

## Wales & West Housing Association response

Training must be supported by

- either fully funded expenses or a training allowance to enable young people from poorer households/ carer leaver to participate on equal footing
- a realistic chance of gaining full employment with the training provider (or offer of a job from another local organisation once trained)
- Full CRB checks for trainers/staff expected to train/mentor the young person
- a comprehensive training programme outlining what training will be provided from the outset with timescales
- a specified mentor/coach within the training organisation who can offer support and guidance (must not be the trainer) if the young person experiences any issues
