Dear Andrew,

Thank you for your recent Written Question asking me how many GP surgeries in Wales are currently operating restricted hours of opening or restricted services due to COVID-19, and requesting the number per health board region.

This level of information is not held by Welsh Government. Health Boards are responsible for the provision of GP services within their area. The impact of COVID-19 on the delivery of service to patients at an individual practice level will vary on a day to day basis. Practices that experience operational difficulties report information to Health Boards through an escalation reporting system, this enables Health Boards to consider any support that may be necessary to ensure the provision of services to patients.

I hope you find this response helpful.

Yours sincerely
