a clear purpose from which its strategic aims and objectives have been developed. Our vision is to enable a 'Healthy Caring Powys'. The Board is accountable for setting the organisation's strategic direction, ensuring that effective governance and risk management arrangements are in place and holding Executive Directors to account for the effective delivery of its three year Integrated Medium Term Plan and related Annual Plan. A copy of our [Integrated Medium Term Plan](#) for 2018-19 to 2020-21 can be found on the health board website.

Figure 1 on the page that follows provides an overview of the governance framework that was in operation during 2018-19:

Figure 1: Powys Teaching Health Board's Governance and Assurance Framework

** Yet to be established*

THE BOARD

The Board has been constituted to comply with the Local Health Board (Constitution, Membership and Procedures) (Wales) Regulations 2009. The Board functions as a corporate decision making body, Executive Directors and Independent Members being full and equal members and sharing corporate responsibility for all the decisions of the Board. Details of

those who sit on the Board are published on the health board website. Further information is also provided in the [Directors Report](#) at page 4.

The Board sits at the top of the organisation's governance and assurance systems. Its principal role is to exercise effective leadership, provide strategic direction and control. The Board is accountable for governance and internal control in the organisation, and I, as the Chief Executive and Accountable Officer, am responsible for maintaining appropriate governance structures and procedures. In summary, the Board:

- Sets the strategic direction of the organisation within the overall policies and priorities of the Welsh Government and the NHS in Wales;
- Establishes and maintains high standards of corporate governance;
- Ensures the delivery of the aims and objectives of the organisation through effective challenge and scrutiny of performance across all areas of responsibility;
- Monitors progress against the delivery of strategic and annual objectives; and
- Ensures effective financial stewardship by effective administration and economic use of resources.

STANDARDS OF BEHAVIOUR

The Welsh Government's *Citizen-Centred Governance Principles* apply to all public bodies in Wales. These principles integrate all aspects of governance and embody the values and standards of behaviour expected at all levels of public services in Wales. The health board is committed to operating to the highest standards and will ensure that everyone working for the organisation will practice the highest standards of personal conduct and behaviour consistent with these principles.

The Board has in place a Standards of Behaviour Framework, which sets out the Board's expectations and provides guidance so that individuals are supported in delivering that requirement.

The aim of the Framework is to ensure that arrangements are in place to support everyone working for or with the health board acts in a manner that upholds the Standards of Behaviour Framework as well as setting out specific arrangements for: (i) Declarations of Interest and (ii) the offer, acceptance/refusal and recording of offers of Gifts, Hospitality or Sponsorship.

The policy also aims to capture public acceptability of behaviours of those working in the public sector so that the health board can be seen to have exemplary practice in this regard.

During 2019/20 further work will be taken forward to raise awareness of the Framework with staff, particularly with regard to conflicts of interest and

gifts and hospitality and to strengthen the recording and monitoring of such disclosures.

Details of the Board's Standards of Behaviour Framework and Disclosures is available on the PTHB website.

STANDING ORDERS AND SCHEME OF RESERVATION AND DELEGATION

The health board's governance and assurance arrangements have been aligned to the requirements set out in the Welsh Government's Governance e-manual and the Citizen Centred Governance Principles. Care has been taken to ensure that governance arrangements also reflect the requirements set out in HM Treasury's 'Corporate Governance in Central Government Departments: Code of Good Practice 2011'.

The Board has approved Standing Orders for the regulation of proceedings and business. They are designed to translate the statutory requirements set out in the Local Health Board (Constitution, Membership and Procedures) (Wales) Regulations 2009 into day to day operating practice. Together with the adoption of a scheme of matters reserved for the Board, a detailed scheme of delegation to officers and Standing Financial Instructions, they provide the regulatory framework for the business conduct of the health board and define "its ways of working". The Standing Orders in place during 2018-19 were adopted by the Board on 30 May 2018, they are available on the 'Key Documents' section of the health board website.

Standing Orders and the Scheme of Reservation and Delegation are supported by a suite of corporate policies, and together with the Standards of Behaviour Framework, Risk Management Framework and Performance Management Framework make up the health board's Governance Framework.

The Board, subject to any directions that may be made by the Welsh Ministers, is required to make appropriate arrangements for certain functions to be carried out on its behalf so that the day to day business of the health board may be carried out effectively, and in a manner that secures the achievement of the organisation's aims and objectives. To fulfil this requirement, in alignment with the review of Standing Orders and Committee terms of reference, a detailed review of the Board's Scheme of Reservation and Delegation of Powers has also been completed. The document, which was approved by the Board on 30 May 2018 can be found on the health board's website.

COMMITTEES OF THE BOARD

Section 2 of Powys Teaching Health Board's Standing Orders provides that *"The Board may and, where directed by the Welsh Government must, appoint Committees of the health board either to undertake specific functions on the Board's behalf or to provide advice and assurance to the Board in the exercise of its functions."* In line with these requirements the Board has established a standing Committee structure, which it has determined best meets the needs of the health board, while taking account of any regulatory or Welsh Government requirements. Each Committee is chaired by an Independent Member of the Board and is constituted to comply with The Welsh Government Good Practice Guide – Effective Board Committees. All Committees annually review their Terms of Reference and Work Plans to support the Board's business. Committees also work together on behalf of the Board to ensure that work is planned cohesively and focusses on matters of greatest risk that would prevent the health board from meeting our mission's aims and objectives.

During 2018-19, a full and considered review of the Board's committee structure and each of the terms of reference was undertaken. This review highlighted the need for a refreshed approach to ensure: an appropriate balance between strategy and performance; and reduced duplication and increased integration between committees. Work has been taken forward to develop revised committee arrangements, and these were formally approved by the Board in March 2019, for implementation in 2019-20. A paper outlining the changes made and agreed by the Board can be found on the Board section of the health board website.

The Committees that were in place during 2018-19 were:

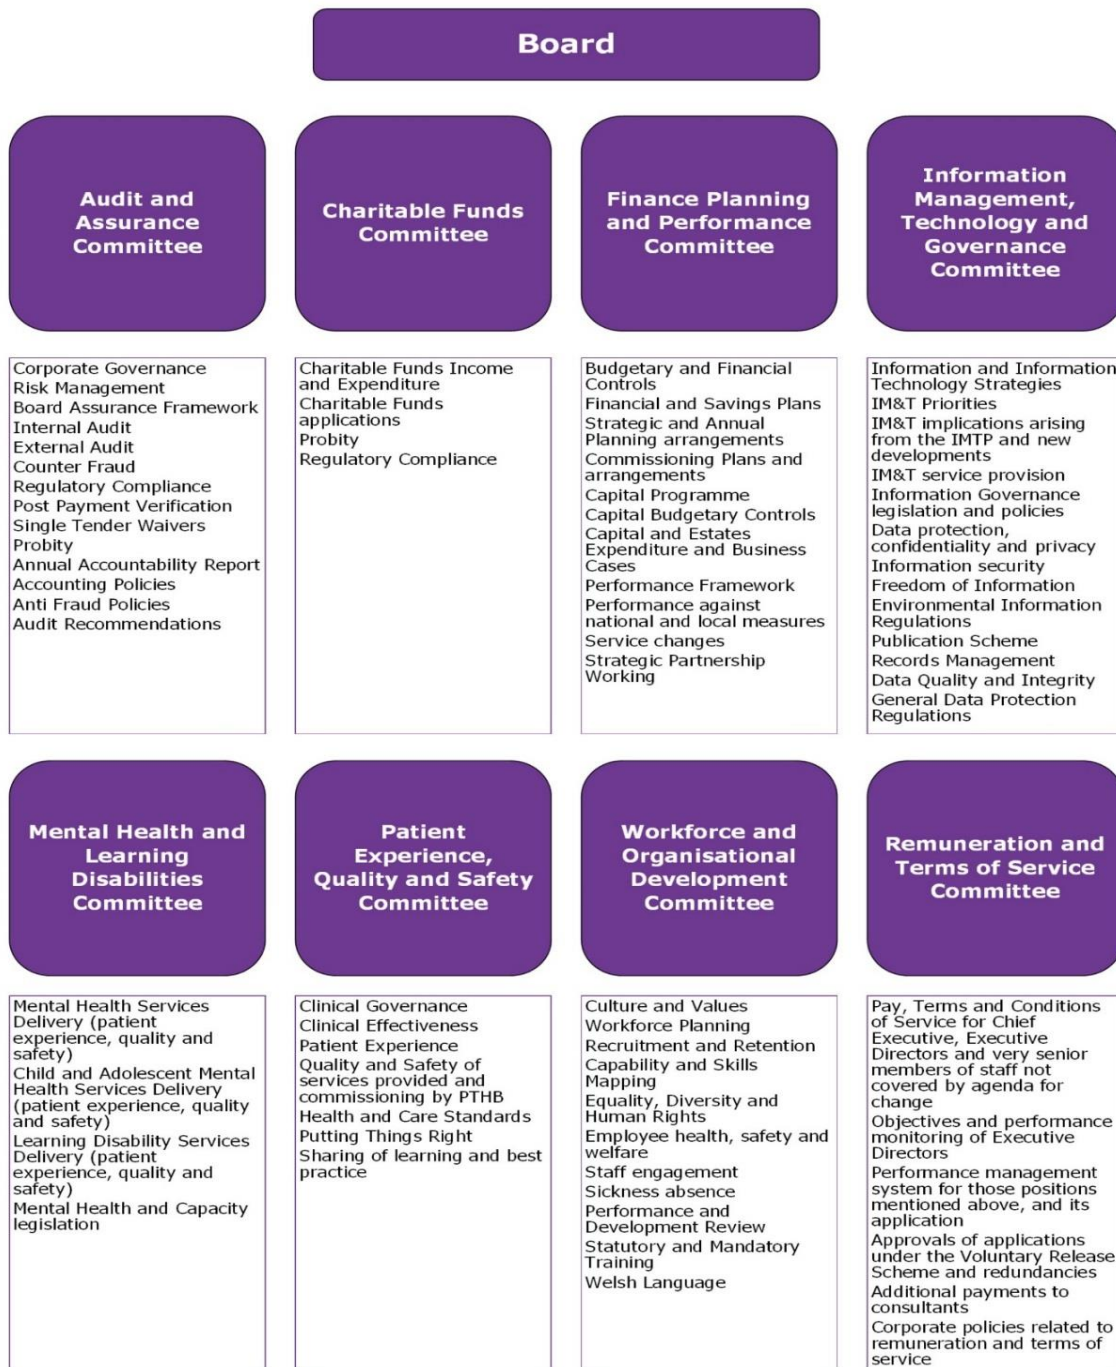

- Audit & Assurance Committee
- Charitable Funds Committee
- Executive Committee
- Finance, Planning and Performance Committee
- Information Management, Technology and Governance Committee
- Mental Health and Learning Disabilities Committee
- Patient Experience, Quality and Safety Committee
- Remuneration and Terms of Service Committee
- Workforce and Organisational Development Committee

The detailed Terms of Reference and Operating Arrangements, agendas and papers for each of these Committees can be found on the health board website.

The Chair of each Committee reports to the Board on the committees' activities. This contributes to the Board's assessment of risk, levels of

assurance and scrutiny against the delivery of objectives. Further, in line with Standing Orders, each committee has produced an annual report, for 2018-19, setting out a helpful summary of its work. These annual reports were considered in a public session of the Board and can be accessed on the health board website.

Figure 2: Roles and Responsibilities of Committees of the Board

The Board and its Committees meet in public and throughout the year, and attendance is formally recorded within the minutes, detailing where apologies have been received and deputies have been nominated.

Figure 3: Board and Committee meetings held during 2018-19

Details of Board Members and their attendance at the Board can be found at **Appendix 1**.

ITEMS CONSIDERED BY THE BOARD IN 2018-19

During the 2018-19 the Board held:

- Six meetings in public;
- One extra-ordinary meeting held in public to consider a Consultation on the Provision of Adult Thoracic Surgery Services in South Wales;

- One Annual General Meeting; and
- Six development sessions.

All meetings of the Board held in 2018-19 were appropriately constituted with the required quorum.

Governance, Risk Management and Assurance

In May 2018, the Board approved: revised Standing Orders; a revised Scheme of Reservation and Delegation of Powers; and recommended amendments to the Terms of References of the Committees of the Board.

The Board received regular updates on, and participated in, the further development and strengthening of risk management and assurance arrangements across the organisation.

In March 2019, the Board approved its Board Assurance Framework, acknowledging that this required further development and embedding into ways of working. The [Board Assurance Framework](#) is available on the health board website.

Integrated Medium Term Plan (IMTP) 2019/20 -2021/22

The Health and Care Strategy for Powys 'A Healthy Caring Powys' continues to provide a robust strategic context for the IMTP for 2019/2020 – 2021/2022. This provides the long-term strategy that has been agreed jointly between the health board, the local authority and the Regional Partnership Board, as the Local Area Plan for Powys. The IMTP for 2019/2020 – 2021/2022 represents Year Two of the delivery of this long term strategy. Further to Board approval, the IMTP 2019/2020 – 2021/2022 received approval from Welsh Government in March 2019.

Strategic Planning

During 2018-19 the Board has considered and approved a number of capital business cases for submission to Welsh Government:

- Bro Ddyfi Community Hospital – the Board approved (for submission to Welsh Government) a Full Business Case (FBC) for the upgrade of the front block of Bro Ddyfi Community Hospital (BDCH) and the clinical reconfiguration of the same.
- Business Justification Case: Dialysis Unit Expansion, Llandrindod Wells Memorial Hospital - the Board approved (for submission to Welsh Government) a single stage Business Justification Case in support of the extension of renal dialysis services at Llandrindod Wells War Memorial Hospital.

Service Change

Response to the Hywel Dda University Health Board Consultation 'Our Big NHS Change'

The Board considered and agreed its response to Hywel Dda University Health Board's (HDUHB) Consultation 'Our Big NHS Change'. This consultation proposed a new model of care for services that are 'safe, sustainable, accessible and kind'. The Board responded to the consultation as a commissioner of services provided by HDUHB, and as a neighbouring health board and collaborating partner in the Mid Wales and South West Wales NHS regional planning landscape.

Response to the 'Future Fit' consultation on hospital services provided at Royal Shrewsbury Hospital and Princess Royal Hospital, Telford

The Board considered and approved its response to the 'Future Fit' consultation on hospital services provided at Royal Shrewsbury Hospital and Princess Royal Hospital, Telford. The Future Fit Programme is led by NHS Shropshire Clinical Commissioning Group (CCG) and NHS Telford & Wrekin CCG, and relates to hospital services provided by Shrewsbury & Telford NHS Hospitals at both of its sites namely the Royal Shrewsbury Hospital (RSH) and Princess Royal Hospital Telford (PRH). The Board responded to the consultation as a commissioner of health services on behalf of people in Powys and as a sponsor organisation on the NHS Future Fit Programme.

Thoracic Surgery Review

The Board considered the outcome of Public Consultation and Recommendations from the Welsh Health Specialised Services Committee on the Future Service Model for adult thoracic surgery in South Wales.

The Board received regular updates and assurances in relation to other external change programmes, including: Abertawe Bro Morgannwg University Health Board – 'Your NHS Help US Change for the Better'; and Hereford and Worcestershire STP – Stroke Programme.

Nurse Staffing Levels (Wales) Act

The Nurse Staffing Levels (Wales) Act 2016 came into force on 21 March 2016, and has had a phased commencement with full implementation required from 6 April 2018. In May 2018, the Board received a position report from the Director of Nursing regarding local implementation of the Act, with assurance that all necessary steps had been taken to ensure

compliance for provided services. In terms of services commissioned from other providers, safe staffing is included as a requirement within the Long Term Agreement and staffing levels are monitored through the Board's Commissioning Assurance Framework.

In addition to the above, the Board:

- Approved the Annual Accounts for 2017-18;
- Approved the Resource Plans for 2018-19;
- Received feedback from service users and patients through experience stories;
- Received annual reports on Therapies and Health Sciences and Nursing and Midwifery;
- Approved and monitored the Discretionary Capital Programme;
- Received, considered and discussed financial performance and the related risks being managed by the health board;
- Received regular reports on quality governance, including annual reports for patient experience; Putting Things Right; safeguarding; infection prevention and control;
- Approved a Health and Safety Position Report which provided an overview of the key health and safety improvements delivered throughout the health board during the period 2016-2018;
- Routinely considered the Board's performance in relation to key national and local targets and agreed mitigating actions in response to improve performance where appropriate.
- Routinely received assurance reports from the Committees and Advisory Groups of the Board.

ITEMS CONSIDERED BY COMMITTEES OF THE BOARD

During 2018-19, Board Committees considered and scrutinised a range of reports and issues relevant to the matters delegated to them by the Board. Reports considered by the committees included a range of internal audit reports, external audit reports and reports from other review and regulatory bodies, such as Healthcare Inspectorate Wales and Powys Community Health Council.

As was the case in previous years, the Committees' consideration and analysis of such information has played a key role in my assessment of the effectiveness of internal controls, risk management arrangements and assurance mechanisms.

The Committees also considered and advised on areas of local and national strategic developments and new policy areas. Board Members are also involved in a range of other activities on behalf of the Board, such as Board

development sessions (at least six a year), attending partnership meetings, shadowing and a range of other internal and external meetings.

An overview of the key areas of focus for each of the Board committees is set out in **Figure 4** that follows.

Figure 4: Key Areas of Focus of Committees of the Board

<p>Audit and Assurance Committee</p>	<ul style="list-style-type: none"> ▪ Approved the Internal Audit Plan for 2018-19 ▪ Oversaw the delivery of a programme of internal and external audit reports ▪ Sought assurance in relation to Post Payment Verification Checks ▪ Kept an overview of the adequacy of Local Counter Fraud Services ▪ Monitored the implementation of audit recommendations ▪ Kept under review the health board’s arrangements for risk management and assurance ▪ Reviewed and sought assurance on the accuracy of Annual accounts ▪ Oversaw the Governance Improvement Programme
<p>Executive Committee</p>	<ul style="list-style-type: none"> ▪ Took forward actions arising from the Integrated Performance Report and performance managing the delivery of those action plans. ▪ Kept the operational effectiveness of policies and procedures under review. ▪ Scrutinised key reports and strategies prior to their submission to other Committees of the Board and/or the Board to ensure their accuracy and quality. ▪ Provided a strategic view of issues of concern ensuring co-ordination between directorates. ▪ Provided advice to the Committees of the Board and/or the Board on matters related to quality, safety, planning, commissioning, service level agreements and change management initiatives. ▪ Ensured staff are kept up to date on health board wide issues. ▪ Acted as the forum in which Directors and senior managers can formally raise concerns and issues for discussion, making decisions on these issues.
<p>Charitable Fund Committee</p>	<ul style="list-style-type: none"> ▪ Scrutinised applications for charitable funds ▪ Kept and overview of charitable funds income and expenditure
<p>Finance, Planning and</p>	<ul style="list-style-type: none"> ▪ Oversaw the delivery of the health board’s performance against the National Outcomes Framework, the

Performance Committee	<p>Integrated Medium Term Plan and related Annual Plan, and key local outcomes.</p> <ul style="list-style-type: none"> ▪ Ensured there is an effective business planning process in place. ▪ Kept budgets and savings plans under review ▪ Reviewed delivery plans ▪ Oversaw the delivery of the health board’s discretionary capital programme ▪ Sought assurance in relation to the health board’s financial performance ▪ Sought assurance in relation to commissioning arrangements
Information Management, Technology and Governance Committee	<ul style="list-style-type: none"> ▪ Kept key Information Governance performance indicators unreview ▪ Kept an overview of the General Data Protection Regulation Preparedness ▪ Received regular data breach reports for : <ul style="list-style-type: none"> ✓ Serious reportable data breaches to the Information Commissioner and the Welsh Government ✓ Sensitive information ▪ Received regular reports to monitor data quality. ▪ Received regular reports to monitor information governance risk assessments. ▪ Received and considered audits and assessments against the Caldicott Standards and the relevant Health and Care Standards. ▪ Received regular reports on FOI requests
Mental Health and Learning Disabilities Committee	<ul style="list-style-type: none"> ▪ Kept under review the health board’s Dementia Plan ▪ Sought assurances in relation to: <ul style="list-style-type: none"> ○ Veterans’ Mental Health Services ○ Integrated Services for Autism ○ Learning Disability Services ○ Older and Adult Mental Health Services ○ Mental Health Estates Matters ○ Child and Adolescent Mental Health Services ▪ Kept under review progress in delivery of the Hearts and Minds Mental Health Partnership Delivery Plan ▪ Reviewed the performance of mental health and learning disability services against national targets
Patient Experience, Quality and Safety Committee	<ul style="list-style-type: none"> ▪ Reviewed performance against key patient experience, quality and safety indicators ▪ Kept under review the health board’s performance in relation to falls, pressure damage and mortality

	<ul style="list-style-type: none"> ▪ Sought assurance in relation to the quality of services provided by PTHB and the bodies from which it commissions services ▪ Monitored the health board’s approach to complaints and concerns ▪ Sought assurance in relation to specific issues, for example, services provided by the Shrewsbury and Telford NHS Trust ▪ Oversaw the development of the Annual Quality Statement ▪ Received reports on matters such as infection prevention and control and safeguarding
<p>Workforce and Organisational Development Committee</p>	<ul style="list-style-type: none"> ▪ Reviewed performance against key workforce indicators ▪ Sought assurances and kept the following under review: <ul style="list-style-type: none"> ○ Recruitment and the Recruitment Strategy ○ Personal Appraisal and Development ○ Mandatory and Statutory Training ○ Talent Management Strategy ○ Wellbeing at Work ○ Welsh Language requirements ○ Equality and Diversity ▪ Received regular updates on the Chat to Change programme ▪ Monitored the steps taken to engage staff in the 2018 Staff Survey ▪ Received regular updates on the Staff Excellence Awards

BOARD DEVELOPMENT

During the year, the Board took part in a number of development sessions which covered topics that included risk management, assurance arrangements, strategic planning, consultations, key issues and hot topics and presentations from partner organisations, such as the Public Health Wales NHS Trust and NHS Wales Shared Services Partnership.

THE CORPORATE GOVERNANCE CODE AND THE BOARD'S SELF ASSESSMENT OF ITS EFFECTIVENESS

The Corporate Governance Code currently relevant to NHS bodies is '[The Corporate governance code for central government departments](#)'. This can be found on the Welsh Government website.

The health board like other NHS Wales organisations is not required to comply with all elements of the Code, however the main principles of the Code stand as they are relevant to all public sector bodies.

The Corporate Governance Code is reflected within key policies and procedures. Further, within our system of internal control, there are a range of mechanisms in place which are designed to monitor our compliance with the code, these include:

- Self-assessment;
- Internal and external audit; and
- Independent reviews.

The Board is clear that it is complying with the main principles of the Code, and is conducting its business openly and in line with the Code, and that there were no departures from the Code as it applies to NHS bodies in Wales.

During the latter part of the year the Board and its Committees undertook self-assessments of their effectiveness and development needs. These are referenced in Committee annual reports on the health board website.

In October 2018, the Board held a development session to discuss its approach to develop an Organisational Development Strategic Framework. The Board will consider the Strategic Framework for approval in May 2019.

In January 2019, the Board took the opportunity to reflect on the effectiveness of the Board, completing individually a self-assessment, based on NHS Improvement's (NHS England) Well-led Framework for Leadership and Governance Developmental Reviews. The Well-led Framework supports boards to maintain and develop the effectiveness of their leadership and governance arrangements. The tool asked Board members 8 questions (key lines of enquiry) for consideration.

The table provided at **Figure 5** presents the overall position (as a majority response) of the Board's assessment, against the eight questions asked.

Figure 5: Outcome of Self-Assessment

Key Question	The Board's Assessment
Is there the leadership capacity and capability to deliver high quality, sustainable care?	Partially meets expectations, but confident in management's capacity to deliver green performance within a reasonable timeframe
Is there a clear vision and credible strategy to deliver high quality, sustainable care to people, and robust plans to deliver?	Meets or exceeds expectations
Is there a culture of high quality, sustainable care?	Partially meets expectations, but confident in management's capacity to deliver green performance within a reasonable timeframe
Are there clear responsibilities, roles and systems of accountability to support good governance and management?	Partially meets expectations, but confident in management's capacity to deliver green performance within a reasonable timeframe
Are there clear and effective processes for managing risks, issues and performance?	Partially meets expectations, but confident in management's capacity to deliver green performance within a reasonable timeframe
Is appropriate and accurate information being effectively processed, challenged and acted on?	Partially meets expectations, but confident in management's capacity to deliver green performance within a reasonable timeframe
Are there people who use services, the public, staff and external partners engaged and involved to support high quality sustainable services?	Partially meets expectations, but confident in management's capacity to deliver green performance within a reasonable timeframe
Are there robust systems and processes for learning, continuous improvement and innovation?	Partially meets expectations, but with some concerns on capacity to deliver within a reasonable timeframe

Rating	Definition	Evidence
Green	Meets or exceeds expectations	Many elements of good practice and there are no major omissions
Amber-green	Partially meets expectations, but confident in management's capacity to deliver green performance within a reasonable timeframe	Some elements of good practice, no major omissions and robust action plans to address perceived gaps with proven track record of delivery
Amber-red	Partially meets expectations, but with some concerns on capacity to deliver within a reasonable timeframe	Some elements of good practice, some minor omissions. Actions plans to address perceived gaps are in early stage of development with limited evidence of track record of delivery
Red	Does not meet expectations	Major omission in quality governance identified. Significant volume of actions plans required and concerns about management's capacity to deliver

The outcome of this was reviewed by the Board at a Board Development Session in May 2019. Areas for improvement will be taken forward through the Board Development Programme for 2019/20 and the Annual Governance Programme 2019/20. Areas for inclusion will include development of: Board member skills, ability to analyse and interpret data and information; balancing strategic and operational matters; and the introduction of systematic health board learning.

Each Committee of the Board has also completed a self-assessment of its effectiveness. The outcomes of these assessment are being used to inform the future development of a Board Development Programme for 2019-20.

ADVISORY GROUPS

PTHB's Standing Orders require it to have three advisory groups in place. These allow the Board to seek advice from and consult with staff and key stakeholders. They are the:

- Stakeholder Reference Group
- Local Partnership Forum
- Healthcare Professionals' Forum

Information in relation to the role and terms of reference of each Advisory Group can be found in the health board's [Standing Orders](#), these can be found on the health board website.

The Local Partnership Forum is now well established. Work will be undertaken in 2019-20 to strengthen the Forum's operating arrangements and maximise its role in providing advice to the Board.

The first meeting of the Stakeholder Reference Group was held in September 2018. During 2019-20, work will be undertaken to review the

Group's membership, to ensure clarity on its role and purpose and ensure alignment with the Board's programme of business.

At the time of writing, the Board does not have in place its Healthcare Professionals' Forum. In the absence of this Group, the Board engages clinical professionals through its clinical directors (Medical Director, Director of Nursing, Director of Therapies and Health Sciences and Director of Public Health) and existing management groups such as the Heads of Nursing and Midwifery Group and the Heads of Therapies. The Board also engages with GPs through its cluster arrangements.

The Board agreed its [Annual Governance Programme 2019-20](#), at its meeting in March 2019. [The Annual Governance Programme](#) confirms that the Board will fully establish its advisory infrastructure in 2019-20. The Annual Governance Programme can be viewed on the health board website.

JOINT COMMITTEES

[Welsh Health Specialised Services Committee \(WHSSC\) & Emergency Ambulance Services Committee \(EASC\)](#)

The Welsh Health Specialised Services Committee and the Emergency Ambulance Services Committee are joint committees of Welsh Health, established under the Welsh Health Specialised Services Committee (Wales) Directions 2009 (2009/35) and 2014 (2014/9 (w.9)) (the WHSSC Directions) and the Emergency Ambulance Services Committee (Wales) Directions 2014 (2014/8 (W.8)) (the EASC Directions).

[NHS Wales Shared Services Partnership Committee](#)

A NHS Wales Shared Services Partnership Committee (NWSSPC) has been established under Velindre NHS Trust which is responsible for exercising shared services functions including the management and provision of Shared Services to the NHS in Wales.

More information on the governance and hosting arrangements of these committees can be found in the health board's [Standing Orders](#) on the health board website.

PARTNERSHIP AND COLLECTIVE WORKING

POWYS COUNTY COUNCIL

PTHB and Powys County Council have overarching Section 33 agreements through which the organisations manage joint arrangements for Information Communication Technology (ICT) services, reablement services, Glan Irfon Integrated Health and Social Care project, joint equipment and substance misuse services, and autism services. Mental health services, services for people with learning disabilities, older people, carers and children's services are also key joint areas for integrated working.

JOINT PARTNERSHIP BOARD

Powys has been made a region in its own right under Part 9 of the Social Services Wellbeing (Wales) Act 2014. In light of this and combined with the requirements of the Well-being of Future Generations Act (Wales) 2015 and the Social Services Wellbeing (Wales) Act 2014, and the collective drive towards increased integration between the health board and PCC, in February 2016, PTHB and PCC established a Joint Partnership Board. This brings together nominated strategic leaders from PCC and the health board to ensure effective partnership working across organisations within the county for the benefit of the people of Powys.

The Joint Partnership Board is responsible for oversight of the integration agenda. Formal [Terms of Reference](#) are in place and a collaborative agreement between the health board and PCC has been signed.

POWYS PUBLIC SERVICE BOARD

The Public Service Board (PSB) is the statutory body established by the Well-being of Future Generations (Wales) Act which brings together the public bodies in Powys to meet the needs of Powys citizens present and future. The aim of the group is to improve the economic, social, environmental and cultural well-being of Powys. Working in accordance with the five ways of working, the Board has published its Well-being Assessment and [Well-being Plan](#). [The Well-being Plan](#) which has been developed through extensive engagement sets out four local objectives for the Powys we want by 2040.

The health board contributes to achieving these objectives through the delivery of the [health and care strategy](#) and the Integrated Medium Term Plan ([IMTP](#)). The PSB has set out in its Well-being Plan 15 well-being steps that we will concentrate on during 2018-21 to contribute to achieving the

objectives. These steps are those where the biggest difference can be made by developing solutions together.

POWYS REGIONAL PARTNERSHIP BOARD

The Powys Regional Partnership Board (RPB) is the statutory legal body established in April 2016 by the Social Services and Well-being (SSWB) (Wales) Act. Its key role is to identify key areas of improvement for care and support services in Powys. The RPB has also been legally tasked with identifying integration opportunities between social care and health. This has been achieved through building on the years of joint working and through the development of the health and care strategy which has identified key priorities. The key opportunities for integrated working identified and the actions to be taken in support of them are outlined in the [Area Plan](#), which is available on the Powys County Council website, and focuses on 'Delivering the Vision'.

MID WALES JOINT COMMITTEE FOR HEALTH AND SOCIAL CARE (MWHC)

Following the Welsh Government's formal recognition of mid Wales as a designated planning area, the Mid Wales Healthcare Collaborative transitioned to the Mid Wales Joint Committee for Health and Social Care in March 2018. The Welsh Government's long-term plan for the future of health and social care in Wales, 'A Healthier Wales: Our Plan for Health and Social Care', sets out the long term future vision of a 'whole system approach to health and social care' which focuses on health, wellbeing and prevention of illness.

The Mid Wales Joint Committee supports this direction of travel and its Strategic Intent sets out what we will do to ensure there is a joined up approach to the planning and delivery of health and care services across Mid Wales over the next three years.

SOUTH EAST WALES REGIONAL PLANNING – DELIVERY FORUM

In 2017-18, the Cabinet Secretary for Health and Social Services, following discussions with Health Board Chairs, wrote asking that they establish Regional Planning arrangements that address at pace some of the clinical service redesign options where solutions sit outside individual Health Board boundaries.

The Regional Planning and Delivery Forum was therefore established, which includes the Chief Executive NHS Wales and Chair and Chief Executive representation from Cwm Taf University Health Board, Cardiff & Vale

University Health Board, Aneurin Bevan University Health Board, Abertawe Bro Morgannwg University Health Board, Powys Teaching Health Board, Velindre NHS Trust and Welsh Ambulance Services Trust.

Regular reports on the work of our Joint Committees and partnership Boards are provided by the Chief Executive to the Board at each meeting and can be viewed on the health board website.

THE PURPOSE OF THE SYSTEM OF INTERNAL CONTROLS

As I have reported in previous Annual Governance Statements, the system of internal control operating across Powys Teaching Health Board is designed to manage risk to a reasonable level rather than to eliminate all risk of failure to achieve policies, aims and objectives. It can therefore only provide reasonable and not absolute assurance of effectiveness. The system of internal control is based on an ongoing process designed to identify and prioritise the risks to the achievement of policies, aims and objectives of the health board, to evaluate the likelihood of those risks being realised and to manage them efficiently, effectively and economically.

I can confirm the system of internal control has been in place at the health board for the year ended 31 March 2019 and up to the date of approval of the annual report and accounts.

CAPACITY TO HANDLE RISK AND KEY ASPECTS OF THE CONTROL FRAMEWORK

As Accountable Officer, I have overall responsibility for risk management and report to the Board on the effectiveness of risk management across the health board. My advice to the Board has been informed by executive officers, feedback received from Board Committees; in particular the Audit and Assurance Committee and Patient Experience, Quality and Safety Committee.

Executive Committee (Committee of the Board, as per page 17) meetings present an opportunity for executive directors to consider, evaluate and address risk and actively engage with and report to the Board and its committees on the organisation's risk profile.

The health board's lead for risk is the Board Secretary, who is responsible for establishing the policy framework and systems and processes that are needed for the management of risks within the organisation. Depending on the nature of risk, other Directors will take the lead, for example, patient safety risks fall within the responsibility of the Medical Director, Director of Nursing, and Director of Therapies and Health Science.

THE RISK MANAGEMENT FRAMEWORK

Robust risk management is seen by the Board as being integral to good management and the aim is to ensure it is integral to the health board's culture. It is an increasingly important element of the health board's planning, budget setting and performance processes.

The Board's [Risk Management Framework](#) sets out the health board's processes and mechanisms for the identification, assessment and escalation of risks. It has been developed to create a robust risk management culture across the health board by setting out the approach and mechanisms by which the health board will:

- make sure that the principles, processes and procedures for best practice risk management are consistent across the health board and fit for purpose;
- ensure risks are identified and managed through a robust organisational Assurance Framework and accompanying Corporate and Directorate Risk Registers;
- embed risk management and established local risk reporting procedures to ensure an effective integrated management process across the health board's activities;
- ensure strategic and operational decisions are informed by an understanding of risks and their likely impact;
- ensure risks to the delivery of the health board's strategic objectives are eliminated, transferred or proactively managed;
- manage the clinical and non-clinical risks facing the health board in a co-ordinated way; and
- keep the Board and its Committees suitably informed of significant risks facing the health board and associated plans to treat the risk.

The [Risk Management Framework](#) sets out a multi-layered reporting process, which comprises the [Assurance Framework](#) and [Corporate Risk Register](#), Directorate Risk Registers, Local Risk Registers and Project Risk Registers. It has been developed to help build and sustain an organisational culture that encourages appropriate risk taking, effective performance management and organisational learning in order to continuously improve the quality of the services provided and commissioned.

The [Risk Management Framework](#) sets out the ways in which risks will be identified and assessed. It is underpinned by a number of policies which relate to risk assessment including incident reporting, information governance, training, health and safety, violence and aggression, complaints, infection control, whistle blowing, human resources, consent, manual handling and security.

The [Risk Management Framework](#) is available on the health board website.

EMBEDDING EFFECTIVE RISK MANAGEMENT

Embedding effective risk management remains a key priority for the Board as it is integral to enabling the delivery of our objectives, both strategic and operational, and most importantly to the delivery of safe, high quality services.

During 2018-19, both Wales Audit Office and Internal Audit identified that further improvements were required in respect of risk management arrangements. At the end of 2017-18, an Internal Audit review which focused on the operational management of risk, including the organisation's approach to training, risk identification and assessment, was rated as providing **limited assurance**. In response to this, a Risk Management Improvement and Deployment Plan was approved by the Executive Committee in May 2018 and discussed by the Audit and Assurance Committee in July 2018.

In March 2019, Internal Audit undertook a follow-up review of progress made against recommendations made in the initial review in 2017-18. The review concluded that the level of assurance the Board could take in respect of the effectiveness of the system of internal control in place to manage the risks associated with Risk Management was **limited assurance**.

I recognise that Internal Audit were unable to provide assurance that the Board's responsibilities for risk management were effectively discharged over a two year period. Whilst weaknesses in the operational oversight of risk and the format and content of risk registers were highlighted, the Board did continue to receive and review its corporate risk register to ensure that strategic risks were managed.

Internal Audit advised that progress had been made in Quarter 4 of 2018-19, with an increase of oversight capacity and support with the formation of a multi-directorate/discipline [Risk and Assurance Group](#), which is constituted by Assistant Directors and senior managers and held its inaugural meeting in January 2019. The [Risk and Assurance Group](#) is responsible for leading the implementation of the risk, control and assurance processes established within the organisation. The Group reviews them and reports on any weaknesses identified to ensure that the Board has in place effective systems for the reporting of risk, and the management of risk registers and the Board's Assurance Framework.

The Annual Governance Programme, approved by the Board in March 2019, includes a focus on embedding a risk and assurance culture. The health board has appointed into two key senior posts: Head of Risk and Assurance and the Head of Corporate Governance. The impact of these is expected to materialise by strengthening the current risk management arrangements during 2019-20.

During 2019-20, the Board's Committees will develop further their annual work programmes, focussing on areas of risk and assurance need, informed by the Assurance Framework and Corporate Risk Register.

RISK APPETITE

HM Treasury (2006) define risk appetite as:

The amount of risk that an organisation is prepared to accept, tolerate, or be exposed to at any point in time'.

The Board's Risk Appetite Statement sets out the Board's strategic approach to risk-taking by defining its risk appetite thresholds. It is a 'live' document that will be regularly reviewed and modified, so that any changes to the organisation's strategies, objectives or its capacity to manage risk are properly reflected.

In developing the [Risk Appetite Statement](#) careful consideration was given to the health board's capacity and capability to manage risk.

The following risk appetite levels, developed by the Good Governance Institute, informed the Statement:

Figure 6: Description of Risk Appetite

Appetite Level	Described as:
None.	Avoid the avoidance of risk and uncertainty is a key organisational objective.
Low.	Minimal the preference for ultra-safe delivery options that have a low degree of inherent risk and only for limited reward potential.
Moderate.	Cautious the preference for safe delivery options that have a low degree of inherent risk and may only have limited potential for reward.
High	Open and being willing to consider all potential delivery options and choose while also providing an acceptable level of reward (and VfM).
Significant.	Seek and to be eager to be innovative and to choose options offering potentially higher business rewards (despite greater inherent risk. Or also described as Mature being confident in setting high levels of risk appetite because controls, forward scanning and responsiveness systems are robust.

The [Risk Appetite Statement](#) makes it clear that the Board has **no appetite** for accepting or pursuing risks that may have an adverse impact on the quality or safety of the services it provides or commissions. [The Risk Appetite Statement](#) is included within the [Risk Management Framework](#), which is available on the health board website.

THE HEALTH BOARD'S RISK PROFILE

As can be seen from the Heat Map at **Figure 7**, at the end of March 2019 a number of key risks to the delivery of the health board's strategic objectives had been identified. Full details of the controls in place and actions taken to address these risks can be found in the [Corporate Risk Register](#).

Figure 7: Risk Heat Map: 31 March 2019

Impact	Catastrophic	5					
	Major	4			<ul style="list-style-type: none"> ▪ the health board breaches IG Standards and legislative requirements, such as the General Data Protection Regulations ▪ fragmented and unsustainable service models as a result of changing need and service reconfiguration of neighbouring bodies ▪ there is a Service Failure of Out of Hours GMS Care ▪ effective governance arrangements are not embedded across all parts of the health board ▪ the health board does not meet its statutory duty to achieve a breakeven position 	<ul style="list-style-type: none"> ▪ sustainable safe services that meet national targets are not commissioned ▪ ICT systems are not robust or stable enough to support safe, effective and up to date care ▪ the care provided is compromised due to the health board's estate being non-compliant and not fit for purpose ▪ the health board is unable to attract, recruit and retain staff ▪ resources (financial and other) are not fully aligned to the health board's priorities ▪ a "no deal" Brexit scenario adversely impacts PTHB systems and services 	
	Moderate	3				<ul style="list-style-type: none"> ▪ the health board does not comply to the Welsh Language standards, as outlined in the compliance notice 	
	Minor	2					
	Negligible	1					
			1	2	3	4	5
	Likelihood	Rare	Unlikely	Possible	Likely	Almost Certain	

An overview of the key risks (i.e. those in the red section of the Heat Map) and actions taken is provided in **Figure 8** over page.

Figure 8: Key Risks and Controls

RISK DESCRIPTION	CONTROLS IN PLACE, ACTION TAKEN & IMPROVEMENT ACTIONS
Sustainable safe services that meet national targets are not commissioned	<p>CONTROLS IN PLACE/ACTION TAKEN:</p> <ul style="list-style-type: none"> ▪ Executive Committee Strategic Planning & Commissioning Group (including consideration of fragile services) ▪ Regular review at Delivery and Performance Meetings ▪ Scrutiny by Finance, Planning and Performance Committee ▪ Scrutiny by Patient Experience, Quality and Safety Committee ▪ Contract Quality and Performance Review Meetings for the 15 NHS Providers ▪ Individual Patient Funding Request Panel and Policy ▪ WHSCC Joint Committee and Management Group ▪ WHSCC ICP agreed within PTHB IMTP ▪ Emergency Ambulances Services Committee <p>IMPROVEMENT ACTIONS TO BE TAKEN FORWARD IN 2019-20:</p> <ul style="list-style-type: none"> ▪ Embed whole system commissioning through the implementation of the Strategic Commissioning Framework ▪ Embed and ensure implementation of the Commissioning Assurance Framework ▪ Implement commissioning intentions for 2019-20 ▪ Robustly manage the performance of all providers of planned care services for the people of Powys through the Commissioning Assurance Framework ▪ Strengthening of Business Intelligence and Information across the organisation
Lack of a robust and stable ICT system	<p>CONTROLS IN PLACE/ACTION TAKEN:</p> <ul style="list-style-type: none"> ▪ Development of a Joint ICT Strategy with Powys County Council ▪ Establishment of an ICT Programme Board and relevant Project Boards ▪ Engagement and input in to the National Implementation Board ▪ Disaster Recovery arrangements in place ▪ Regular Scrutiny by Information Management, Technology and Governance Committee ▪ System Performance Measures in place <p>IMPROVEMENT ACTIONS TO BE TAKEN FORWARD IN 2019-20:</p> <ul style="list-style-type: none"> ▪ Specific Well-being Objective – Digital First with ‘Digital Infrastructure’ set as an Organisational Priority in the health board’s Annual Plan for 2019-20. ▪ Increase flexibility for accessing information and systems (anytime/anywhere/any device) including through improved connectivity e.g. mobile coverage, broadband, wi-fi and modern, agile ready systems with integration by design. ▪ Improve information storage, server hosting, security and disaster recovery, back up and archiving capabilities.

RISK DESCRIPTION	CONTROLS IN PLACE, ACTION TAKEN & IMPROVEMENT ACTIONS
Breach of statutory duty to break even	<p>CONTROLS IN PLACE/ACTION TAKEN:</p> <ul style="list-style-type: none"> ▪ Financial Plan in place ▪ Monthly meetings to monitor delivery of financial plan ▪ Budgetary Control Framework ▪ Contracting Framework ▪ Delivery and Performance Group (sub Group of Executive Committee) in place ▪ Regular scrutiny by Finance, Planning and Performance Committee <p>IMPROVEMENT ACTIONS TO BE TAKEN FORWARD IN 2019-20:</p> <ul style="list-style-type: none"> ▪ Financial management set as an Organisational Priority in 2019-20 Annual Plan. ▪ Strengthening of the capability and sustainability of the Finance Team
The health board is unable to attract, recruit and retain staff	<p>CONTROLS IN PLACE/ACTION TAKEN:</p> <ul style="list-style-type: none"> ▪ Embed a centralised temporary staffing unit for all staffing groups. ▪ Implementation of a Recruitment and Retention delivery plan ▪ Weekly reports on temporary staffing produced and shared with ICTM's and reviewed mid-week to ensure optimum cover options are explored. ▪ Quarterly recruitment events <p>IMPROVEMENT ACTIONS TO BE TAKEN FORWARD IN 2019-20:</p> <ul style="list-style-type: none"> ▪ Development of a proposal to pilot Health Care Support Worker development in order to support unqualified to qualified approach (NVQ level 2 training) ▪ Work with the All Wales team on the implementation of the benefits portal page and ensure that this provides the opportunity to capture any local initiatives that are in place ▪ Ensure that recruitment timescales are minimised and that issues of delay are appropriately and proactively managed to ensure recruitment performance indicators are consistent with national targets ▪ Develop potential alternative staffing models where appropriate
A "No Deal" Brexit scenario adversely impacts PTHB systems and services	<p>CONTROLS IN PLACE/ACTION TAKEN:</p> <ul style="list-style-type: none"> ▪ PTHB membership of/engagement in NHS national planning arrangements, through its current governance architecture (including WOD). ▪ Reviewing and updating PTHB business continuity plan (BCP) and arrangements in line with national directive. ▪ Continued engagement with Welsh Government, the Welsh NHS Confederation and other NHS partners and the Dyfed Powys Local Resilience Forum). ▪ Local risk assessment of "No Deal" Brexit, as part of BCP. ▪ Series of communications to lead officers. ▪ Participating in local planning, testing and reporting arrangements through the Dyfed Powys Local Resilience Forum. ▪ EU settled status pilot scheme promoted to PTHB workforce via regular Powys announcements. <p>IMPROVEMENT ACTIONS TO BE TAKEN FORWARD IN 2019-20:</p> <ul style="list-style-type: none"> ▪ Ensure arrangements are in place to continue to review and test local plan(s) as further clarity and information emerges regarding "No Deal" ▪ Issue further information and actions to PTHB staff, as these emerge
The care provided is compromised due to the	<p>CONTROLS IN PLACE/ACTION TAKEN:</p> <ul style="list-style-type: none"> ▪ Specialist sub-groups for each compliance discipline ▪ Risk based improvement plans introduced ▪ Specialist leads identified

RISK DESCRIPTION	CONTROLS IN PLACE, ACTION TAKEN & IMPROVEMENT ACTIONS
health board's estate being non-compliant and not fit for purpose	<ul style="list-style-type: none"> ▪ Estates Compliance Group and Capital Control Group established ▪ Medical Gases Committee; Fire Safety Group; Water Safety Group; Health & Safety Committee in place ▪ Capital Programme developed and approved <p>IMPROVEMENT ACTIONS TO BE TAKEN FORWARD IN 2019-20:</p> <ul style="list-style-type: none"> ▪ Capital and Estates set as a specific Organisational Priority in the health board's Annual Plan for 2019-20 with related Organisational Delivery Objectives ▪ Address (on an ongoing basis) maintenance and compliance issues ▪ Develop and implement actions to deliver improved environmental sustainability across the organisation including implementing ISO 14001, as well as old-age, dementia friendly and sensory stimulating environmental standards and best practice ▪ Address maintenance and compliance improvements to ensure patient environment is safe, appropriate and in line with standards. ▪ Implement the Capital Programme and develop the long term capital programme ▪ Develop capacity and efficiency of the Estates and Capital function

As referenced in the table above, in developing our Integrated Medium Term Plan for 2019-22 we gave careful consideration to the actions that we will take to mitigate such risks.

The Integrated Medium Term Plan also set out an initial risk assessment, which outlined an indication of the scale of risk contained within the financial framework. The risks included a range of delivery issues, partner compliance issues, delivery of savings targets, receipt of additional income and risks arising from the fact that assumptions had to be made based on current knowledge of the future pressures on the NHS. These risks have been monitored during 2018/19 by the Finance, Planning & Performance Committee and the Board.

During 2018/19, the Board agreed to reduce the likelihood of occurrence for a number of risks included in the Corporate Risk Register, due to the impact of mitigating actions being implemented or a change in circumstance. These included:

- A risk that there could be a service failure of Out of Hours GMS Care – reduced from High to Moderate in July 2018, in light of service provision by Shropdoc being sustained and successful implementation of the 111 Service
- A risk that the health board could breach IG standards and legislative requirements, such as the General Data Protection Regulation – reduced from High to Moderate in January 2019 in light of reasonable assurance on GDPR provided by Internal Audit.

The Audit and Assurance Committee has a key role in monitoring the effectiveness of internal control and the process for risk management. Work will be taken forward in 2019/20 to strengthen the reporting of risks to the Board's Committees.

Case studies and patient stories are presented to the Board and Concerns/Claims scrutiny panels, in order that lessons can be disseminated and shared.

General Practitioners (GPs), Pharmacists, Dental Practitioners, Optometrists, Nursing Care Homes, Voluntary organisations and those where we have partnership relationships for service delivery, e.g. Local Authorities and other health boards, are responsible for identifying and managing their own risks through the contractual processes in place.

KEY ASPECTS OF THE CONTROL FRAMEWORK

In addition to the Board and Committee arrangements described earlier in this document, I have over the last 12 months worked to further strengthen the health board's control framework. Key elements of this include:

THE HEALTH BOARD'S INTEGRATED MEDIUM TERM PLAN

The National Health Service Finance (Wales) Act of 2014, established a statutory duty on health boards to develop and publish a Board approved [Integrated Medium Term Plan](#) (IMTP) on an annual basis. Amendments to the National Health Service (Wales) Act 2006 also set out the statutory duty for health boards to have their IMTPs approved by Welsh Ministers.

In accordance with these legislative duties, the health board developed and published an approved [IMTP](#) for 2018-21, which was approved by the Cabinet Secretary for Health and Social Care. A copy of the plan is available on the health board website.

A detailed analysis of the health board's performance for 2018/19 can be found in the [PTHB Annual Report](#), which will be published in July 2019.

The health board continues to perform well against most of the directly influenced key targets set by Welsh Government. We are also performing well against the well-being objectives set jointly as part of the [Health and Care Strategy](#), A Healthy Caring Powys.

The health board delivered the financial target of breakeven in 2018/19 and remained within the Capital Resource Limit (CRL).

The following provides an overview of achievements for the period 2018 – 2019:

Focus on Well-being

- Working with dentists, optometrists and housing associations to reduce smoking to 18%
- Midwives started to deliver the flu vaccine and we achieved some of the best outcomes in Wales for flu immunisation.
- A training framework has been launched to increase awareness of Adverse Childhood experiences

Early Help and Support

- 500 people have been trained in 'Making Every Contact Count' with 12 new motivational interviewers.
- The Regional Partnership Board approved the Violence Against Women, Domestic Abuse and Sexual Violence Strategy and Powys achieved the highest level of Group 1 Training in Wales

The third sector Community Connectors have grown in strength helping the most vulnerable communities. They play a key role in multi-disciplinary team working.

The Big Four

- A Dementia Home Treatment Team has been implemented
- Capacity within CAMHS has been increased
- Online CBT has been expanded
- A bespoke training for mental capacity and deprivation of liberty has been delivered.
- A plan is in place for the Single Cancer Pathway and funding for the Improving Cancer Journey
- Patient Outcome questionnaire implemented for heart failure
- The Commissioning Framework has been further strengthened

Joined Up Care

- NHS 111 was successfully introduced
- Patient Flow Co-ordination Unit was introduced

We have managed significant strategic change consultations with extensive engagement in Powys on Future fit (Shrewsbury and Telford Hospitals) and Hywel Dda's long term plan

Workforce Futures

- Powys had good results in the staff survey and a high response rate, with areas of improvement informing our IMTP for 2019/2020
- Engagement with staff included Chat to Change, Chief Executive Roadshows, Well-being Group and activities including exercise, apple picking and policy debate and reading groups.

Digital First

- 83 teams are live on Welsh Clinical Portal
- WIFI has been extended across all GP surgeries where district nurses / health visitors work
- Mobile devices provided for staff
- Welsh Clinical Portal live in 8 wards

Innovative Environments

- Phase 1 of Llandrindod Wells scheme delivered
- A full Business Case for **Machynlleth** Hospital submitted
- We completed Stage 1 Audit for ISO14001
- We strengthened estates processes
- The Bright Ideas Hub to co-ordinate innovation was introduced

Transforming in Partnership

Fully approved 'A Healthy Caring Powys'

- Improving governance
- Delivery of financial balance

16

The health board's [IMTP](#) for 2019-20 to 2021-22 was approved by the board on 30 January 2019 and submitted to Welsh Government. The Minister for Health and Social Services confirmed that he had approved the health board's [IMTP](#) on 27 March 2019. A copy of the plan is available on the health board website. The [IMTP](#) also functions as the health board's Well-being Statement, demonstrating how through the actions to deliver our well-being objectives we are contributing to the seven well-being goals for Wales and in accordance with the sustainable development principle.

The [IMTP](#) has been developed within the context of the [Health and Care Strategy](#), published in July 2017. It sets out the vision to enable a 'Healthy Caring Powys', delivered through focusing on four core well-being objectives and four enabling well-being objectives underpinned by six delivery principles; Do What Matters, Do What Works, Focus on Greatest Need, Offer Fair Access, Be Prudent and Work with People and Communities.

Core Well-being Objectives

Focus on Well-being

Provide Early Help and Support

Tackle the Big Four

Enable joined Up Care

Enabling Well-being Objectives

Develop Workforce Futures

Promote Innovative Environments

Digital First

Transform in Partnership

The health board's planning approach continues to strengthen and mature. The approach is multi-faceted and takes into account the multiple planning streams across local, organisational and regional levels. The key principles of planning processes in the health board are to ensure:

- Patients are at the centre of service design and delivery.
- There is a clinically led planning environment with multi professional input.
- There is whole system planning, ensuring alignment with neighbouring provider plans.
- There is a transformation of commissioning and provider functions.
- Promotion of integration at a strategic and service level.
- There are internal relationships including staff side/trade unions.
- There are external relationships with key stakeholders.
- There are strong Community Health Council planning links.

In its Structured Assessment for 2018, the Wales Audit Office confirmed "*the Health Board's strategic planning is increasingly systematic with improving mechanisms for monitoring implementation and it is rolling out a new approach to translating its IMTP into action*".

INTEGRATED PERFORMANCE MANAGEMENT AND REPORTING

Delivery against the IMTP is managed through the Framework for Improving Performance with delivery and performance reported to the Board on a quarterly basis in the form of an Integrated Performance Report.

The objective of the framework is to ensure that information is available which enables the Board and other key personnel to understand, monitor and assess the organisation's performance against delivery of the IMTP,

enabling appropriate action to be taken when performance against set targets deteriorates, and support and promote continuous improvement in service delivery.

The Framework for Improving Performance is a contributor to the Board Assurance Framework which ensures that there is sufficient, continuous and reliable assurance on the management of the major risks to the delivery of strategic objectives and most importantly to the delivery of quality, patient centred services.

QUALITY GOVERNANCE STRUCTURE

The Board has a collective responsibility for quality. During 2018-19, there was a clear quality governance structure with the Patient Experience, Quality and Safety Committee and Mental Health & Learning Disabilities Committee holding executives to account and receiving reports on assurance and risks linked to patient experience, quality and safety.

This year as in previous years, the health board will publish its [Annual Quality Statement](#), which brings together a summary of how the organisation has been working over the past year to improve the quality of all the services it plans and provides. The report can be found on the health board website.

At each meeting of the Board a patient story is presented at the start. The use of first hand patient stories, that act of hearing and having an opportunity to connect with people using services, has enabled not just a more emotional connection with the impact of decisions made in the organisation but has also helped drive specific improvements in services. During 2018-19, the Board received presentations from service users, patients and families telling us of their experiences, including staff experience of using mental health services in Powys and the impact of a Discharge to Assess Model.

HEALTH AND CARE STANDARDS

Since inception of the Health and Care Standards (HCS) in April 2015, the health board has continued to make progress in embedding the standards across all areas. There is a well-established HCS Intranet page which holds materials and supporting documents, including Welsh Government guidance, which is accessible by all services. These documents are helpful in supporting services to undertake self-assessments, enabling them to monitor compliance against each of the standards. Organisational compliance against the standards is provided to the Quality and Safety Manager, using a virtual approach. There is clearly some excellent work

being undertaken to embed the standards, continuously identifying where improvements are required and action taken to make these improvements. During 2018, HCS Steering Group members agreed that the implementation phase had been completed and the Standards had therefore become business as usual. We will continue to review progress through a self-assessment of our quality framework.

BOARD MEMBER VISIBILITY

During 2018/19 a number of shadowing experiences have been undertaken to include facilities, palliative care, food tasting exercises, endoscopy, community hospitals to name a few. During 2018 the programme of '15 Steps' for Executive and Independent Members was discontinued following a formal evaluation of impact and presentation through a Board Development session. It was agreed that a process of 'shadowing' and 'back to the floor' would be more beneficial for Board members and more meaningful for staff members. During the annual self-assessment of the Patient Experience, Quality & Safety Committee 2018/19, it was agreed that a formal approach to shadowing needed to be introduced and this will be progressed by the Board Secretary and Director of Nursing for 2019/20.

HEALTH AND SAFETY

The role of Powys Teaching Health Board in relation to Health & Safety, is to provide a safe and healthy environment for patients, visitors, staff and contractors and other members of the public who have contact with the organisation. The Health Board continues to improve its governance and practice in respect of its health and safety responsibilities, through a specialist support function and through the practice of all staff. A requirement is placed on all employers which establishes the need for health and safety management arrangements to achieve the duty of care. The objective being to reduce the Health & Safety risk to all staff, patients, visitors and contractors. Best practice guidance published by the Health and Safety Executive assists employers to design a successful Health and Safety Management System, which the Health Board utilises.

During 2018/19, Internal Audit undertook a review of Health and Safety arrangements (excluding fire) and concluded that the Board could take 'limited assurance' as to the effectiveness of the system of internal control in place to manage the risks associated with Health and Safety. A number of management actions were agreed in response to the Internal Audit review and these will continue to be implemented in 2019/20.

In January 2019, the Health and Safety Executive undertook an inspection, as part of a national campaign. The inspection looked at two key areas; Manual Handling operations and Violence and Aggression. Inspections were carried out at Welshpool Memorial Hospital, Llandrindod Wells Hospital, Brecon War Memorial Hospital, Bronllys Hospital and Ystradgynlais Community Hospital.

A number of contraventions were noted by the Health and Safety Executive (HSE) for immediate action. A management action plan has been prepared in response to the Executive's findings. This will be presented to the Board's Experience, Quality and Safety Committee in June 2019 with ongoing monitoring of progress. The HSE will review progress against the management action plan during 2019/20.

COMMISSIONING DEVELOPMENT AND ASSURANCE FRAMEWORKS

Powys is unlike other Health Boards in Wales in that around 75% of the funding entrusted to it by Welsh Government is spent on securing healthcare from providers it does not directly manage. Our commissioning work spans the continuum through health promotion, primary care, secondary care, Specialised services, individual patient commissioning, continuing healthcare, partnership commissioning and joint commissioning with the local authority. As a highly rural area with no District General Hospital, 90% of admitted patient care and 80% of secondary care outpatients is delivered beyond its borders. It is a significant challenge to ensure that the quality and safety of the services its residents receive across five health economies, spanning England and Wales, in up to 30 different specialties is appropriate.

In 2018-19, under the Strategic Commissioning Framework, work has been undertaken to help strengthen the way in which the health board commissions services. In addition to a dedicated resource in the Quality and Safety department, work has been initiated to strengthen our intelligence about services through use of the Clinical Health Knowledge System and by strengthening the in-put of the Public Health Department.

As part of our commissioning approach we have in place a Commissioning Assurance Framework to help ensure we have a safer more holistic and robust understanding of the services currently commissioned - with a rules based approach to escalation. Work has been successfully undertaken with Wye Valley NHS to reduce key areas of concern including mortality indicators. Escalation processes have also been used in relation to services in special measures including Shrewsbury and Telford NHS Trust.

The dedicated lead for the quality and safety of commissioned services has populated a dashboard of key indicators covering key issues such as serious

incidents, mortality, pressure sores, hospital acquired infections and patient experience.

Assurances in relation to specialist services are reported to the Board through reports from the Welsh Health Specialised Services Committee strategic quality framework, and assurance on Emergency Ambulance Services through the Emergency Ambulance Services Committee. A major aspect of joint commissioning with the local authority is now subject to an approved Section 33 Agreement for care home functions, which will provide regular reports to the Regional Partnership Board. Updated policies and procedures for Individual Patient Funding Requests and European Economic Area cases have helped strengthened systems and processes in highly complex individual cases.

CLINICAL AUDIT

The Clinical Audit Strategy for 2017-2020 was approved in March 2017 and encompasses both the national clinical audit programme and locally-determined clinical audits. Key elements of the strategy include:

- To improve the management of the clinical audit programme
- To improve the determination and prioritisation of individual clinical audit projects, linked to clinical and organisational priorities and the resources available; and
- To improve the quality of clinical audit per se, including through action taken in response to the findings of clinical audit

Whilst progress had been made in the determination, management and reporting of clinical audit activity in the health board, the Wales Audit Office in its Structured Assessment 2017 recognised that the clinical audit strategy had not been fully implemented and that there should be "...more robust coordination of the Health Board's clinical audit programme..." In addition, the health board received a limited assurance review of the clinical audit programme from Internal Audit in February 2018.

In light of this, the Patient Experience, Quality & Safety Committee received an Improvement Plan for Clinical Audit in September 2018. The purpose of which to: fully underpin implementation of the PTHB Clinical Audit Strategy 2017-2020; and address the issues identified by Wales Audit Office and Internal Audit. Implementation of the improvement plan continues into 2019/20.

During 2018-19, Clinical Audits undertaken included:

- Primary Care - audits on managing patients with learning disabilities, children's immunisations and anticoagulation monitoring.
- National Audit of Care at the End of Life

- Falls Audit
- General Dental Services Quality Assurance self-assessment

Further detail in Clinical Audit can be found in the [Annual Quality Statement 2018-19](#).

COMPLAINTS AND CONCERNS FRAMEWORK

In 2018/19 we received 208 formal concerns. We have acknowledged and responded to:

- 77% of concerns within 2 working days. We know this is less than the 89% reported last year and that we need to improve. We achieved an average of 93.5% the latter 4 months of the year (range 86%-100%).
- 59% of formal concerns raised within 30 working days. This was less than last year which was 65%. Steps are being taken to ensure improved performance in 2019/20.
- 37% of formal concerns managed and responded to within 30 working days and 6 months, the same as the previous year.
- 4% of formal concerns managed and responded to within 6 months to 12 months.

Examples of concerns raised included access to services, continuing healthcare decisions, care and treatment provided and staff attitude.

Further detail on complaints and concerns can be found in the [Annual Quality Statement 2018-19](#) and [Putting Things Right Annual Report for 2018-19](#).

The health board has taken action to learn from formal and informal concerns. Examples such as:

- Improving the availability of dental services in Builth Wells.
- A new pathway for patients requiring surgery for carpal tunnel syndrome.
- Action taken to rationalise the provision of podiatry appointments, taking a risk-based and clinical prioritisation approach with a forward looking plan to recruit more podiatry staff and ensure timely care and treatment to patients.
- Improving communication to patients regarding rescheduled dental appointments.
- Explanations to patients that colonoscopy procedures may be uncomfortable.
- Staff attending training to raise awareness of the impact and effects of dementia on people.
- Staff reminded of the importance of treating enquiries and concerns equally and with respect.

- Recruitment of an ear care specialist nurse.
- System review of the community paediatric service.
- Working in partnership to develop alternatives to residential care and to improve outcomes for all adults with residential care needs.
- A review being undertaken into the telephone numbers for patients accessing Non-Emergency Patient Transport, with the aim of improving the overall patient experience.

More information on Putting Things Right can be found on the health board website.

MORTALITY REVIEWS

We have developed a robust process for undertaking mortality reviews that span deaths that occur in our community hospitals. This work continues to evolve and features prominently on the agenda of the Patient Experience, Quality and Safety Committee. The health board have also participated in the 'Once for Wales Mortality Review' Programme which is aimed at providing consistency in the use of software and datasets used to record/report mortality across all relevant NHS Wales organisations.

ANNUAL QUALITY STATEMENT

Each year we are required to publish an Annual Quality Statement. It provides an opportunity for the health board to let the people of Powys know, in an open and honest way, how we are doing to ensure all its services are meeting local need and reaching high standards. Each year it brings together a summary highlighting how the organisation is striving to continuously improve the quality of all the services it provides and commissions in order to drive both improvements in population health and the quality and safety of healthcare services.

The Annual Quality Statement provides the opportunity for the Board to routinely:

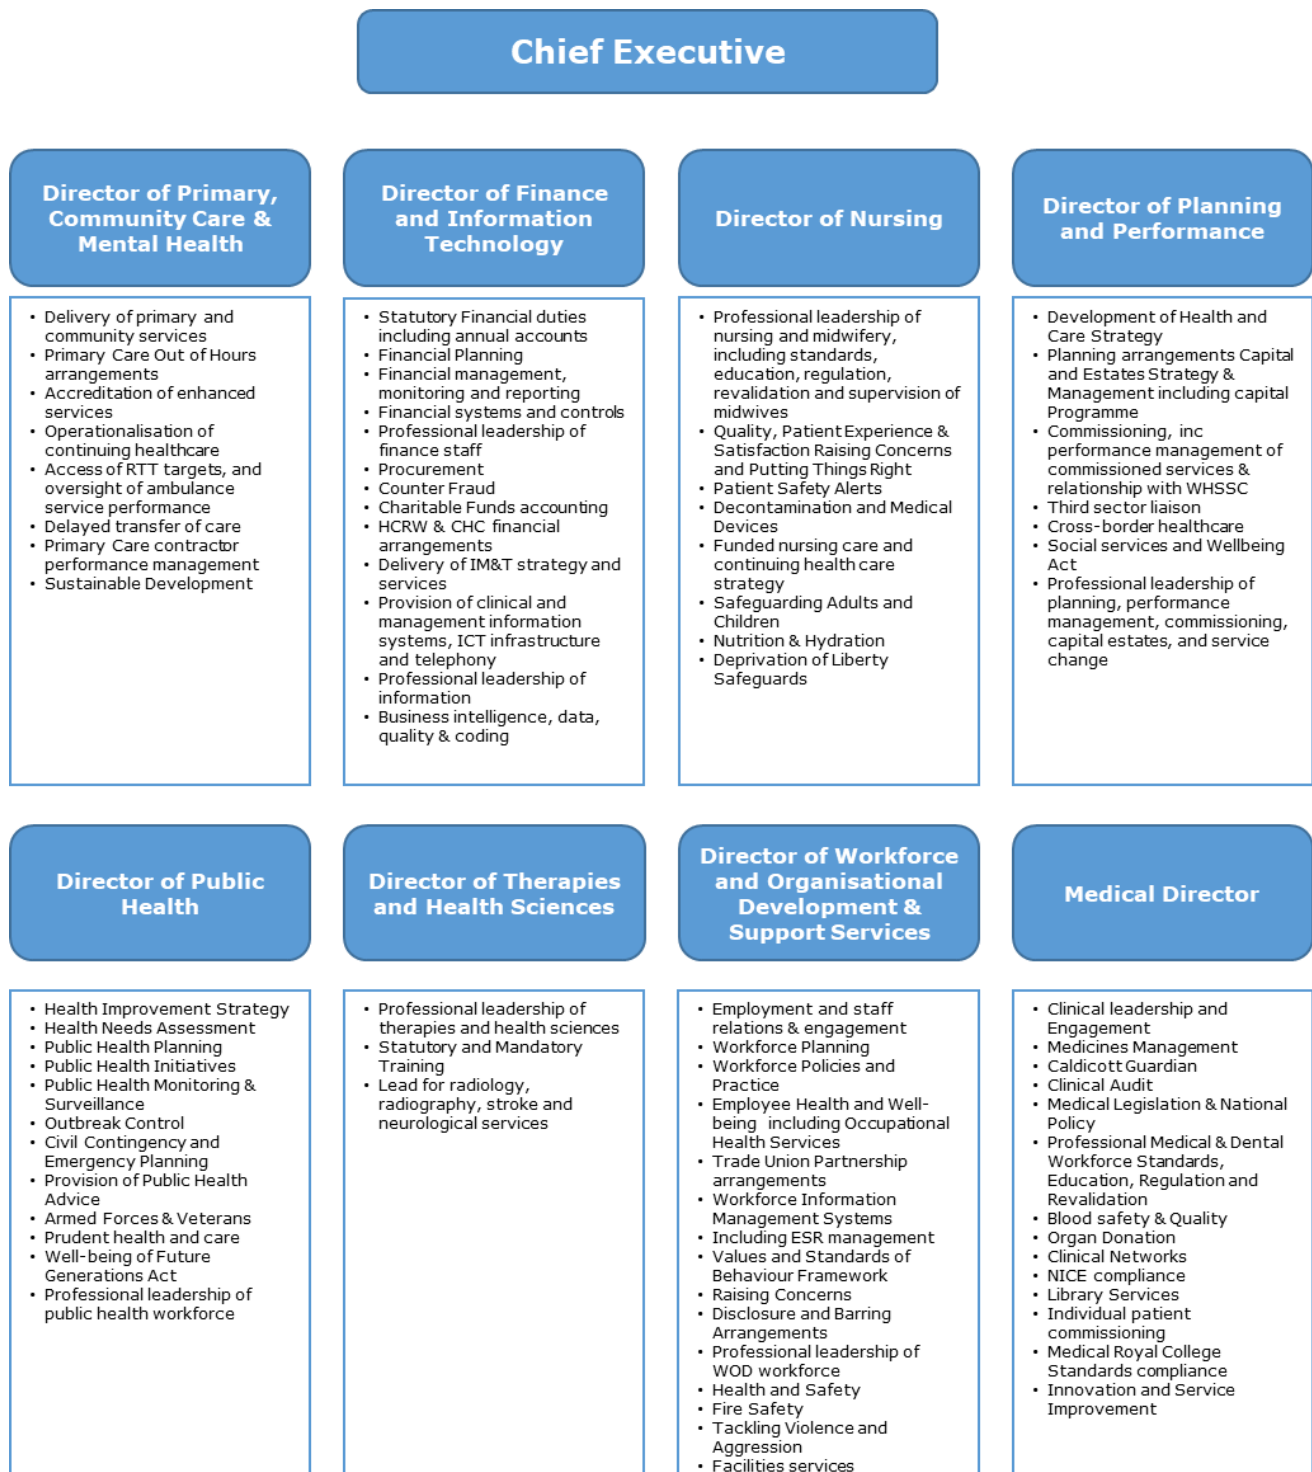

- assess how well they are doing across all services, including community, primary care and those where other sectors are engaged in providing services, including the third sector;
- identify good practice to share and spread more widely;
- identify areas that need improvement;
- track progress, year on year; and
- account to the public and other stakeholders on the quality of its services and improvements made.

The [Annual Quality Statement](#) will be published on 31 May 2019 and will be available on the health board website.

EXECUTIVE PORTFOLIOS

In May 2018, the Board approved an updated Scheme of Delegation and Reservation of Powers. This document set out the delegation of responsibility to Executive Directors. The allocation of responsibilities is based on ensuring an appropriate alignment of accountabilities and authority within each Directorate and Director portfolio, and to also ensure that directorates focus on their core responsibility. The Scheme of Delegation also supports the strengthening of clinical leadership. An overview of Executive Director portfolios is set out in **Figure 9**.

Figure 9: Executive Portfolios – May 2018

STAFF AND STAFF ENGAGEMENT

We engage with our staff in a number of ways which are part of the checks and balances we undertake to enable good governance.

The Board has in place a Local Partnership Forum as a formal advisory group. The purpose of the Local Partnership Forum provides a formal mechanism where the health board as employer, and trade unions/professional bodies representing the health board's employees work together to improve health services for the citizens of Powys, achieved through a regular and timely process of consultation, negotiation and communication. The Local Partnership Forum's allows engagement on local priorities on workforce and health service issues.

In addition to these formal mechanisms, we have a consultation process open to all staff for all new and revised organisational policies and staff engagement events. These mechanisms are used in parallel with Facebook, Twitter, Powys Announcements, a weekly Newsletter and other virtual ways for staff to share their work and opinions.

During 2018-19, the NHS Wales Staff Survey was undertaken. Our response rate was 50% (up from 35% in 2016) and was the highest response rate for a health board. The all-Wales response rate was 29%.

For overall job satisfaction and engagement, the engagement index score for Powys THB was 3.92, an improved score since the last survey in 2016 where the score was 3.82. The engagement index score for Powys was higher than the overall NHS Wales score of 3.82.

The results of the Survey also saw an improvement in all three themes for Powys since the 2016 outcome, with the position being above the overall NHS Wales scores for most questions. There were, however, areas which had shown less positive movements in scores: Stress at Work; Harassment, Bullying and Abuse; Welsh Language; and Change in the Organisation. These areas are being explored in further detail and an action plan for improvement will be delivered in 2019-20.

COMMUNICATION AND ENGAGEMENT

During 2018-19 we have continued to strengthen our systems and processes for engagement and communication. This has included the planning and delivery of a number of formal consultation programmes including the Dyfi Valley Health (PTHB-led) and the Powys contribution to Thoracic Surgery Services in South Wales (WHSSC-led) and NHS Future Fit, as well as supporting the Hywel Dda University Health Board "Our Big NHS

Change” consultation. Positive feedback has been received from the Powys Community Health Council for the work of the health board’s Engagement and Communication on key service change programmes. During the year we have also strengthened our stakeholder engagement and delivered a range of campaigns, publications and events with increasing levels of co-production with stakeholders. Examples include NHS 111 implementation in Powys, as well as the ongoing work as part of the Welsh Government-led Local Care and Support programme to promote alternatives to GP Primary Care. At the start of the year, the health board’s work on the previous year’s flu campaign also received national recognition as winners of the Beat Flu Awards, and this has provided a foundation to roll-out an innovative approach to use the health board’s vehicle fleet as “mobile billboards” to share public health messages on smoking, immunisation, flu and wider well-being issues.

This work will inform a review of the Health Board’s Stakeholder Engagement Strategy during 2019/20.

Shortly before year end, work commenced on the transition of the health board’s website from the Cascade Content Management System to a new platform being implemented by NWIS. Website migration will continue during 2019/20 before rolling out the new platform to the health board’s intranet.

Positive staff engagement and communication programmes have enabled us to maintain high levels of uptake of flu immunisation as well as high response rates to the NHS Wales Staff Survey, and to continue our programmes to embed our values to ensure a kind and compassionate culture across the organisation.

INFORMATION GOVERNANCE

The Board recognises that accurate, timely and relevant information is vital to support day to day clinical and business operations and the effective management of the Board’s services and resources to deliver high quality health care and to operate effectively as an organisation.

In readiness for the implementation of the new Data Protection Act 2018 (DPA) and General Data Protection Regulation (GDPR), the health board’s assessment against the Information Commissioner’s Office ‘12 Steps’ guidance enabled it to make good progress towards compliance in advance of the 25 May 2018 implementation date. A review of the arrangements in place was completed in line with the 2018/19 Internal Audit Plan.

The GDPR introduced a duty for the health board to appoint a data protection officer (DPO). Their remit includes; monitoring internal compliance, informing and advising on data protection obligations, providing advice regarding Data Protection Impact Assessments (DPIAs) and acting as a contact point for data subjects and the supervisory authority. This role has been assigned to the Information Governance Manager. The Medical Director, as Caldicott Guardian, is responsible for the protection of patient information. The Senior Information Risk Owner (SIRO) provides an essential role in ensuring that identified information security risks are addressed and incidents properly managed. This role sits with the Medical Director.

As with all information governance issues, risks relating to information are managed and controlled in accordance with the health board's policies through the Information Management, Technology and Governance Committee, which is chaired by an independent member. The health board is represented at the national IG Management Advisory Group to ensure a consistent approach to information governance is maintained across NHS Wales.

In 2018-19, the health board continued to strengthen information governance (IG) arrangements through the remit of the Information Governance Champions' Group by:

- monitoring compliance with Statutory and Mandatory IG training (89% of staff were compliant with the original module, 77% of staff are compliant with the GDPR version of the training which was mandated in December 2018),
- undertaking awareness and training sessions tailored to the responsibilities and needs of individuals,
- ensuring requirements introduced by the GDPR were implemented e.g. developing an Information Asset Register, Privacy Notices, Data Protection Impact Assessments and including GDPR clauses and data processing terms within contracts, and;
- the development and implementation of a programme of spot checks and other audits.

An operational health Records Management Group has been established as a sub-group of the IG Champions' Group to help progress the records management agenda locally. Participation in the national Health Records Management Advisory Group also provides a valuable opportunity to discuss and agree consistent measures to comply with legislation and best practice across the NHS in Wales. Issues of significance includes the impact on records stores as a result of the national inquiries into historic child sexual abuse and infected blood and also the future digitalisation of records.

The Wales Accord on the Sharing of Personal Information (WASPI) framework was updated in June 2018 and the health board has continued to

review Information Sharing Protocols (ISPs) with its partners in health, social care, fire and police services as part of the Mid & West Wales regional WASPI quality assurance group.

Five personal data protection breaches were reported by the health board to the Information Commissioner's Office (ICO) within the statutory 72 hours and to the Welsh Government where appropriate. These involved inappropriate access to records, lost records and records sent to the wrong recipients. Following investigation, the ICO was satisfied by the information provided and decided that no enforcement action would be taken.

397 requests for access to personal information were received from data subjects or their personal representatives and third parties including solicitors, legal services and the police. All were responded to within the statutory timescales with the exception of one request. No complaints were received via the ICO.

The requirement to undertake an annual assessment against a number of standards as part of the Caldicott: Principles into Practice self-assessment was undertaken. The [Out-turn Report](#) and [Improvement Plan](#) is reported on the health board website.

FREEDOM OF INFORMATION REQUESTS

The Freedom of Information Act (FOIA) 2000 gives the public right of access to a variety of records and information held by public bodies and provides commitment to greater openness and transparency in the public sector. During the 2018 calendar year, Powys Teaching Health Board received a total of 415 requests for information, 198 of these were answered within the 20 day target. One request for an internal review was received, and no complaints were received from the Information Commissioner's Office.

An audit of the Publication Scheme was undertaken which reviewed the 7 classes of information required to be published on the health board's website. The organisation is compliant with 49 of the 60 standards and work continues to progress the areas of non-compliance.

ADDITIONAL MANDATORY DISCLOSURES

PENSIONS SCHEME

I can confirm that as an employer with staff entitled to membership of the NHS Pension Scheme, control measures are in place to ensure all employer obligations contained within the Scheme regulations are complied with. This includes ensuring that deductions from salary, employers' contributions and

payments into the Scheme are in accordance with Scheme rules and that the member Pension Scheme records are accurately updated in accordance with the timescales detailed in the Regulations. Note 12 to the [Annual Accounts](#) provides details of the scheme, how it operates and the entitlement of employees.

WELSH LANGUAGE

In March 2019, a Welsh language update report was presented to the Board which provided a summary of the Health Board's current levels of Welsh language service provision. After concluding that current provision is deemed to be inadequate, the report stressed the Health Board's commitment to renew its focus upon reviewing our Welsh Language Scheme and to build upon existing initiatives and protocols to make continuing improvements to bilingual services.

In November 2018, the Welsh Language Commissioner issued Powys THB with draft compliance notices for a new set of Welsh Language Standards with which the Health Board must comply. The Health Board recognises the significant challenges that these Welsh Language Standards pose to the organisation but also recognises the benefits of implementing the Standards for our Welsh speaking service users. An initial baseline assessment of current compliance with the Standards has been completed by each of the Service Leads for Welsh language which has highlighted areas of non-compliance across the Health Board. As a result of this initial assessment, the Health Board has decided to make a formal request for an extension to the proposed dates for compliance in order for the Health Board to undertake further assessment and analysis of the measures needed to make meaningful changes to Welsh language service provision over a period of time.

As part of the improvement plan, a designated Welsh Language Services Improvement Manager has been newly appointed who will support and guide staff across the Health Board to implement the Welsh Language Standards. Their role will include:

- Reviewing the existing Welsh Language Scheme and developing new a Welsh language policy and procedures in line with the Standards and Welsh Government's 'More Than Just Words Framework';
- Working with staff in targeted priority areas to improve bilingual services for vulnerable groups such as older person's mental health, CAMHS and speech and language therapy;
- Supporting senior managers to develop and implement action plans within their teams to increase compliance with the Standards;
- Monitoring progress across the Health Board and advising the Executive Team on Welsh language developments; and

- Liaising with Welsh Language Services Managers and other relevant key persons across Wales to ensure a consistent approach to the implementation process.

The Director of Therapies will act as the Executive Lead for Welsh Language for the Health Board over the coming months and update reports will be provided to the Board and Experience, Quality and Safety Committee.

EQUALITY AND DIVERSITY

Measures are in place to ensure that the organisation complies with the requirements of equality, diversity and human rights legislation. However, as highlighted in last year's Annual Governance Statement further work is being taken forward to ensure that such legislation is properly embedded.

The health board's Equality, Diversity & Human Rights Policy and Impact Assessment for Equality Policy is accessible to staff and the public.

Arrangements are in place to ensure that all obligations under equality, diversity and human rights legislations are complied with. Equality issues will be monitored by the Experience, Quality and Safety Committee.

EMERGENCY PREPAREDNESS AND CIVIL CONTINGENCIES

PTHB is described as a Category 1 responder under the Civil Contingencies Act 2004 (CCA) and is therefore required to comply with all the legislative duties set out within the Act.

The CCA places 5 statutory duties upon Category 1 responders, these being to:

- assess the risks of emergencies
- have in place emergency plans
- establish business continuity management arrangements
- have in place arrangements to warn, inform and advise members of the public
- share information, cooperate and liaise with other local responders

During 2018, PTHB participated in a number of multi-agency planning, training and exercises to increase the health board's ability to respond to a wide-range of emergencies. The health board's [Annual Report on Civil Contingencies for 2018](#) provides an account of the key resilience activities undertaken in 2018 and provides an overview of the health board's Civil Contingencies priorities for 2019-20.

MINISTERIAL DIRECTIONS

The Welsh Government has previously issued Non-Statutory Instruments and reintroduced Welsh Health Circulars in 2014/15. Details of these and a record of any ministerial directions given is available on the Welsh Government website.

We can confirm that all of the Directions previously issued have been fully considered and where appropriate implemented. There were no ministerial directions issued in 2018-19.

WELSH HEALTH CIRCULARS

A range of Welsh Health Circulars (WHCs) were published by Welsh Government during 2018-19 and can be viewed on the Welsh Government website.

On receipt these are centrally logged with a lead Executive Director being assigned to oversee implementation of any required action. Where appropriate, the Board or one of its Committees is also sighted on the content of the WHC.

POST PAYMENT VERIFICATION

In accordance with the Welsh Government directions the Post Payment Verification (PPV) Team, (a role undertaken for the health board by the NHS Shared Services Partnership), in respect of General Medical Services Enhanced Services and General Ophthalmic Services has carried out its work under the terms of the service level agreement (SLA) and in accordance with NHS Wales agreed protocols.

REVIEW OF ECONOMY, EFFICIENCY AND EFFECTIVENESS ON THE USE OF RESOURCES

The National Health Service Finance (Wales) Act 2014 amended the financial duties of Local Health Boards under section 175 of the National Health Service (Wales) Act 2006. The Act places two financial duties on Local Health Boards:

- A duty under section 175 (1) to secure that its expenditure does not exceed the aggregate of the funding allotted to it over a period of three financial years; and
- A duty under section 175 (2A) to prepare a plan in accordance with planning directions issued by the Welsh Ministers, to secure

compliance with the duty under section 175 (1) while improving the health of the people for whom it is responsible, and the provision of health care to such people, and for that plan to be submitted to and approved by the Welsh Ministers.

The health board achieved both financial duties in 2018-19.

SUSTAINABILITY AND CARBON REDUCTION DELIVERY PLANS

Risk assessments are in place in accordance with emergency preparedness and civil contingency requirements as based on UKCIP 2009 weather projections to ensure that the organisation's obligation under the Climate Change Act and the Adaptation Reporting requirements are complied with. To meet Welsh Government's 'decarbonisation by 2030' target, Powys Teaching Health Board has developed and is implementing an Environmental Management System in line with ISO14001:2015, which includes a decarbonisation delivery plan. This, along with a recent carbon footprint exercise carried out by the Carbon Trust, sets the agenda to develop a 'Carbon Neutral Strategy' through the Public Service Board and will support the health board working collaboratively and effectively with partner organisations to meet the 2030 targets.

REVIEW OF EFFECTIVENESS OF SYSTEM OF INTERNAL CONTROL

As Accountable Officer, I have responsibility for reviewing the effectiveness of the system of internal control. My review of the system of internal control is informed by the work of the internal auditors, and the executive officers within the organisation who have responsibility for the development and maintenance of the internal control framework, and comments made by external auditors in their annual audit letter and other reports. In addition, the independent and impartial views expressed by a range of bodies external to the health board has been of key importance, including Welsh Government; Powys Community Health Council; and Healthcare Inspectorate Wales.

As Accountable Officer I have overall responsibility for risk management and report to the Board regarding the effectiveness of risk management across the Health Board. My advice to the Board is informed by reports on internal controls received from all its committees and in particular the Audit and Assurance Committee and the Patient Experience, Quality and Safety Committee. The Patient Experience, Quality and Safety Committee also provides assurance relating to issues of clinical governance and patient safety. In addition, reports submitted to the Board by the Executive Team identify risk issues for consideration.

Each of the Health Board's Committees have considered a range of reports relating to their areas of business during the last year, which have included a comprehensive range of internal audit reports and external audit reports and reports on professional standards and from other regulatory bodies. The Committees have also considered and advised on areas for local and national strategic developments and new policy areas. Each Committee undertakes an annual review and develops an annual report of its business and the areas that it has covered during the last year and these are reported in public to the Board.

Whilst progress has been made in 2018/19 to strengthen the system of internal control, I recognise that further improvements are essential in respect of risk management and embedding the Board's Assurance Framework.

INTERNAL AUDIT

Internal audit provide me as Accountable Officer and the Board through the Audit and Assurance Committee with a flow of assurance on the system of internal control. I have commissioned a programme of audit work which has been delivered in accordance with public sector internal audit standards by the NHS Wales Shared Services Partnership. The scope of this work is agreed with the Audit and Assurance Committee and is focussed on significant risk areas and local improvement priorities.

We will ensure that the work of all regulators, inspectors and assurance bodies is mapped and evidenced in our assurance framework so that the Board is fully aware of this activity and the level of assurance it provides. We will also prioritise work to support the recording and monitoring of recommendations arising from the work of regulators, inspectors and other key assurance reviews.

HEAD OF INTERNAL AUDIT'S OPINION FOR 2018-19

The overall opinion by the Head of Internal Audit on governance, risk management and control is a function of this risk based audit programme and contributes to the picture of assurance available to the Board in reviewing effectiveness and supporting our drive for continuous improvement.

The Head of Internal Audit's opinion is arrived at having considered whether or not the arrangements in place to secure governance, risk management and internal control are suitably designed and applied effectively in the following assurance domains:

- Corporate Governance, Risk Management and Regulatory Compliance
- Strategic Planning, Performance Management and Reporting
- Financial Governance and Management
- Clinical Governance, Quality and Safety
- Information Governance and Security
- Operational Service and Functional Management
- Workforce Management
- Capital and Estates Management

The scope of this opinion is confined to those areas examined in the risk based audit plan which has been agreed with senior management and approved by the Audit & Assurance Committee. The Head of Internal Audit assessment should be interpreted in this context when reviewing the effectiveness of the system of internal control and be seen as an internal driver for continuous improvement.

The Head of Internal Audit opinion on the overall adequacy and effectiveness of the organisation's framework of governance, risk management, and control for 2018-19 is set out below:

“In my opinion the Board can take reasonable assurance that arrangements to secure governance, risk management and internal control, within those areas under review, are suitably designed and applied effectively. Some matters require management attention in control design or compliance with low to moderate impact on residual risk exposure until resolved.”

The Head of Internal Audit has confirmed that in reaching their opinion both professional judgement and the Audit & Assurance “*Supporting criteria for the overall opinion*” guidance produced by the Director of Audit & Assurance for NHS Wales has been used.

The Head of Internal Audit has also concluded that Reasonable Assurance could be reported for five of the eight assurance domains, around which the plan is structured. The same three were assessed as ‘limited’ assurance this year as in the prior year ‘corporate governance, risk management and regulatory compliance’, ‘clinical governance quality & safety’ and ‘operational service and functional management’.

Of the 26 reviews included in the 2018/19 Internal Audit Plan, 14 were rated as providing 'reasonable' assurance and one 'substantial'. Seven reviews were rated as 'limited' assurance with a further one providing 'no' assurance. Ratings were not applicable to three reviews.

Audits of 'health and safety (excluding fire safety)', 'Section 33 governance arrangements', Dental Services (monitoring of the GDS contract) and 'Catering Department' - all received limited assurance.

In addition, the plan included follow up work on four 2017/18 'limited' assurance reports – 'risk management', 'medicines management (patient group directions)' and 'engagement with primary care providers' which were rated as providing 'limited' assurance for the second time. The Head of Internal noted *"It is disappointing therefore, that we were unable to report sufficient progress on a number of follow up reviews and returned a second limited assurance rating."*

A 'no assurance' rating was applied to a review of the 'Podiatry Service' where significant issues were highlighted. The overarching theme of the findings was the efficiency and effectiveness of operational and professional leadership and management of the Podiatry Service. Seven high priority recommendations were made.

A summary of audit ratings provided in 2018-19, is outlined in the table below:

The findings to all limited and no assurance rated internal audit reviews undertaken in 2018/19 were accepted in full by management and action

plans included in final reports. All Internal Audit reports were reported to the Audit and Assurance Committee for oversight and monitoring.

The Audit and Assurance Committee has responsibility for tracking all recommendations made by Internal Audit and to ensure that they are addressed in a way that is appropriate and timely.

During quarter 4 of 2018/19, significant work was taken forward to implement robust systems for recording and monitoring audit recommendations arising from Internal and External Audit Reviews.

The Wales Audit Office Structured Assessment 2018 concluded that the Audit and Assurance Committee had not seen a full audit recommendations tracker for two years. The Wales Audit Office noted that it would be important for the new tracker included recommendations from Wales Audit Office as no reporting against external audit recommendations had been provided for a significant time.

The Health Board has now implemented a revised tracking tool and positive feedback has been received on its accessibility and use. This tracker has been updated to include all audit recommendations made by internal and external audit in 2017/18 and 2018/19. The Wales Audit Office has confirmed that all expected recommendations have been captured for monitoring.

I will monitor the implementation of audit action plans/recommendation implementation through regular meetings of the Executive Delivery and Performance Group.

The full [Head of Internal Audit Opinion](#) and Internal Audit Reports can be accessed on the health board website.

COUNTER FRAUD

In line with the NHS Protect Fraud, Bribery and Corruption Standards for NHS Bodies (Wales) the Local Counter Fraud Specialist (LCFS) and Director of Finance agreed, at the beginning of the financial year, a work plan for 2018-19. This was approved by the Audit and Assurance Committee in May 2018.

The work plan for 2018-19 was completed and covered all the requirements under Welsh Government directions. The Counter Fraud Service provides regular reports and updates to members of the Executive Team and directly to the Audit and Assurance Committee. The Audit and Assurance Committee

will receive the Counter Fraud and Corruption Annual Report for 2018-19 on 28 May 2019.

The NHS Counter Fraud Authority (formerly NHS Protect) provides national leadership for all NHS anti-fraud, bribery and corruption work and is responsible for strategic and operational matters relating to it. A key part of this function is to quality assure the delivery of anti-fraud, bribery and corruption work with stakeholders to ensure that the highest standards are consistently applied.

EXTERNAL AUDIT: STRUCTURED ASSESSMENT FINDINGS

The Auditor General for Wales is the statutory external auditor for the NHS in Wales. The Wales Audit Office (WAO) undertakes the external auditor role for Powys Teaching Health Board on behalf of the Auditor General.

The 2018 Structured Assessment work reviewed aspects of the health board's corporate governance and financial management arrangements and, in particular, the progress made in addressing the previous year's recommendations. The scope was broadened to include commentary on arrangements relating to procurement, asset management and improving efficiency and productivity.

Overall the WAO concluded that the Structured Assessment work had demonstrated that:

- Governance – the Health Board is generally well led and well governed and is taking forward work in a number of areas to continue to strengthen its governance arrangements
- Strategic planning – the Health Board's strategic planning is increasingly systematic with improving mechanisms for monitoring implementation and it is rolling out a new approach to translating its IMTP into action
- Wider arrangements that support the efficient, effective and economical use of resources – the Health Board is working hard to tackle workforce challenges, is maintaining financial performance overall but faces challenges in relation to the condition of the estate and managing medical equipment.

The WAO made a number of recommendations within its report. Recommendations in respect of governance related to: strengthening of the register of gifts, hospitality and sponsorship; establishment of a Healthcare Professionals' Forum; audit recommendations tracking; and the publication of policies on the website.

While pleased that the Wales Audit Office considers good progress to be made I am fully aware of the need to further strengthen and enhance the health board's governance arrangements. I can confirm that actions to address each of the recommendations are underway.

The [WAO Structured Assessment 2018](#) can be viewed on the health board website.

CONCLUSION

As Accountable Officer for Powys Teaching Health Board, based on the assurance process outlined above, I have reviewed the relevant evidence and assurances in respect of internal control. I can confirm that the Board and its Executive Directors are alert to their accountabilities in respect of internal control and the Board has had in place during the year a system of providing assurance aligned to corporate objectives to assist with identification and management of risk. I am pleased to note that as a result of our internal control arrangements, Powys Teaching Health Board continues to be on 'routine' monitoring as part of NHS Wales Escalation and Intervention arrangements.

During 2018-19, we proactively identified areas requiring improvement and requested that Internal Audit undertake detailed assessments in order to manage and mitigate associated risks. Further work will be undertaken in 2019/20 to ensure implementation of recommendations arising from audit reviews, particular where a limited or no assurance rating is applied.

In the latter part of the year we have taken substantial steps to embed risk management and the assurance framework throughout the organisation; this work will continue in 2019-20.

Implementation of the Board's Annual Governance Programme will see a further strengthening of the Board's effectiveness and system of internal control in 2019/20.

This Annual Governance Statement confirms that Powys Teaching Health Board has continued to mature as an organisation and, whilst there are areas for strengthening, no significant internal control or governance issues have been identified. The Board and the Executive Team has had in place a sound and effective system of internal control which provides regular assurance aligned to the organisation's strategic objectives and strategic risks. Together with the Board, I will continue to drive improvements and will seek to provide assurance for our citizens and stakeholders that the

services we provide are efficient, effective and appropriate and designed to meet patient needs and expectations.

SIGNED BY: **CAROL SHILLABEER [CHIEF EXECUTIVE]** **DATE: 29 MAY 2019**

PART B: REMUNERATION AND STAFF REPORT

This report contains information about the remuneration of senior management, fair pay ratios, sickness absence rates etc. and has been compiled by the Directorate of Finance and the Workforce and Organisational Development Directorate.

PART B: THE REMUNERATION AND STAFF REPORT

BACKGROUND

The Treasury's Government Financial Reporting Manual (FReM) requires that a [Remuneration Report](#) shall be prepared by NHS bodies providing information under the headings in SI 2008 No 410, made to the extent that they are relevant. The [Remuneration Report](#) contains information about senior manager's remuneration. The definition of "Senior Manager" is:

"those persons in senior positions having authority or responsibility for directing or controlling the major activities of the NHS body. This means those who influence the decisions of the entity as a whole rather than the decisions of individual directorates or departments."

This section of the Accountability Report meets these requirements.

THE REMUNERATION TERMS OF SERVICE COMMITTEE

Remuneration and terms of service for Executive Directors and the Chief Executive are agreed, and kept under review by the Remuneration and Terms of Service Committee. The Committee also monitors and evaluates the annual performance of the Chief Executive and individual Directors (the latter with the advice of the Chief Executive).

In 2018-19, the Remuneration and Terms of Services Committee was chaired by the health board's Chair, and the membership included the following Members with an extension to all other Independent Members:

- Melanie Davies, Vice Chair of the Board;
- Tony Thomas, Chair of Audit and Assurance Committee.

Meetings are minuted and decisions fully recorded.

INDEPENDENT MEMBERS' REMUNERATION

Remuneration for Independent Members is decided by the Welsh Government, which also determines their tenure of appointment.

DIRECTORS' AND INDEPENDENT MEMBERS' REMUNERATION

Details of Directors' and Independent Members' remuneration for the 2018-19 financial year, together with comparators are given in Table 2 opposite.

The norm is for Executive Directors and Senior Managers salaries to be uplifted in accordance with the Welsh Government identified normal pay inflation percentage. In 2018-19, Executive Directors received a pay inflation uplift, in-line with Welsh Government's Framework.

If there were to be an up-lift over and above this level, this would always be agreed as a result of changes in roles and responsibilities and with advice from an independent consultancy with specialist knowledge of job evaluation and executive pay within the NHS. In addition, the Remuneration and Terms of Services Committee would receive a detailed report in respect of issues to be considered in relation to any uplift to Executive Directors salaries (including advice from the Welsh Government) and having considered all the advice and issues put before them, would report their recommendations to the Board for ratification.

The Committee also reviews objectives set for Executive Directors and assesses performance against those objectives when considering recommendations in respect of annual pay uplifts.

It should be noted that Executive Directors are not on any form of performance related pay. All contracts are permanent with a three month notice period. Conditions were set by Welsh Government as part of the NHS Reform Programme of 2009. However, for part of the year there were interim Directors in post; an Interim Director of Nursing, and Interim Director of Primary, Community Care and Mental Health, and Interim Director of Public Health and an Interim Medical Director.

* Please note that Mrs .Julie Rowles salary remuneration for 2017/8 includes arrears of pay relating to 2016/17

** Please note that Professor Vivienne Harwood is also Chair of the Welsh Health Specialist Services Committee and the costs of this role are paid by PTHB and recharged to Cwm Taf University Health Board. These costs are excluded from the above calculations.

The Remuneration Report now contains a Single Total Figure of Remuneration, this is a different way of presenting the remuneration for each individual for the year. The table used is similar to that used previously, and the salary and benefits in kind elements are unchanged. The amount of pension benefits for the year which contributes to the single total figure is calculated using a similar method to that used to derive pension values for tax purposes, and is based on information received from NHS BSA Pensions Agency.

The value of pension benefits is calculated as follows: (real increase in pension* x20) + (real increase in any lump sum) – (contributions made by member)

*excluding increases due to inflation or any increase of decrease due to a transfer of pension rights

The Single Total Figure of Remuneration is not an amount which has been paid to an individual by the THB during the year, it is a calculation which uses information from the pension benefit table. These figures can be influenced by many factors e.g. changes in a person's salary, whether or not they choose to make additional contributions to the pension scheme from their pay and other valuation factors affecting the pension scheme as a whole.

Remuneration Relationship

Reporting bodies are required to disclose the relationship between the remuneration of the highest-paid director in their organisation and the median remuneration of the organisation's workforce. The banded remuneration of the highest-paid director in PTHB in the financial year 2018-19 was £160,000 - £165,000 (2017-18, £160,000 - £165,000). This was 5.8 times (2017-18, 6.2) the median remuneration of the workforce, which was £27,791 (2017-18, £26,173).

In 2018-19, 2 (2017-18, 0) employees received remuneration in excess of the highest paid director. Remuneration for staff ranged from £359 to £171,635 (2017-18 £888 to £162,500)

	2018-19	2017-18
Band of Highest paid Directors' Total Remuneration £000	160 - 165	160 - 165
Median Total Remuneration £000	28	26
Ratio	5.8	6.2

Total remuneration includes salary, non-consolidated performance-related pay, and benefits-in-kind. It does not include severance payments, employer pension contributions and the cash equivalent transfer value of pensions. Overtime payments are included for the calculation of both elements of the relationship.

Stuart Bourne - Interim Director of Public Health (From 5 th March 2018 to 31 st August 2018) and Director of Public Health (From 1 st February 2019)	0.0 - 2.5	0.0 - (2.5)	30 - 35	70 - 75	545	449	37	0

The above calculations are provided by the NHS Pensions Agency and are based on the standard pensionable age of 60.

For Directors marked * figures relate to pensionable age of 65

** Please note that no comparator figures for Mr Stuart Bourne are available from the NHS Pensions Agency due to this being his first director level role in NHS Wales to enable increases to be calculated.

As Non officer members do not receive pensionable remuneration, there will be no entries in respect of pensions for Non-Executive members

CASH EQUIVALENT TRANSFER VALUES

A Cash Equivalent Transfer Value (CETV) is the actuarially assessed capital value of the pension scheme benefits accrued by a member at a particular point in time. The benefits valued are the member's accrued benefits and any contingent spouse's pension payable from the scheme. A CETV is a payment made by a pension scheme, or arrangement to secure pension benefits in another pension scheme or arrangement when the member leaves a scheme and chooses to transfer the benefits accrued in their former scheme. The pension figures shown relate to the benefits that the individual has accrued as a consequence of their total membership of the pension scheme, not just their service in a senior capacity to which the disclosure applies. The CETV figures and the other pension details, include the value of any pension benefits in another scheme or arrangement which the individual has transferred to the NHS pension scheme. They also include any additional pension benefit accrued to the member as a result of their purchasing additional years of pension service in the scheme at their own cost. CETVs are calculated within the guidelines and framework prescribed by the Institute and Faculty of Actuaries.

REAL INCREASE IN CETV

This reflects the increase in CETV effectively funded by the employer. It takes account of the increase in accrued pension due to inflation, contributions paid by the employee (including the value of any benefits transferred from another pension scheme or arrangement) and uses common market valuation factors for the start and end of the period.

STAFFING DETAILS

STAFF PROFILE

As of 31 March 2019, the total number of staff employed by the Health Board stood at 1707.45 Whole Time Equivalents (WTE). The table below provides a breakdown of the staff groups we employ excluding hosted services, such as the Board of Community Health Councils, Health and Care Research Wales and All Wales CHC.

Staff Group	Average Weekly WTE 18/19
Add Prof Scientific and Technic	53.96
Additional Clinical Services	306.20
Administrative and Clerical	510.61
Allied Health Professionals	118.44
Estates and Ancillary	151.11
Healthcare Scientists	2.58
Medical and Dental	32.61
Nursing and Midwifery Registered	531.94
Grand Total	1707.45

STAFF COMPOSITION

As at 31 March 2018 the composition of the staff of Powys Teaching Health Board was as follows:

	Female	Male
Directors	5	3
Employees	1,851	324

SICKNESS ABSENCE

2018-19 information on sickness absence is provided in the table below:

	2018/2019	2017/2018
Days Lost Long Term	21071.66	18948.55
Days Lost Short Term	7037.26	6702.71
Total Days Lost	28108.92	25651.26
Total Staff Years	77.01	70.28
Average Working Days Lost	15.85	16.45
Total Staff Employed in Period (Headcount)	2182	2129
Total Staff Employed in Period with no absence (Headcount)	978	1007
Percentage of Staff with no Sick Leave	44.82%	47.30%

STAFF POLICIES

Powys Teaching Health Board has a range of staff policies in place. The policies applied during the financial year:

- For giving full and fair consideration to applications for employment made by disabled persons, having regard to their particular aptitudes and abilities.
- For continuing the employment of, and for arranging appropriate training for, employees who have become disabled persons during the period when they were employed by the company.
- Otherwise for the training, career development and promotion of disabled persons employed by the health board.

Were the *Employing Disabled people Policy* and the *Policy on Impact Assessment for Equality*. These were utilised alongside a range of other policies such as the *Sickness Absence Policy* and *Recruitment and Selection Policy* to ensure fair consideration was given to applications for employment made by a disabled person and for supporting their continued employment.

TAX ASSURANCE FOR OFF-PAYROLL APPOINTEES

The following table shows all off-payroll engagements as of 31 March 2019, for more than £245 per day and that last for longer than six months:

▪ The total number of existing engagements as of 31 March 2018;	0
▪ The number that have existed for less than one year at time of reporting;	0
▪ The number that have existed for between one and two years at time of reporting;	0
▪ The number that have existed for between two and three years at time of reporting;	0
▪ The number that have existed for between three and four years at time of reporting; and	0
▪ The number that have existed for four or more years at time of reporting.	0

There have been no new engagements, or those that reached six months in duration during 2018-19.

There have been no off-payroll engagements of board members and/or senior officials with significant financial responsibility between 1 April 2018 and 31 March 2019.

EXIT PACKAGES AND SEVERANCE PAYMENTS

This disclosure reports the number and value of exit packages taken by staff leaving in the year. This disclosure is required to strengthen accountability in the light of public and Parliamentary concern about the incidence and cost of these payments.

Exit packages cost band (including any special payment element)	Number of compulsory redundancies	Cost of compulsory redundancies	Number of other departures	Cost of other departures	Total number of exit packages	Total cost of exit packages	Number of departures where special payments have been made	Cost of special element included in exit packages
	Whole numbers only	£'s	Whole numbers only	£'s	Whole numbers only	£'s	Whole numbers only	£'s
Exit package cost band								
less than £10,000	0	0	0	0	0	0	0	0
£10,000 to £25,000	0	0	0	0	0	0	0	0
£25,000 to £50,000	0	0	0	0	0	0	0	0
£50,000 to £100,000	0	0	0	0	0	0	0	0
£100,000 to £150,000	0	0	0	0	0	0	0	0
£150,000 to £200,000	0	0	0	0	0	0	0	0
more than £200,000	0	0	0	0	0	0	0	0
Total	0	0	0	0	0	0	0	0

Redundancy and other departure costs if paid would have been paid in accordance with the provisions of the NHS Voluntary Early Release Scheme (VERS). Exit costs in this note are accounted for in full in the year of departure on a cash basis in this note as specified in EPN 380 Annex 13C. Should the health board have agreed early retirements, the additional costs would have been met by PTHB and not by the NHS pension scheme. Ill-health retirement costs are met by the NHS pension's scheme and are not included in the table.

PART C: NATIONAL ASSEMBLY FOR WALES ACCOUNTABILITY AND AUDIT REPORT

This report contains a range of disclosures on the regularity of expenditure, fees and charges, compliance with the cost allocation and charging requirements set out in HM Treasury guidance, material remote contingent liabilities, long-term expenditure trends, and the audit certificate and report

THE NATIONAL ASSEMBLY FOR WALES ACCOUNTABILITY REPORT

Regularity of Expenditure

Regularity is the requirement for all items of expenditure and receipts to be dealt with in accordance with the legislation authorising them, any applicable delegated authority and the rules of Government Accounting.

Powys Teaching Health Board ensures that the funding provided by Welsh Ministers has been expended for the purposes intended by Welsh Ministers and that the resources authorised by Welsh Ministers to be used have been used for the purposes for which the use was authorised.

The Health Board's Chief Executive is the Accountable Officer and ensures that the financial statements are prepared in accordance with legislative requirements and the Treasury's Financial Reporting Manual. In preparing the financial statements, the Chief Executive is required to:

- observe the accounts directions issued by Welsh Ministers, including the relevant accounting and disclosure requirements and apply appropriate accounting policies on a consistent basis;
- make judgements and estimates on a reasonable basis;
- state whether applicable accounting standards have been followed and disclosed and explain any material departures from them; and
- prepare them on a going concern basis on the presumption that the services of the Health Board will continue in operation.

Fees and Charges

Where the Health Board undertakes activities that are not funded directly by the Welsh Government the Health Board receives income to cover its costs which will offset expenditure reported under programme areas. Miscellaneous Income can be seen in Note 4 (page 24) of the Annual Accounts.

When charging for this activity the Health Board has complied with the cost allocation and charging requirements set out in HM Treasury guidance.

Remote Contingent Liabilities

Remote contingent liabilities are made for three categories, comprising indemnities, letters of comfort and guarantees.

The value of remote contingent liabilities for 2018-19 is £0.00m and is disclosed in note 21.2 (page 49) of the Health Board's Annual Accounts.

THE CERTIFICATE AND INDEPENDENT AUDITOR'S REPORT OF THE AUDITOR GENERAL FOR WALES TO THE NATIONAL ASSEMBLY FOR WALES

Report on the audit of the financial statements Opinion

I certify that I have audited the financial statements of Powys Teaching Health Board for the year ended 31 March 2019 under Section 61 of the Public Audit (Wales) Act 2004. These comprise the Statement of Comprehensive Net Expenditure, the Statement of Financial Position, the Cash Flow Statement and Statement of Changes in Tax Payers Equity and related notes, including a summary of significant accounting policies. The financial reporting framework that has been applied in their preparation is applicable law and HM Treasury's Financial Reporting Manual based on International Financial Reporting Standards (IFRSs). In my opinion the financial statements:

- give a true and fair view of the state of affairs of Powys Teaching Health Board as at 31 March 2019 and of its net operating costs for the year then ended; and
- have been properly prepared in accordance with the National Health Service (Wales) Act 2006 and directions made there under by Welsh Ministers.

Basis for opinion

I conducted my audit in accordance with applicable law and International Standards on Auditing in the UK (ISAs (UK)). My responsibilities under those standards are further described in the auditor's responsibilities for the audit of the financial statements section of my report. I am independent of the board in accordance with the ethical requirements that are relevant to my audit of the financial statements in the UK including the Financial Reporting Council's Ethical Standard, and I have fulfilled my other ethical responsibilities in accordance with these requirements. I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my opinion.

Conclusions relating to going concern

I have nothing to report in respect of the following matters in relation to which the ISAs (UK) require me to report to you where:

- the use of the going concern basis of accounting in the preparation of the financial statements is not appropriate; or
- the Chief Executive has not disclosed in the financial statements any identified material uncertainties that may cast significant doubt about the board's ability to continue to adopt the going concern basis of

accounting for a period of at least twelve months from the date when the financial statements are authorised for issue.

Other information

The Chief Executive is responsible for the other information in the annual report and accounts. The other information comprises the information included in the annual report other than the financial statements and my auditor's report thereon. My opinion on the financial statements does not cover the other information and, except to the extent otherwise explicitly stated in my report, I do not express any form of assurance conclusion thereon.

In connection with my audit of the financial statements, my responsibility is to read the other information to identify material inconsistencies with the audited financial statements and to identify any information that is apparently materially incorrect based on, or materially inconsistent with, the knowledge acquired by me in the course of performing the audit. If I become aware of any apparent material misstatements or inconsistencies I consider the implications for my report.

Opinion on regularity

In my opinion, in all material respects, the expenditure and income in the financial statements have been applied to the purposes intended by the National Assembly for Wales and the financial transactions recorded in the financial statements conform to the authorities which govern them.

Report on other requirements

Opinion on other matters

In my opinion, the part of the remuneration report to be audited has been properly prepared in accordance with the National Health Service (Wales) Act 2006 and directions made there under by Welsh Ministers.

In my opinion, based on the work undertaken in the course of my audit:

- the information given in the Annual Governance Statement for the financial year for which the financial statements are prepared is consistent with the financial statements and the Annual Governance Statement has been prepared in accordance with Welsh Ministers' guidance;
- the information given in the Accountability Report for the financial year for which the financial statements are prepared is consistent with the financial statements and the Accountability Report has been prepared in accordance with Welsh Ministers' guidance.

Matters on which I report by exception

In the light of the knowledge and understanding of the board and its environment obtained in the course of the audit, I have not identified material misstatements in the Accountability Report.

I have nothing to report in respect of the following matters, which I report to you, if, in my opinion:

- proper accounting records have not been kept;
- the financial statements are not in agreement with the accounting records and returns;
- information specified by HM Treasury or Welsh Ministers regarding remuneration and other transactions is not disclosed; or
- I have not received all the information and explanations I require for my audit.

Report

I have no observations to make on these financial statements.

Responsibilities

Responsibilities of Directors and the Chief Executive for the financial statements

As explained more fully in the Statements of Directors' and Chief Executive's Responsibilities set out on pages 11 and 13, the Directors and the Chief Executive are responsible for the preparation of financial statements which give a true and fair view and for such internal control as the Directors and Chief Executive determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Directors and Chief Executive are responsible for assessing the board's ability to continue as a going concern, disclosing as applicable, matters related to going concern and using the going concern basis of accounting unless deemed inappropriate.

Auditor's responsibilities for the audit of the financial statements

My objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes my opinion. Reasonable assurance is a high level of assurance

but is not a guarantee that an audit conducted in accordance with ISAs (UK) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

A further description of the auditor's responsibilities for the audit of the financial statements is located on the Financial Reporting Council's website www.frc.org.uk/auditorsresponsibilities. This description forms part of my auditor's report.

Responsibilities for regularity

The Chief Executive is responsible for ensuring the regularity of financial transactions. I am required to obtain sufficient evidence to give reasonable assurance that the expenditure and income have been applied to the purposes intended by the National Assembly for Wales and the financial transactions conform to the authorities which govern them.

Adrian Crompton
Auditor General for Wales
11 June 2019

24 Cathedral Road
Cardiff
CF11 9LJ

PART D: FINANCIAL STATEMENTS

POWYS TEACHING LOCAL HEALTH BOARD

FOREWORD

These accounts have been prepared by the Local Health Board under schedule 9 section 178 Para 3(1) of the National Health Service (Wales) Act 2006 (c.42) in the form in which the Welsh Ministers have, with the approval of the Treasury, directed.

Statutory background

Powys Teaching Local Health Board under the Local Health Boards (Establishment) (Wales) Order 2003 (S.I. 2003/148 (W.18))

As a statutory body governed by Acts of Parliament the THB is responsible for :

- agreeing the action which is necessary to improve the health and health care of the population of Powys;
- supporting and financing General Practitioner-led purchasing of the services needed to meet agreed priorities, including charter standards and guarantees;
- supporting and funding the contractor professions;
- the commissioning of health promotion, emergency planning and other regulatory tasks;
- the stewardship of resources including the financial management and monitoring of performance in critical areas;
- eliciting and responding to the views of local people and organisations and changing and developing services at a pace and in ways that they will accept;
- providing Hospital and Community Healthcare Services to the residents of Powys.

Powys THB hosts the Community Health Councils in Wales. In addition, it is also responsible for hosting specific functions in respect of the accounts of the former Health Authorities mostly significantly in respect of clinical negligence. The THB also hosts the functions of Health and Care Research Wales (HCRW) and All Wales Retrospective Continuing Health Care Reviews Project.

Performance Management and Financial Results

Local Health Boards in Wales must comply fully with the Treasury's Financial Reporting Manual to the extent that it is applicable to them. As a result, the Primary Statement of in-year income and expenditure is the Statement of Comprehensive Net Expenditure, which shows the net operating cost incurred by the LHB which is funded by the Welsh Government. This funding is allocated on receipt directly to the General Fund in the Statement of Financial Position.

Under the National Health Services Finance (Wales) Act 2014, the annual requirement to achieve balance against Resource Limits has been replaced with a duty to ensure, in a rolling 3 year period, that its aggregate expenditure does not exceed its aggregate approved limits.

The Act came into effect from 1 April 2014 and under the Act the first assessment of the 3 year rolling financial duty took place at the end of 2016-17.

Powys Teaching Health Board (PTHB) is the operational name of Powys Teaching Local Health Board

**Statement of Comprehensive Net Expenditure
for the year ended 31 March 2019**

	Note	2018-19 £'000	2017-18 £'000
Expenditure on Primary Healthcare Services	3.1	67,927	67,098
Expenditure on healthcare from other providers	3.2	148,167	145,054
Expenditure on Hospital and Community Health Services	3.3	97,347	93,698
		313,441	305,850
Less: Miscellaneous Income	4	(14,264)	(13,908)
LHB net operating costs before interest and other gains and losses		299,177	291,942
Investment Revenue	5	0	0
Other (Gains) / Losses	6	0	(60)
Finance costs	7	7	18
Net operating costs for the financial year		299,184	291,900

See note 2 on page 22 for details of performance against Revenue and Capital allocations.

Notes to the Accounts

1. Accounting policies

The Minister for Health and Social Services has directed that the financial statements of Local Health Boards (LHB) in Wales shall meet the accounting requirements of the NHS Wales Manual for Accounts. Consequently, the following financial statements have been prepared in accordance with the 2018-19 Manual for Accounts. The accounting policies contained in that manual follow the European Union version of the International Financial Reporting Standards to the extent that they are meaningful and appropriate to the NHS, as determined by HM Treasury, which is advised by the Financial Reporting Advisory Board. Where the LHB Manual for Accounts permits a choice of accounting policy, the accounting policy which is judged to be most appropriate to the particular circumstances of the LHB for the purpose of giving a true and fair view has been selected. The particular policies adopted by the LHB are described below. They have been applied consistently in dealing with items considered material in relation to the accounts.

1.1 Accounting convention

These accounts have been prepared under the historical cost convention modified to account for the revaluation of property, plant and equipment, intangible assets and inventories.

1.2 Acquisitions and discontinued operations

Activities are considered to be 'acquired' only if they are taken on from outside the public sector. Activities are considered to be 'discontinued' only if they cease entirely. They are not considered to be 'discontinued' if they transfer from one public sector body to another.

1.3 Income and funding

The main source of funding for the Local Health Boards (LHBs) are allocations (Welsh Government funding) from the Welsh Government within an approved cash limit, which is credited to the General Fund of the Local Health Board. Welsh Government funding is recognised in the financial period in which the cash is received.

Non discretionary funding outside the Revenue Resource Limit is allocated to match actual expenditure incurred for the provision of specific pharmaceutical, or ophthalmic services identified by the Welsh Government. Non discretionary expenditure is disclosed in the accounts and deducted from operating costs charged against the Revenue Resource Limit.

Funding for the acquisition of fixed assets received from the Welsh Government is credited to the General Fund.

Miscellaneous income is income which relates directly to the operating activities of the LHB and is not funded directly by the Welsh Government. This includes payment for services uniquely provided by the LHB for the Welsh Government such as funding provided to agencies and non-activity costs incurred by the LHB in its provider role. Income received from LHBs transacting with other LHBs is always treated as miscellaneous income.

From 2018-19, IFRS 15 Revenue from Contracts with Customers is applied, as interpreted and adapted for the public sector, in the Financial Reporting Manual (FRM). It replaces the previous standards IAS 11 Construction Contracts and IAS 18 Revenue and related IFRIC and SIC interpretations. Upon transition the accounting policy to retrospectively restate in accordance with IAS 8 has been withdrawn. All entities applying the FRM shall recognise the difference between previous carrying amount and the carrying amount at the beginning of the annual reporting period that includes the date of initial application in the opening general fund within Taxpayer's equity. A review consistent with the portfolio approach was undertaken by the NHS Technical Accounting Group members, which

- identified that the only material income that would potentially require adjustment under IFRS 15 was that for patient care provided under Long term Agreements (LTAs) for episodes of care which had started but not concluded as at the end of the financial period;
- demonstrated that the potential amendments to NHS Wales NHS Trust and Local Health Board Accounts as a result of the adoption of IFRS 15 are significantly below materiality levels.

Under the Conceptual IFRS Framework due consideration must be given to the users of the accounts and the cost restraint of compliance and reporting and production of financial reporting. Given the income for LTA activity is recognised in accordance with established NHS Terms and Conditions affecting multiple parties across NHS Wales it was considered reasonable to continue recognising in accordance with those established terms on the basis that this provides information that is relevant to the user and to do so does not result in a material misstatement of the figures reported.

Income is accounted for applying the accruals convention. Income is recognised in the period in which services are provided. Where income had been received from third parties for a specific activity to be delivered in the following financial year, that income will be deferred. Only non-NHS income may be deferred.

1.4 Employee benefits

Short-term employee benefits

Salaries, wages and employment-related payments are recognised in the period in which the service is received from employees. The cost of leave earned but not taken by employees at the end of the period is recognised in the financial statements to the extent that employees are permitted to carry forward leave into the following period.

Retirement benefit costs

Past and present employees are covered by the provisions of the NHS Pensions Scheme. The scheme is an unfunded, defined benefit scheme that covers NHS employers, General Practices and other bodies, allowed under the direction of the Secretary of State, in England and Wales. The scheme is not designed to be run in a way that would enable NHS bodies to identify their share of the underlying scheme assets and liabilities. Therefore, the scheme is accounted for as if it were a defined contribution scheme: the cost to the NHS body of participating in the scheme is taken as equal to the contributions payable to the scheme for the accounting period.

For early retirements other than those due to ill health the additional pension liabilities are not funded by the scheme. The full amount of the liability for the additional costs is charged to expenditure at the time the LHB commits itself to the retirement, regardless of the method of payment.

Where employees are members of the Local Government Superannuation Scheme, which is a defined benefit pension scheme this is disclosed. The scheme assets and liabilities attributable to those employees can be identified and are recognised in the LHBs accounts. The assets are measured at fair value and the liabilities at the present value of the future obligations. The increase in the liability arising from pensionable service earned during the year is recognised within operating expenses. The expected gain during the year from scheme assets is recognised within finance income. The interest cost during the year arising from the unwinding of the discount on the scheme liabilities is recognised within finance costs.

NEST Pension Scheme

The LHB has to offer an alternative pensions scheme for employees not eligible to join the NHS Pensions scheme. The NEST (National Employment Savings Trust) Pension scheme is a defined contribution scheme and therefore the cost to the NHS body of participating in the scheme is equal to the contributions payable to the scheme for the accounting period.

1.5 Other expenses

Other operating expenses for goods or services are recognised when, and to the extent that, they have been received. They are measured at the fair value of the consideration payable.

1.6 Property, plant and equipment

Recognition

Property, plant and equipment is capitalised if:

- it is held for use in delivering services or for administrative purposes;
- it is probable that future economic benefits will flow to, or service potential will be supplied to, the LHB;
- it is expected to be used for more than one financial year;
- the cost of the item can be measured reliably; and
- the item has cost of at least £5,000; or
- Collectively, a number of items have a cost of at least £5,000 and individually have a cost of more than £250, where the assets are functionally interdependent, they had broadly simultaneous purchase dates, are anticipated to have simultaneous disposal dates and are under single managerial control; or
- Items form part of the initial equipping and setting-up cost of a new building, ward or unit, irrespective of their individual or collective cost.

Where a large asset, for example a building, includes a number of components with significantly different asset lives, the components are treated as separate assets and depreciated over their own useful economic lives.

Valuation

All property, plant and equipment are measured initially at cost, representing the cost directly attributable to acquiring or constructing the asset and bringing it to the location and condition necessary for it to be capable of operating in the manner intended by management.

Land and buildings used for the LHBs services or for administrative purposes are stated in the Statement of Financial Position at their revalued amounts, being the fair value at the date of revaluation less any subsequent accumulated depreciation and impairment losses. Revaluations are performed with sufficient regularity to ensure that carrying amounts are not materially different from those that would be determined at the end of the reporting period. Fair values are determined as follows:

- Land and non-specialised buildings – market value for existing use
- Specialised buildings – depreciated replacement cost

HM Treasury has adopted a standard approach to depreciated replacement cost valuations based on modern equivalent assets and, where it would meet the location requirements of the service being provided, an alternative site can be valued. NHS Wales bodies have applied these new valuation requirements from 1 April 2009.

Properties in the course of construction for service or administration purposes are carried at cost, less any impairment loss. Cost includes professional fees but not borrowing costs, which are recognised as expenses immediately, as allowed by IAS 23 for assets held at fair value. Assets are revalued and depreciation commences when they are brought into use.

In 2017-18 a formal revaluation exercise was applied to land and properties. The carrying value of existing assets at that date will be written off over their remaining useful lives and new fixtures and equipment are carried at depreciated historic cost as this is not considered to be materially different from fair value.

An increase arising on revaluation is taken to the revaluation reserve except when it reverses an impairment for the same asset previously recognised in expenditure, in which case it is credited to expenditure to the extent of the decrease previously charged there. A revaluation decrease that does not result from a loss of economic value or service potential is recognised as an impairment charged to the revaluation reserve to the extent that there is a balance on the reserve for the asset and, thereafter, to expenditure. Impairment losses that arise from a clear consumption of economic benefit should be taken to expenditure.

References in IAS 36 to the recognition of an impairment loss of a revalued asset being treated as a revaluation decrease to the extent that the impairment does not exceed the amount in the revaluation surplus for the same asset, are adapted such that only those impairment losses that do not result from a clear consumption of economic benefit or reduction of service potential (including as a result of loss or damage resulting from normal business operations) should be taken to the revaluation reserve. Impairment losses that arise from a clear consumption of economic benefit should be taken to the Statement of Comprehensive Net Expenditure.

From 2015-16, the LHB must comply with IFRS 13 Fair Value Measurement in full. However IAS 16 and IAS 38 have been adapted for the public sector context which limits the circumstances under which a valuation is prepared under IFRS 13. Assets which are held for their service potential and are in use should be measured at their current value in existing use. For specialised assets current value in existing use should be interpreted as the present value of the assets remaining service potential, which can be assumed to be at least equal to the cost of replacing that service potential.

In accordance with the adaptation of IAS 16 in table 6.2 of the FReM, for non-specialised assets in operational use, current value in existing use is interpreted as market value for existing use which is defined in the RICS Red Book as Existing Use Value (EUV).

Assets which were most recently held for their service potential but are surplus should be valued at current value in existing use, if there are restrictions on the entity or the asset which would prevent access to the market at the reporting date. If the LHB could access the market then the surplus asset should be used at fair value using IFRS 13. In determining whether such an asset which is not in use is surplus, an assessment should be made on whether there is a clear plan to bring the asset back into use as an operational asset. Where there is a clear plan, the asset is not surplus and the current value in existing use should be maintained. Otherwise the asset should be assessed as being surplus and valued under IFRS13.

Assets which are not held for their service potential should be valued in accordance with IFRS 5 or IAS 40 depending on whether the asset is actively held for sale. Where an asset is not being used to deliver services and there is no plan to bring it back into use, with no restrictions on sale, and it does not meet the IAS 40 and IFRS 5 criteria, these assets are surplus and are valued at fair value using IFRS 13.

Subsequent expenditure

Where subsequent expenditure enhances an asset beyond its original specification, the directly attributable cost is capitalised. Where subsequent expenditure restores the asset to its original specification, the expenditure is capitalised and any carrying value of the item replaced is written-out and charged to the SoCNE. As highlighted in previous years the NHS in Wales does not have systems in place to ensure that all items being "replaced" can be identified and hence the cost involved to be quantified. The NHS in Wales has thus established a national protocol to ensure it complies with the standard as far as it is able to which is outlined in the capital accounting chapter of the Manual For Accounts. This dictates that to ensure that asset carrying values are not materially overstated, NHS bodies are required to get all All Wales Capital Schemes that are completed in a financial year revalued during that year (prior to them being brought into use) and also similar revaluations are needed for all Discretionary Building Schemes completed which have a spend greater than £0.5m. The write downs so identified are then charged to operating expenses.

1.7 Intangible assets

Recognition

Intangible assets are non-monetary assets without physical substance, which are capable of sale separately from the rest of the LHBs business or which arise from contractual or other legal rights. They are recognised only when it is probable that future economic benefits will flow to, or service potential be provided to, the LHB; where the cost of the asset can be measured reliably, and where the cost is at least £5,000.

Intangible assets acquired separately are initially recognised at fair value. Software that is integral to the operating of hardware, for example an operating system, is capitalised as part of the relevant item of property, plant and equipment. Software that is not integral to the operation of hardware, for example application software, is capitalised as an intangible asset. Expenditure on research is not capitalised: it is recognised as an operating expense in the period in which it is incurred. Internally-generated assets are recognised if, and only if, all of the following have been demonstrated:

- the technical feasibility of completing the intangible asset so that it will be available for use
- the intention to complete the intangible asset and use it
- the ability to use the intangible asset
- how the intangible asset will generate probable future economic benefits
- the availability of adequate technical, financial and other resources to complete the intangible asset and use it
- the ability to measure reliably the expenditure attributable to the intangible asset during its development.

Measurement

The amount initially recognised for internally-generated intangible assets is the sum of the expenditure incurred from the date when the criteria above are initially met. Where no internally-generated intangible asset can be recognised, the expenditure is recognised in the period in which it is incurred.

Following initial recognition, intangible assets are carried at fair value by reference to an active market, or, where no active market exists, at amortised replacement cost (modern equivalent assets basis), indexed for relevant price increases, as a proxy for fair value. Internally-developed software is held at historic cost to reflect the opposing effects of increases in development costs and technological advances.

1.8 Depreciation, amortisation and impairments

Freehold land, assets under construction and assets held for sale are not depreciated.

Otherwise, depreciation and amortisation are charged to write off the costs or valuation of property, plant and equipment and intangible non-current assets, less any residual value, over their estimated useful lives, in a manner that reflects the consumption of economic benefits or service potential of the assets. The estimated useful life of an asset is the period over which the LHB expects to obtain economic benefits or service potential from the asset. This is specific to the LHB and may be shorter than the physical life of the asset itself. Estimated useful lives and residual values are reviewed each year end, with the effect of any changes recognised on a prospective basis. Assets held under finance leases are depreciated over the shorter of the lease term and estimated useful lives.

At each reporting period end, the LHB checks whether there is any indication that any of its tangible or intangible non-current assets have suffered an impairment loss. If there is indication of an impairment loss, the recoverable amount of the asset is estimated to determine whether there has been a loss and, if so, its amount. Intangible assets not yet available for use are tested for impairment annually.

Impairment losses that do not result from a loss of economic value or service potential are taken to the revaluation reserve to the extent that there is a balance on the reserve for the asset and, thereafter, to the SoCNE. Impairment losses that arise from a clear consumption of economic benefit are taken to the SoCNE. The balance on any revaluation reserve (up to the level of the impairment) to which the impairment would have been charged under IAS 36 are transferred to retained earnings.

1.9 Research and Development

Research and development expenditure is charged to operating costs in the year in which it is incurred, except insofar as it relates to a clearly defined project, which can be separated from patient care activity and benefits therefrom can reasonably be regarded as assured. Expenditure so deferred is limited to the value of future benefits expected and is amortised through the SoCNE on a systematic basis over the period expected to benefit from the project.

1.10 Non-current assets held for sale

Non-current assets are classified as held for sale if their carrying amount will be recovered principally through a sale transaction rather than through continuing use. This condition is regarded as met when the sale is highly probable, the asset is available for immediate sale in its present condition and management is committed to the sale, which is expected to qualify for recognition as a completed sale within one year from the date of classification. Non-current assets held for sale are measured at the lower of their previous carrying amount and fair value less costs to sell. Fair value is open market value including alternative uses.

The profit or loss arising on disposal of an asset is the difference between the sale proceeds and the carrying amount and is recognised in the Statement of Comprehensive Net Expenditure. On disposal, the balance for the asset on the revaluation reserve, is transferred to the General Fund.

Property, plant and equipment that is to be scrapped or demolished does not qualify for recognition as held for sale. Instead it is retained as an operational asset and its economic life adjusted. The asset is derecognised when it is scrapped or demolished.

1.11 Leases

Leases are classified as finance leases when substantially all the risks and rewards of ownership are transferred to the lessee. All other leases are classified as operating leases.

1.11.1 The Local Health Board as lessee

Property, plant and equipment held under finance leases are initially recognised, at the inception of the lease, at fair value or, if lower, at the present value of the minimum lease payments, with a matching liability for the lease obligation to the lessor. Lease payments are apportioned between finance charges and reduction of the lease obligation so as to achieve a constant rate of interest on the remaining balance of the liability. Finance charges are charged directly to the Statement of Comprehensive Net Expenditure.

Operating lease payments are recognised as an expense on a straight-line basis over the lease term. Lease incentives are recognised initially as a liability and subsequently as a reduction of rentals on a straight-line basis over the lease term. Contingent rentals are recognised as an expense in the period in which they are incurred.

Where a lease is for land and buildings, the land and building components are separated and individually assessed as to whether they are operating or finance leases.

1.11.2 The Local Health Board as lessor

Amounts due from lessees under finance leases are recorded as receivables at the amount of the LHB net investment in the leases. Finance lease income is allocated to accounting periods so as to reflect a constant periodic rate of return on the LHB's net investment outstanding in respect of the leases.

Rental income from operating leases is recognised on a straight-line basis over the term of the lease. Initial direct costs incurred in negotiating and arranging an operating lease are added to the carrying amount of the leased asset and recognised on a straight-line basis over the lease term.

1.12 Inventories

Whilst it is accounting convention for inventories to be valued at the lower of cost and net realisable value using the weighted average or "first-in first-out" cost formula, it should be recognised that the NHS is a special case in that inventories are not generally held for the intention of resale and indeed there is no market readily available where such items could be sold. Inventories are valued at cost and this is considered to be a reasonable approximation to fair value due to the high turnover of stocks. Work-in-progress comprises goods in intermediate stages of production. Partially completed contracts for patient services are not accounted for as work-in-progress.

1.13 Cash and cash equivalents

Cash is cash in hand and deposits with any financial institution repayable without penalty on notice of not more than 24 hours. Cash equivalents are investments that mature in 3 months or less from the date of acquisition and that are readily convertible to known amounts of cash with insignificant risk of change in value. In the Statement of Cash flows, cash and cash equivalents are shown net of bank overdrafts that are repayable on demand and that form an integral part of the cash management.

1.14 Provisions

Provisions are recognised when the LHB has a present legal or constructive obligation as a result of a past event, it is probable that the LHB will be required to settle the obligation, and a reliable estimate can be made of the amount of the obligation. The amount recognised as a provision is the best estimate of the expenditure required to settle the obligation at the end of the reporting period, taking into account the risks and uncertainties. Where a provision is measured using the cash flows estimated to settle the obligation, its carrying amount is the present value of those cash flows using the discount rate supplied by HM Treasury.

When some or all of the economic benefits required to settle a provision are expected to be recovered from a third party, the receivable is recognised as an asset if it is virtually certain that reimbursements will be received and the amount of the receivable can be measured reliably.

Present obligations arising under onerous contracts are recognised and measured as a provision. An onerous contract is considered to exist where the LHB has a contract under which the unavoidable costs of meeting the obligations under the contract exceed the economic benefits expected to be received under it.

A restructuring provision is recognised when the LHB has developed a detailed formal plan for the restructuring and has raised a valid expectation in those affected that it will carry out the restructuring by starting to implement the plan or announcing its main features to those affected by it. The measurement of a restructuring provision includes only the direct expenditures arising from the restructuring, which are those amounts that are both necessarily entailed by the restructuring and not associated with ongoing activities of the entity.

1.14.1 Clinical negligence and personal injury costs

The Welsh Risk Pool (WRP) operates a risk pooling scheme which is co-funded by the Welsh Government with the option to access a risk sharing agreement funded by the participative NHS Wales bodies. The risk sharing option was not implemented in 2018-19. The WRP is hosted by Velindre NHS Trust.

1.15 Financial Instruments

From 2018-19 IFRS 9 Financial Instruments is applied, as interpreted and adapted for the public sector, in the FReM. The principal impact of IFRS 9 adoption by NHS Wales bodies, will be to change the calculation basis for bad debt provisions, changing from an incurred loss basis to a lifetime expected credit loss (ECL) basis.

All entities applying the FReM shall recognise the difference between previous carrying amount and the carrying amount at the beginning of the annual reporting period that includes the date of initial application in the opening general fund within Taxpayer's equity.

1.16 Financial assets

Financial assets are recognised on the Statement of Financial Position when the LHB becomes party to the financial instrument contract or, in the case of trade receivables, when the goods or services have been delivered. Financial assets are derecognised when the contractual rights have expired or the asset has been transferred.

The accounting policy choice allowed under IFRS 9 for long term trade receivables, contract assets which do contain a significant financing component (in accordance with IFRS 15), and lease

receivables within the scope of IAS 17 has been withdrawn and entities should always recognise a loss allowance at an amount equal to lifetime Expected Credit Losses. All entities applying the FReM should utilise IFRS 9's simplified approach to impairment for relevant assets.

NHS Wales Technical Accounting Group members reviewed the IFRS 9 requirements and determined a revised approach for the calculation of the bad debt provision, applying the principles of expected credit loss, using the practical expedients within IFRS9 to construct a provision matrix.

1.16.1 Financial assets are initially recognised at fair value

Financial assets are classified into the following categories: financial assets 'at fair value through SoCNE'; 'held to maturity investments'; 'available for sale' financial assets, and 'loans and receivables'. The classification depends on the nature and purpose of the financial assets and is determined at the time of initial recognition.

1.16.2 Financial assets at fair value through SoCNE

Embedded derivatives that have different risks and characteristics to their host contracts, and contracts with embedded derivatives whose separate value cannot be ascertained, are treated as financial assets at fair value through SoCNE. They are held at fair value, with any resultant gain or loss recognised in the SoCNE. The net gain or loss incorporates any interest earned on the financial asset.

1.16.3 Held to maturity investments

Held to maturity investments are non-derivative financial assets with fixed or determinable payments and fixed maturity, and there is a positive intention and ability to hold to maturity. After initial recognition, they are held at amortised cost using the effective interest method, less any impairment. Interest is recognised using the effective interest method.

1.16.4 Available for sale financial assets

Available for sale financial assets are non-derivative financial assets that are designated as available for sale or that do not fall within any of the other three financial asset classifications. They are measured at fair value with changes in value taken to the revaluation reserve, with the exception of impairment losses. Accumulated gains or losses are recycled to the SoCNE on de-recognition.

1.16.5 Loans and receivables

Loans and receivables are non-derivative financial assets with fixed or determinable payments which are not quoted in an active market. After initial recognition, they are measured at amortised cost using the effective interest method, less any impairment. Interest is recognised using the effective interest method.

Fair value is determined by reference to quoted market prices where possible, otherwise by valuation techniques.

The effective interest rate is the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset, to the net carrying amount of the financial asset.

At the Statement of Financial Position date, the LHB assesses whether any financial assets, other than those held at 'fair value through profit and loss' are impaired. Financial assets are impaired and impairment losses recognised if there is objective evidence of impairment as a result of one or more events which occurred after the initial recognition of the asset and which has an impact on the estimated future cash flows of the asset.

For financial assets carried at amortised cost, the amount of the impairment loss is measured as the difference between the asset's carrying amount and the present value of the revised future cash flows discounted at the asset's original effective interest rate. The loss is recognised in the Statement of Comprehensive Net Expenditure and the carrying amount of the asset

is reduced directly, or through a provision of impairment of receivables.

If, in a subsequent period, the amount of the impairment loss decreases and the decrease can be related objectively to an event occurring after the impairment was recognised, the previously recognised impairment loss is reversed through the Statement of Comprehensive Net Expenditure to the extent that the carrying amount of the receivable at the date of the impairment is reversed does not exceed what the amortised cost would have been had the impairment not been recognised.

1.17 Financial liabilities

Financial liabilities are recognised on the Statement of Financial Position when the LHB becomes party to the contractual provisions of the financial instrument or, in the case of trade payables, when the goods or services have been received. Financial liabilities are de-recognised when the liability has been discharged, that is, the liability has been paid or has expired.

1.17.1 Financial liabilities are initially recognised at fair value

Financial liabilities are classified as either financial liabilities at fair value through the Statement of Comprehensive Net Expenditure or other financial liabilities.

1.17.2 Financial liabilities at fair value through the Statement of Comprehensive Net Expenditure

Embedded derivatives that have different risks and characteristics to their host contracts, and contracts with embedded derivatives whose separate value cannot be ascertained, are treated as financial liabilities at fair value through profit and loss. They are held at fair value, with any resultant gain or loss recognised in the SoCNE. The net gain or loss incorporates any interest earned on the financial asset.

1.17.3 Other financial liabilities

After initial recognition, all other financial liabilities are measured at amortised cost using the effective interest method. The effective interest rate is the rate that exactly discounts estimated future cash payments through the life of the asset, to the net carrying amount of the financial liability. Interest is recognised using the effective interest method.

1.18 Value Added Tax

Most of the activities of the LHB are outside the scope of VAT and, in general, output tax does not apply and input tax on purchases is not recoverable. Irrecoverable VAT is charged to the relevant expenditure category or included in the capitalised purchase cost of fixed assets. Where output tax is charged or input VAT is recoverable, the amounts are stated net of VAT.

1.19 Foreign currencies

Transactions denominated in a foreign currency are translated into sterling at the exchange rate ruling on the dates of the transactions. Resulting exchange gains and losses are taken to the Statement of Comprehensive Net Expenditure. At the Statement of Financial Position date, monetary items denominated in foreign currencies are retranslated at the rates prevailing at the reporting date.

1.20 Third party assets

Assets belonging to third parties (such as money held on behalf of patients) are not recognised in the accounts since the LHB has no beneficial interest in them. Details of third party assets are given in Note 29 to the accounts.

1.21 Losses and Special Payments

Losses and special payments are items that the Welsh Government would not have contemplated when it agreed funds for the health service or passed legislation. By their nature they are items that ideally should not arise. They are therefore subject to special control procedures compared with the generality of payments. They are divided into different categories, which govern the way each individual case is handled.

Losses and special payments are charged to the relevant functional headings in the SoCNE on an accruals basis, including losses which would have been made good through insurance cover had LHBs not been bearing their own risks (with insurance premiums then being included as normal revenue expenditure). However, the note on losses and special payments is compiled directly from the losses register which is prepared on a cash basis.

The LHB accounts for all losses and special payments gross (including assistance from the WRP). The LHB accrues or provides for the best estimate of future payouts for certain liabilities and discloses all other potential payments as contingent liabilities, unless the probability of the liabilities becoming payable is remote.

All claims for losses and special payments are provided for, where the probability of settlement of an individual claim is over 50%. Where reliable estimates can be made, incidents of clinical negligence against which a claim has not, as yet, been received are provided in the same way. Expected reimbursements from the WRP are included in debtors. For those claims where the probability of settlement is below 50%, the liability is disclosed as a contingent liability.

1.22 Pooled budget

The LHB has entered into pooled budgets with Local Authorities. Under the arrangements funds are pooled in accordance with section 33 of the NHS (Wales) Act 2006 for specific activities defined in Note 32.

The pool is hosted by one organisation. Payments for services provided are accounted for as miscellaneous income. The LHB accounts for its share of the assets, liabilities, income and expenditure from the activities of the pooled budget, in accordance with the pooled budget arrangement.

1.23 Critical Accounting Judgements and key sources of estimation uncertainty

In the application of the LHB's accounting policies, management is required to make judgements, estimates and assumptions about the carrying amounts of assets and liabilities that are not readily apparent from other sources.

The estimates and associated assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from those estimates. The estimates and underlying assumptions are continually reviewed. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period, or the period of the revision and future periods if the revision affects both current and future periods.

1.24 Key sources of estimation uncertainty

The following are the key assumptions concerning the future, and other key sources of estimation uncertainty at the Statement of Financial Position date, that have a significant risk of causing material adjustment to the carrying amounts of assets and liabilities within the next financial year.

Provisions

The Health Board provides for legal or constructive obligations for clinical negligence, personal injury and defence costs that are of uncertain timing or amount at the balance sheet date on the basis of the best estimate of the expenditure required to settle the obligation.

Claims are funded via the Welsh Risk Pool Services (WRPS) which receives an annual allocation from Welsh Government to cover the cost of reimbursement requests submitted to the bi-monthly WRPS Committee. Following settlement to individual claimants by the Health Board or Trust, the full cost is recognised in year and matched to income (less a £25K excess) via a WRPS debtor, until reimbursement has been received from the WRPS Committee.

Probable & Certain Cases – Accounting Treatment

A provision for these cases is calculated in accordance with IAS 37. Cases are assessed and divided into four categories according to their probability of settlement;

Remote	Probability of Settlement Accounting Treatment	0 – 5% Contingent Liability.
Possible	Probability of Settlement Accounting Treatment	6% - 49% Defence Fee - Provision Contingent Liability for all other estimated expenditure.
Probable	Probability of Settlement Accounting Treatment	50% - 94% Full Provision
Certain	Probability of Settlement Accounting Treatment	95% - 100% Full Provision

The provision for probable and certain cases is based on case estimates of individual reported claims received by Legal & Risk Services within NHS Wales Shared Services Partnership.

The solicitor will estimate the case value including defence fees, using professional judgement and from obtaining counsel advice. Valuations are then discounted for the future loss elements using individual life expectancies and the Government Actuary’s Department actuarial tables (Ogden tables) and Personal Injury Discount Rate of -0.75%.

Future liabilities for certain & probable cases with a probability of 95%-100% and 50%- 94% respectively are held as a provision on the balance sheet. Cases typically take a number of years to settle, particularly for high value cases where a period of development is necessary to establish the full extent of the injury caused.

1.25 Private Finance Initiative (PFI) transactions

The LHB does not have any Private Finance Initiative Transactions

HM Treasury has determined that government bodies shall account for infrastructure PFI schemes where the government body controls the use of the infrastructure and the residual interest in the infrastructure at the end of the arrangement as service concession arrangements, following the principles of the requirements of IFRIC 12. The LHB therefore recognises the PFI asset as an item of property, plant and equipment together with a liability to pay for it. The services received under the contract are recorded as operating expenses.

The annual unitary payment is separated into the following component parts, using appropriate estimation techniques where necessary:

- a) Payment for the fair value of services received;
- b) Payment for the PFI asset, including finance costs; and
- c) Payment for the replacement of components of the asset during the contract 'lifecycle replacement'.

Services received

The fair value of services received in the year is recorded under the relevant expenditure headings within 'operating expenses'.

PFI asset

The PFI assets are recognised as property, plant and equipment, when they come into use. The assets are measured initially at fair value in accordance with the principles of IAS 17. Subsequently, the assets are measured at fair value, which is kept up to date in accordance with the LHBs approach for each relevant class of asset in accordance with the principles of IAS 16.

PFI liability

A PFI liability is recognised at the same time as the PFI assets are recognised. It is measured initially at the same amount as the fair value of the PFI assets and is subsequently measured as a finance lease liability in accordance with IAS 17.

An annual finance cost is calculated by applying the implicit interest rate in the lease to the opening lease liability for the period, and is charged to 'Finance Costs' within the Statement of Comprehensive Net Expenditure.

The element of the annual unitary payment that is allocated as a finance lease rental is applied to meet the annual finance cost and to repay the lease liability over the contract term.

An element of the annual unitary payment increase due to cumulative indexation is allocated to the finance lease. In accordance with IAS 17, this amount is not included in the minimum lease payments, but is instead treated as contingent rent and is expensed as incurred. In substance, this amount is a finance cost in respect of the liability and the expense is presented as a contingent finance cost in the Statement of Comprehensive Net Expenditure.

Lifecycle replacement

Components of the asset replaced by the operator during the contract ('lifecycle replacement') are capitalised where they meet the LHBs criteria for capital expenditure. They are capitalised at the time they are provided by the operator and are measured initially at their fair value.

The element of the annual unitary payment allocated to lifecycle replacement is pre-determined for each year of the contract from the operator's planned programme of lifecycle replacement. Where the lifecycle component is provided earlier or later than expected, a short-term finance lease liability or prepayment is recognised respectively.

Where the fair value of the lifecycle component is less than the amount determined in the contract, the difference is recognised as an expense when the replacement is provided. If the fair value is greater than the amount determined in the contract, the difference is treated as a 'free' asset and a deferred income balance is recognised. The deferred income is released to the operating income over the shorter of the remaining contract period or the useful economic life of the replacement component.

Assets contributed by the LHB to the operator for use in the scheme

Assets contributed for use in the scheme continue to be recognised as items of property, plant and equipment in the LHBs Statement of Financial Position.

Other assets contributed by the LHB to the operator

Assets contributed (e.g. cash payments, surplus property) by the LHB to the operator before the asset is brought into use, which are intended to defray the operator's capital costs, are recognised initially as prepayments during the construction phase of the contract. Subsequently, when the asset is made available to the LHB, the prepayment is treated as an initial payment towards the finance lease liability and is set against the carrying value of the liability.

A PFI liability is recognised at the same time as the PFI assets are recognised. It is measured at the present value of the minimum lease payments, discounted using the implicit interest rate. It is subsequently measured as a finance lease liability in accordance with IAS 17.

On initial recognition of the asset, the difference between the fair value of the asset and the initial liability is recognised as deferred income, representing the future service potential to be received by the LHB through the asset being made available to third party users.

1.26 Contingencies

A contingent liability is a possible obligation that arises from past events and whose existence will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the LHB, or a present obligation that is not recognised because it is not probable that a payment will be required to settle the obligation or the amount of the obligation cannot be measured sufficiently reliably. A contingent liability is disclosed unless the possibility of a payment is remote.

A contingent asset is a possible asset that arises from past events and whose existence will be confirmed by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the LHB. A contingent asset is disclosed where an inflow of economic benefits is probable.

Where the time value of money is material, contingencies are disclosed at their present value. Remote contingent liabilities are those that are disclosed under Parliamentary reporting requirements and not under IAS 37 and, where practical, an estimate of their financial effect is required.

1.27 Carbon Reduction Commitment Scheme

The THB is not a member for the Carbon Reduction Commitment Scheme

Carbon Reduction Commitment Scheme allowances are accounted for as government grant funded intangible assets if they are not realised within twelve months and otherwise as current assets. The asset should be measured initially at cost. Scheme assets in respect of allowances shall be valued at fair value where there is evidence of an active market.

1.28 Absorption accounting

Transfers of function are accounted for as either by merger or by absorption accounting dependent upon the treatment prescribed in the FReM. Absorption accounting requires that entities account for their transactions in the period in which they took place with no restatement of performance required.

Where transfer of function is between LHBs the gain or loss resulting from the assets and liabilities transferring is recognised in the SoCNE and is disclosed separately from the operating costs.

1.29 Accounting standards that have been issued but not yet been adopted

The following accounting standards have been issued and or amended by the IASB and IFRIC but have not been adopted because they are not yet required to be adopted by the FReM

IFRS14 Regulatory Deferral Accounts (The European Financial Reporting Advisory Group recommended in October 2015 that the Standard should not be endorsed as it is unlikely to be adopted by many EU countries.), IFRS 16 Leases, HMT have confirmed that IFRS 16 Leases, as interpreted and adapted by the FReM is to be effective from 1st April 2020.
IFRS 17 Insurance Contracts,
IFRIC 23 Uncertainty over Income Tax Treatment.

1.30 Accounting standards issued that have been adopted early

During 2018-19 there have been no accounting standards that have been adopted early. All early adoption of accounting standards will be led by HM Treasury.

1.31 Charities

Following Treasury's agreement to apply IAS 27 to NHS Charities from 1 April 2013, the LHB has established that as the LHB is the corporate trustee of the linked NHS Charity 'Powys Teaching Local Health Board Charitable Fund and other Related Charities', it is considered for accounting standards compliance to have control of the Charity as a subsidiary and therefore is required to consolidate the results of 'Powys Teaching Local Health Board Charitable Fund and other Related Charities' Charity within the statutory accounts of the LHB.

The determination of control is an accounting standard test of control and there has been no change to the operation of the Charity or its independence in its management of charitable funds.

However, the LHB has with the agreement of the Welsh Government adopted the IAS 27 (10) exemption to consolidate. Welsh Government as the ultimate parent of the Local Health Boards will disclose the Charitable Accounts of Local Health Boards in the Welsh Government Consolidated Accounts. Details of the transactions with the charity are included in the related parties' notes.

2. Financial Duties Performance

The National Health Service Finance (Wales) Act 2014 came into effect from 1 April 2014. The Act amended the financial duties of Local Health Boards under section 175 of the National Health Service (Wales) Act 2006. From 1 April 2014 section 175 of the National Health Service (Wales) Act places two financial duties on Local Health Boards:

- A duty under section 175 (1) to secure that its expenditure does not exceed the aggregate of the funding allotted to it over a period of 3 financial years
- A duty under section 175 (2A) to prepare a plan in accordance with planning directions issued by the Welsh Ministers, to secure compliance with the duty under section 175 (1) while improving the health of the people for whom it is responsible, and the provision of health care to such people, and for that plan to be submitted to and approved by the Welsh Ministers.

The first assessment of performance against the 3 year statutory duty under section 175 (1) was at the end of 2016-17, being the first 3 year period of assessment.

Welsh Health Circular WHC/2016/054 "Statutory and Financial Duties of Local Health Boards and NHS Trusts" clarifies the statutory financial duties of NHS Wales bodies effective from 2016-17.

2.1 Revenue Resource Performance

	Annual financial performance			
	2016-17 £'000	2017-18 £'000	2018-19 £'000	Total £'000
Net operating costs for the year	286,060	291,900	299,184	877,144
Less general ophthalmic services expenditure and other non-cash limited expenditure	1,006	1,734	1,682	4,422
Less revenue consequences of bringing PFI schemes onto SoFP	0	0	0	0
Total operating expenses	287,066	293,634	300,866	881,566
Revenue Resource Allocation	287,151	293,730	300,931	881,812
Under /(over) spend against Allocation	85	96	65	246

Powys THB has met its financial duty to break-even against its Revenue Resource Limit over the 3 years 2016-17 to 2018-19.

2.2 Capital Resource Performance

	2016-17	2017-18	2018-19	Total
	£'000	£'000	£'000	£'000
Gross capital expenditure	6,870	5,482	5,372	17,724
Add: Losses on disposal of donated assets	0	0	0	0
Less: NBV of property, plant and equipment and intangible assets disposed	0	(250)	0	(250)
Less: capital grants received	0	0	0	0
Less: donations received	(40)	(304)	(276)	(620)
Charge against Capital Resource Allocation	6,830	4,928	5,096	16,854
Capital Resource Allocation	6,847	4,933	5,108	16,888
(Over) / Underspend against Capital Resource Allocation	17	5	12	34

Powys THB has met its financial duty to break-even against its Capital Resource Limit over the 3 years 2016-17 to 2018-19.

2.3 Duty to prepare a 3 year plan

The NHS Wales Planning Framework for the period 2018-19 to 2020-21 issued to LHBs placed a requirement upon them to prepare and submit Integrated Medium Term Plans to the Welsh Government.

The THB submitted an Integrated Medium Term Plan for the period 2018-19 to 2020-21 in accordance with NHS Wales Planning Framework.

**2018-19
to
2020-21**

The Minister for Health and Social Services approval status

**Approved 13th
June 2018**

The THB **has** therefore met its statutory duty to have an approved financial plan for the period 2018-19 to 2020-21.

The THB Integrated Medium Term Plan **was** approved in 2017-18.

The THB Integrated Medium Term Plan **was** approved in 2016-17

The THB has received approval of its Integrated Medium Term Plan for 2019-20 to 2021-22 on 27th March 2019 in advance of commencement of the 2019-20 financial year.

3. Analysis of gross operating costs

3.1 Expenditure on Primary Healthcare Services

	Cash limited	Non-cash limited	2018-19 Total	2017-18
	£'000	£'000	£'000	£'000
General Medical Services	36,020		36,020	34,665
Pharmaceutical Services	4,478	(2,704)	1,774	1,723
General Dental Services	8,157		8,157	7,845
General Ophthalmic Services	0	1,022	1,022	974
Other Primary Health Care expenditure	2,626		2,626	3,028
Prescribed drugs and appliances	18,328		18,328	18,863
Total	69,609	-1,682	67,927	67,098

The negative non cash limited balance on Pharmaceutical services relate to prescriptions for Powys residents being dispensed in non Powys Pharmacies. The effect of this is a net outflow for Powys THB.

The increase in General Medical Services is mainly attributable to an increase in costs relating to the THB Out of Hours Service and uplift in Global Sum Contracts payable to Primary Care Contractors.

3.2 Expenditure on healthcare from other providers

	2018-19	2017-18
	£'000	£'000
Goods and services from other NHS Wales Health Boards	36,701	36,103
Goods and services from other NHS Wales Trusts	2,465	2,156
Goods and services from Health Education and Improvement Wales (HEIW)	0	0
Goods and services from other non Welsh NHS bodies	58,721	56,256
Goods and services from WHSSC / EASC	34,256	32,533
Local Authorities	1,593	1,384
Voluntary organisations	1,823	2,002
NHS Funded Nursing Care	2,208	2,859
Continuing Care	11,508	12,495
Private providers	635	1,164
Specific projects funded by the Welsh Government	0	0
Other	-1,743	-1,898
Total	148,167	145,054

The 7 Health Boards in Wales have established the Welsh Health Specialist Services Commission (WHSSC) which, through the operational management of Cwm Taf Health Board, secures the provision of highly specialised healthcare for the whole of Wales. These arrangements include funding of services operated through a risk sharing arrangement. The THB payment for the WHSSC commissioning arrangements for the year ended 31st March 2019 is £34.506M.

The increase in Goods and services from other non Welsh NHS bodies results from increased activity and increases in tariffs within English NHS providers. The most significant increases are Robert Jones and Agnes Hunt NHS Trust £0.869M Wye Valley NHS Trust £0.872M and Gloucestershire Hospitals NHS Foundation Trust £0.415M in comparison to 2017/18 expenditure.

The decrease in Continuing Health Care expenditure during 2018/19 has resulted from both decline in the number of cases and enhanced case review arrangements now in operation.

The decrease in Private Providers expenditure during 2018/19 has resulted from a decline in the number of patients placed within Private Providers with more patients being placed within NHS Provider bodies.

The negative balance within the Other line relates to the write back of Liabilities from the Statement of Financial Position that have been assessed as no longer payable, which relate to previous years

3.3 Expenditure on Hospital and Community Health Services

	2018-19 £'000	2017-18 £'000
Directors' costs	1,419	1,393
Staff costs	76,331	72,609
Supplies and services - clinical	4,585	4,404
Supplies and services - general	1,343	1,347
Consultancy Services	561	705
Establishment	2,639	2,614
Transport	1,288	1,125
Premises	4,940	4,888
External Contractors	0	0
Depreciation	3,327	3,075
Amortisation	0	0
Fixed asset impairments and reversals (Property, plant & equipment)	(87)	188
Fixed asset impairments and reversals (Intangible assets)	0	0
Impairments & reversals of financial assets	0	0
Impairments & reversals of non-current assets held for sale	0	0
Audit fees	263	264
Other auditors' remuneration	0	0
Losses, special payments and irrecoverable debts	92	152
Research and Development	0	0
Other operating expenses	646	934
Total	97,347	93,698

3.4 Losses, special payments and irrecoverable debts: charges to operating expenses

	2018-19 £'000	2017-18 £'000
Increase/(decrease) in provision for future payments:		
Clinical negligence	(7,584)	22,297
Personal injury	452	1,027
All other losses and special payments	3	5
Defence legal fees and other administrative costs	70	143
Gross increase/(decrease) in provision for future payments	(7,059)	23,472
Contribution to Welsh Risk Pool	0	0
Premium for other insurance arrangements	0	0
Irrecoverable debts	43	55
Less: income received/due from Welsh Risk Pool	7,108	(23,375)
Total	92	152

Personal injury includes £0.003M (2017-18 £0.122M) in respect of permanent injury benefits.

Clinical Redress expenditure during the year was £0.115M in respect of 20 cases (2017-18 £0.003M in respect of 3 cases). This is due to the requirement for the creation of a new provision for claims currently in progress. These are expected to be fully reimbursed by the Welsh Risk Pool should payments be made in respect of the claims. This provision is included within Note 20 of the accounts.

The main increases in staff costs relates to the NHS Pay Award being agreed and implemented during 2018/19 and the full year effect of the Mental Health Staff Transfer back into Powys THB services in comparison to 10 months being charged in 2017/18 as the transfer took place on 1st June 2017.

There has been a significant decrease in the provision required for Residual Clinical Negligence due to the finalisation of cases during 2018/19 at a lesser amount than previously forecast. In comparison 2017/18 saw a significant increase in provision due to a change in probability from possible to certain in one case increasing the provision by £8M and also an in year payment relating to a settlement of a case of £8.4M due to a change in discount rates. Each of these movements are offset by a corresponding Welsh Risk Pool Debtor so the financial impact to the THB is minimal.

4. Miscellaneous Income

	2018-19 £'000	2017-18 £'000
Local Health Boards	3,195	3,535
Welsh Health Specialised Services Committee (WHSSC) / Emergency Ambulance Services Committee (EASC)	0	0
NHS trusts	26	0
Health Education and Improvement Wales (HEIW)	325	0
Other NHS England bodies	415	532
Foundation Trusts	0	0
Local authorities	0	0
Welsh Government	4,904	4,956
Non NHS:		
Prescription charge income	0	0
Dental fee income	1,826	1,709
Private patient income	0	0
Overseas patients (non-reciprocal)	0	0
Injury Costs Recovery (ICR) Scheme	92	49
Other income from activities	1,316	1,223
Patient transport services	32	32
Education, training and research	448	120
Charitable and other contributions to expenditure	0	0
Receipt of donated assets	276	304
Receipt of Government granted assets	0	0
Non-patient care income generation schemes	0	0
NHS Wales Shared Services Partnership (NWSPP)	0	0
Deferred income released to revenue	0	0
Contingent rental income from finance leases	0	0
Rental income from operating leases	73	87
Other income:		
Provision of laundry, pathology, payroll services	0	0
Accommodation and catering charges	107	107
Mortuary fees	25	20
Staff payments for use of cars	0	0
Business Unit	0	0
Other	1,204	1,234
Total	14,264	13,908

Welsh Government miscellaneous income includes funding received on behalf of the hosted function of Health and Care Research Wales within the THB. This has increased to £4.548M from an amount of £4.304M received in 17/18.

The Receipt of donated assets is due to three significant patient related building schemes being funded by League of Friends and the THB Charity. These include the creation of Palliative Care Suites in Llanidloes and Welshpool hospitals and an extension to the Day Hospital at Ystradgynlais Hospital. Smaller items of Medical equipment have also been purchased by League of Friends and the THB Charity for the use of Service areas within the THB.

The increase in Education Training and Research income relates to funding being received by the hosted function Health Care Research Wales from a national cancer Charity of £0.334M during 2018/19.

There have been no exit packages paid during 2018/19 or 2017/18

9.6 Remuneration Relationship

Reporting bodies are required to disclose the relationship between the remuneration of the highest-paid director in their organisation and the median remuneration of the organisation's workforce.

The banded remuneration of the highest-paid director in the LHB in the financial year 2018-19 was £160,000 to £165,000 (2017-18, £160,000-£165,000). This was 5.8 times (2017-18, 6.2) the median remuneration of the workforce, which was £27,791 (2017-18, £26,173).

In 2018-19, 2 (2017-18, 0) employees received remuneration in excess of the highest-paid director. Remuneration for staff ranged from £359 to £171,635 (2017-18 £888 to £162,500).

Total remuneration includes salary, non-consolidated performance-related pay, and benefits-in-kind. It does not include severance payments, employer pension contributions and the cash equivalent transfer value of pensions.

9.7 Pension costs

PENSION COSTS

Past and present employees are covered by the provisions of the two NHS Pension Schemes. Details of the benefits payable and rules of the Schemes can be found on the NHS Pensions website at www.nhsbsa.nhs.uk/pensions. Both are unfunded defined benefit schemes that cover NHS employers, GP practices and other bodies, allowed under the direction of the Secretary of State for Health in England and Wales. They are not designed to be run in a way that would enable NHS bodies to identify their share of the underlying scheme assets and liabilities. Therefore, each scheme is accounted for as if it were a defined contribution scheme: the cost to the NHS body of participating in each scheme is taken as equal to the contributions payable to that scheme for the accounting period.

In order that the defined benefit obligations recognised in the financial statements do not differ materially from those that would be determined at the reporting date by a formal actuarial valuation, the FReM requires that “the period between formal valuations shall be four years, with approximate assessments in intervening years”. An outline of these follows:

a) Accounting valuation

A valuation of scheme liability is carried out annually by the scheme actuary (currently the Government Actuary’s Department) as at the end of the reporting period. This utilises an actuarial assessment for the previous accounting period in conjunction with updated membership and financial data for the current reporting period, and is accepted as providing suitably robust figures for financial reporting purposes. The valuation of the scheme liability as at 31 March 2019, is based on valuation data as 31 March 2018, updated to 31 March 2019 with summary global member and accounting data. In undertaking this actuarial assessment, the methodology prescribed in IAS 19, relevant FReM interpretations, and the discount rate prescribed by HM Treasury have also been used.

The latest assessment of the liabilities of the scheme is contained in the report of the scheme actuary, which forms part of the annual NHS Pension Scheme Accounts. These accounts can be viewed on the NHS Pensions website and are published annually. Copies can also be obtained from The Stationery Office.

b) Full actuarial (funding) valuation

The purpose of this valuation is to assess the level of liability in respect of the benefits due under the schemes (taking into account recent demographic experience), and to recommend contribution rates payable by employees and employers.

The latest actuarial valuation undertaken for the NHS Pension Scheme was completed as at 31 March 2016. The results of this valuation set the employer contribution rate payable from April 2019. The Department of Health and Social Care have recently laid Scheme Regulations confirming that the employer contribution rate will increase to 20.6% of pensionable pay from this date.

The 2016 funding valuation was also expected to test the cost of the Scheme relative to the employer cost cap set following the 2012 valuation. Following a judgment from the Court of Appeal in December 2018 Government announced a pause to that part of the valuation process pending conclusion of the continuing legal process.

c) National Employment Savings Trust (NEST)

NEST is a workplace pension scheme, which was set up by legislation and is treated as a trust-based scheme. The Trustee responsible for running the scheme is NEST Corporation. It's a non-departmental public body (NDPB) that operates at arm's length from government and is accountable to Parliament through the Department for Work and Pensions (DWP).

NEST Corporation has agreed a loan with the Department for Work and Pensions (DWP). This has paid for the scheme to be set up and will cover expected shortfalls in scheme costs during the earlier years while membership is growing.

NEST Corporation aims for the scheme to become self-financing while providing consistently low charges to members.

Using qualifying earnings to calculate contributions, currently the legal minimum level of contributions is 5% of a jobholder's qualifying earnings, for employers whose legal duties have started. The employer must pay at least 2% of this. The legal minimum level of contribution level is due to increase to 8% in April 2019.

The earnings band used to calculate minimum contributions under existing legislation is called qualifying earnings. Qualifying earnings are currently those between £6,032 and £46,350 for the 2018-19 tax year (2017-18 £5,876 and £45,000).

Restrictions on the annual contribution limits were removed on 1st April 2017.

10. Public Sector Payment Policy - Measure of Compliance

10.1 Prompt payment code - measure of compliance

The Welsh Government requires that Health Boards pay all their trade creditors in accordance with the CBI prompt payment code and Government Accounting rules. The Welsh Government has set as part of the Health Board financial targets a requirement to pay 95% of the number of non-NHS creditors within 30 days of delivery.

	2018-19 Number	2018-19 £000	2017-18 Number	2017-18 £000
NHS				
Total bills paid	2,448	134,693	2,544	132,071
Total bills paid within target	1,553	124,183	1,902	124,172
Percentage of bills paid within target	63.4%	92.2%	74.8%	94.0%
Non-NHS				
Total bills paid	42,654	68,922	39,493	69,515
Total bills paid within target	40,843	63,368	37,320	60,580
Percentage of bills paid within target	95.8%	91.9%	94.5%	87.1%
Total				
Total bills paid	45,102	203,615	42,037	201,586
Total bills paid within target	42,396	187,551	39,222	184,752
Percentage of bills paid within target	94.0%	92.1%	93.3%	91.6%

The THB performance at 95.8% has met the administrative target of payment of 95% of the number of non-nhs creditors paid within 30 days.

10.2 The Late Payment of Commercial Debts (Interest) Act 1998

The net book value of land, buildings and dwellings at 31 March 2019 comprises :

	£000
Freehold	66,126
Long Leasehold	0
Short Leasehold	0
	66,126

The land and buildings were revalued by the Valuation Office Agency with an effective date of 1st April 2017. The valuation has been prepared in accordance with the terms of the Royal Institute of Chartered Surveyors Valuation Standards, 6th Edition. LHB's are required to apply the revaluation model set out in IAS 16 and value its capital assets to fair value. Fair value is defined by IAS 16 as the amount for which an asset could be exchanged between knowledgeable, willing parties in an arms length transaction. This has been undertaken on the assumption that the property is sold as part of the continuing enterprise in occupation.

11. Property, plant and equipment (continued)

- i) Assets donated in the year were purchased from funds donated by the public and charitable organisations and from funds provided by associations linked to specific hospitals.
- ii) Tangible fixed assets are stated at the lower of replacement cost and recoverable amount. Land and buildings are restated to current value using professional valuations carried out by the District Valuers of the Inland Revenue at 5 yearly intervals and in the intervening years by the use of indices provided from the District Valuer via the Welsh Government. The valuations are carried out primarily on the basis of Modern Equivalent Asset cost for specialised operational property and existing use value for non-specialised operational property. For non-operational properties the valuations are carried out at open market value. A formal valuation exercise of Land and Buildings was undertaken during the 2017/18 financial year
- iii) Buildings, installations and fittings are depreciated on their current value over the estimated remaining life of the asset as advised by the District Valuer. Equipment is depreciated on current cost evenly over the estimated useful life of the asset.
- iv) There is considered to be no material difference between the open market value of properties and the existing use value at which they are held.
- v) There has been no property purchases during the year.
- vi) During 2017/18 the THB implemented a change on the basis its revaluation reserves are held. This has been changed from revaluations reserves held on a site basis to revaluation reserves held on a buildings basis.

Changes in market price	0	0	0	0
Others (specify)	(87)	0	188	0
Reversal of impairments	0	0	0	0
Total of all impairments	(87)	0	188	0

Analysis of impairments charged to reserves in year :

Charged to the Statement of Comprehensive Net Expenditure	(87)	0	188	0
Charged to Revaluation Reserve	0	0	0	0
	(87)	0	188	0

The impairment occurred as a result of an increase arising on revaluations due to indexation that reversed an impairment for the same assets previously recognised as impairments in expenditure. In this case it is credited to expenditure to the extent of the decrease previously charged there. This amounted to a reversal of impairment of £-0.087M.

It is intended to pay all invoices within the 30 day period directed by the Welsh Government.

Amounts falling due more than one year are expected to be settled as follows:	31-Mar-19 £000	31-Mar-18 £000
Between one and two years	0	0
Between two and five years	0	0
In five years or more	0	0
Sub-total	0	0

There has been a decrease in Accruals and increase in Local Authority Creditors in comparison to 2017/18 mainly relating to the funding for schemes delivered by the Local Authority in respect of the Integrated Care Fund.

In 2017/18 these schemes were invoiced by the Local Authority after the end of the financial year so were classed as Accruals. In 2018/19 invoices have been received prior to end of the financial year and have been classed as Local Authority Trade Payables.

The THB estimates that in 2019/20 it will receive £1.493M and in 2019-20 and beyond £23.322M from the Welsh Risk Pool in respect of Losses and Special Payments

£24.308M of the provision total relates to the probable liabilities of former Health Authorities in respect of Medical Negligence and Personal Injury Claims for incidents which occurred before the establishment of NHS Trusts (Pre 1996 and Pre 1992 depending on the Trust)

Contingent Liabilities are directly linked to these claims in Note 21.

Also included within 'other' at 31st March 2019 is £0.226M relating to retrospective continuing health care claims (2017/18 £0.423M)

During the year a new provision has been created within the Clinical Negligence line to provide for expected payments in respect of redress arrangements under National Health Service (Concerns, Complaints and Redress Arrangements) (Wales) Regulations 2011. The amount of Provision that has been created in relation to this in 2018/19 is £0.103M and is expected to be fully reimbursed from the Welsh Risk Pool.

The THB has no Private Finance Initiative Contracts in operation

26. Financial risk management

Financial reporting standard IFRS 7 requires disclosure of the role that financial instruments have had during the period in creating or changing the risks a body faces in undertaking its activities. The LHB is not exposed to the degree of financial risk faced by business entities. Also financial instruments play a much more limited role in creating or changing risk than would be typical of listed companies, to which these standards mainly apply. The LHB has limited powers to invest and financial assets and liabilities are generated by day-to-day operational activities rather than being held to change the risks facing the LHB in undertaking its activities.

Currency risk

The LHB is principally a domestic organisation with the great majority of transactions, assets and liabilities being in the UK and Sterling based. The LHB has no overseas operations. The LHB therefore has low exposure to currency rate fluctuations.

Interest rate risk

LHBs are not permitted to borrow. The LHB therefore has low exposure to interest rate fluctuations

Credit risk

Because the majority of the LHB's funding derives from funds voted by the Welsh Government the LHB has low exposure to credit risk.

Liquidity risk

The LHB is required to operate within cash limits set by the Welsh Government for the financial year and draws down funds from the Welsh Government as the requirement arises. The LHB is not, therefore, exposed to significant liquidity risks.

27. Movements in working capital

	2018-19	2017-18

Total	(3,978)	27,398

29. Third Party assets

The LHB held £2,530.20 cash at bank and in hand at 31 March 2019 (31 March 2018, £460.00) which relates to monies held by the LHB on behalf of patients. This has been excluded from the cash and cash equivalents figure reported in the Accounts. None of this Cash was held in Patients' Investment Accounts in either 2018-19 or 2017-18.

30. Events after the Reporting Period

The LHB has not experienced any events having a material effect on the accounts, between the date of the statement of financial position and the date on which these accounts were approved by its Board.

31. Related Party Transactions

The Welsh Government is regarded as a related party. During the accounting period the Powys Teaching Local Health Board has had a significant number of material transactions with the Welsh Government and with other entities for which the Welsh Government is regarded as the parent body:

Total £'000s	4,286	3,303	311,693	78,799

Powys THB has hosted the following functions on behalf of NHS Wales on which it receives income from the Welsh Government and other LHB's:

- Residual Clinical Negligence
- Community Health Councils
- Continuing Care Case Administration
- Health and Care Research Wales (HCRW)

Powys THB also has material transactions with English NHS Trusts with whom it commissions healthcare including:

- Shrewsbury and Telford NHS Trust
- Wye Valley NHS Trust
- The Robert Jones and Agnes Hunt Orthopaedic Hospital NHS Foundation Trust

Powys THB has also received items donated from the Powys THB Charitable Fund, for which the Board is the Corporate Trustee.

A number of the THB's Board members have interests in related parties as follows:

Name	Details	Interests
Councillor Matthew Dorrance	Independent Member	Councillor, Powys County Council
Patricia Buchan	Independent Member	Ex Officio Trustee - Powys Association of Voluntary Organisations
Amanda Lewis	Associate Member	Strategic Director of People, Powys County Council
Eifion Williams	Interim Finance Director	Employee of Abertawe Bro Morgannwg University Health Board Member of Finance Committee at Swansea University
Rhiannon Beaumont-Wood	Director of Nursing	Employee of Public Health Wales
Stuart Bourne	Director of Public Health	Employee of Public Health Wales

31. Related Party Transactions (Continued)

The material transactions involving the related parties were as follows unless shown in the table re NHS Bodies above:

	Payments to related party £'000	Receipts from related party £'000	Amounts owed to related party £'000	Amounts due from related party £'000
Powys County Council	10,431	1,850	4,342	449

Total £'000s	11,174	1,850	4,513	449

32. Pooled budgets

A Funded Nursing Care

Powys Teaching Health Board and Powys County Council have entered into a partnership agreement in accordance with Section 31 of the Health Act 1999. The health related function which is subject to these arrangements is the provision of care by a registered nurse in care homes, which is a service provided by the NHS Body under section 2 of the National Health Service Act 1977. In accordance with the Social Care Act 2001 Section 49 care from a registered nurse is funded by the NHS regardless of the setting in which it is delivered. (Circular 12/2003)
The agreement will not affect the liability of the parties for the exercise of their respective statutory functions and obligations. The partnership agreement operates in accordance with the Welsh Government Guidance NHS Funded Nursing Care 2004.

The above memorandum account is subject to the financial statements of Powys County Council (the Host).

B Provision of Community Equipment

Powys Teaching Health Board and Powys County Council have entered into a partnership agreement in respect of lead commissioning from a pooled fund for the provision of community equipment in accordance with Section 33 of the National Health Services Act 2006. Powys County Council is the host partner for the purposes of the Regulations. The purpose of the agreement is to facilitate the provision of a community equipment service and the development of this service in Powys. The service is provided from a pooled fund and is within the THB's and the Council's powers.

34. Other Information

IFRS15

Work was undertaken by the TAG IFRS sub group, consistent with the 'portfolio' approach allowed by the standard. Each income line in the notes from a previous year's annual accounts (either 2016/17 or 2017/18) was considered to determine how it would be affected by the implementation of IFRS 15. It was determined that the following types of consideration received from customers for goods and services (hereon referred to as income) fell outside the scope of the standard, as the body providing the income does not contract with the body to receive any direct goods or services in return for the income flow.

- Charitable Income and other contributions to Expenditure.
- Receipt of Donated Assets.
- WG Funding without direct performance obligation (e.g. SIFT/SIFT@/Junior Doctors & PDGME Funding).

Income that fell wholly or partially within the scope of the standard included:

- Welsh LHB & WHSCC LTA Income;
- Non Welsh Commissioner Income;
- NHS Trust Income;
- Foundation Trust Income;
- Other WG Income;
- Local Authority Income;
- ICR Income ;
- Training & Education income ;
- Accommodation & Catering income

It was identified that the only material income flows likely to require adjustment for compliance with IFRS15 was that for patient care provided under Long Term Agreements (LTA's). The adjustment being, for episodes of patient care which had started but not concluded (FCE's), as at period end, e.g. 31 March.

When calculating the income generated from these episodes, it was determined that it was appropriate to use length of stay as the best proxy for the attributable Work In Progress (WIP) value. In theory, as soon as an episode is opened, income is due. Under the terms and conditions of the contract this will only ever be realised on episode closure so the average length of stay would be the accepted normal proxy for the work in progress value.

For Powys Teaching Health Board, the following methodology was applied to assess the value of the unaccounted WIP.

1. For 2017/18, income for inpatient activity recorded on an FCE basis was £0.586m (total income from LTA's, including WHSSC, Welsh Health Boards and Non Welsh Commissioners, was £2.200m).

34. Other Information (continued)

1. This related to circa 506 FCEs, with an estimated average unit cost of £1,160.
2. Most contracts still work on 25% marginal rates, however there are some cost per case contract (e.g. Orthopaedics or Thoracic Surgery). Therefore to ensure a prudent assessment of exposure, a 35% marginal rate has been determined for this calculation.
3. As such, £405 per FCE is the derived estimate for a WIP calculation.
4. Using available Business Intelligence/ Costing Information, the total open episodes at year-end and the average length of stay (ALoS) were identified.
5. This provided assumptions of a 779 day ALoS (with 54% completed) and circa 10 FCEs attributable to contracts at year-end, which lead to an adjustment calculation to align revenue recognised to the requirements of the standard:

$$\text{£405} / 779 \text{ days} \times 442 \text{ days} \times 10 \text{ FCEs} = \text{£2K}$$

IFRS 9

For consistency across Wales, the practical expedient provision matrix was used to estimate expected credit losses (ECLs) based on the 'age' of receivables as follows:

- Receivables were segregated into appropriate groups
- Each group, was analysed:
 - a) age-bands
 - 1-30 days (including current)
 - 31-60 days
 - 61-90 days
 - 91-180 days
 - 181- 365 days
 - > 1 year
 - b) at historical back-testing dates (data points)
- For each age-band, at each back-testing date the following were determined:
 - a) the gross receivables
 - b) the amounts ultimately collected/written-off. If material, adjustments should be made to exclude the effect of non-collections for reasons other than credit loss (e.g. credit notes issued for returns, short-deliveries or as a commercial price concession)

34. Other Information (continued)

- The average historical loss rate by age-band was calculated, and adjusted where necessary e.g. to take account of changes in:
 - a) economic conditions
 - b) types of customer
 - c) credit management practices
- Consideration was given as to whether ECLs should be estimated individually for any period-end receivables, e.g. because information was available specific debtors.
- Loss rate estimates were applied to each age-band for the other receivables.
- The percentages calculated have been applied to those invoices outstanding as at 31st March 2018 (which don't already have a specific provision against them) to recalculate the value of the HB/Trust non-specific provision under IFRS9.

A summary of the Impact of restating its opening balances after adopting IFRS 9 for Powys Teaching Health Board is shown below:

Bad Debt Provision per 2017/18 Accounts	£0.258m
Bad Debt Provision restated under IFRS 9	£0.278m
Overall Increase in Provisions held under IFRS 9	£0.020m

BREXIT

On 29 March 2017, the UK Government submitted its notification to leave the EU in accordance with Article 50. The triggering of Article 50 started a two-year negotiation process between the UK and the EU. On 11 April 2019, the government confirmed agreement with the EU on an extension until 31 October 2019 at the latest, with the option to leave earlier as soon as a deal has been ratified.

PROPERTY PLANT AND EQUIPMENT VALUATION

In 2018-19 the NHS Estate has been valued using indices provided by the District Valuer and disclosed in the Manual For Accounts.

THE NATIONAL HEALTH SERVICE IN WALES ACCOUNTS DIRECTION GIVEN BY WELSH MINISTERS IN ACCORDANCE WITH SCHEDULE 9 SECTION 178 PARA 3(1) OF THE NATIONAL HEALTH SERVICE (WALES) ACT 2006 (C.42) AND WITH THE APPROVAL OF TREASURY

LOCAL HEALTH BOARDS

1. Welsh Ministers direct that an account shall be prepared for the financial year ended 31 March 2011 and subsequent financial years in respect of the Local Health Boards (LHB)¹, in the form specified in paragraphs [2] to [7] below.

BASIS OF PREPARATION

2. The account of the LHB shall comply with:

(a) the accounting guidance of the Government Financial Reporting Manual (FReM), which is in force for the financial year in which the accounts are being prepared, and has been applied by the Welsh Government and detailed in the NHS Wales LHB Manual for Accounts;

(b) any other specific guidance or disclosures required by the Welsh Government.

FORM AND CONTENT

3. The account of the LHB for the year ended 31 March 2011 and subsequent years shall comprise a statement of comprehensive net expenditure, a statement of financial position, a statement of cash flows and a statement of changes in taxpayers' equity as long as these statements are required by the FReM and applied by the Welsh Assembly Government, including such notes as are necessary to ensure a proper understanding of the accounts.

4. For the financial year ended 31 March 2011 and subsequent years, the account of the LHB shall give a true and fair view of the state of affairs as at the end of the financial year and the operating costs, changes in taxpayers' equity and cash flows during the year.

5. The account shall be signed and dated by the Chief Executive of the LHB.

MISCELLANEOUS

6. The direction shall be reproduced as an appendix to the published accounts.

7. The notes to the accounts shall, inter alia, include details of the accounting policies adopted.

Signed by the authority of Welsh Ministers

Signed : Chris Hurst
