Following your question (WAQ 785VB) in which you asked for details of what Government representatives will be used to promote Wales in trade missions abroad, Alun Michael indicated that I would make a statement on the matter in due course.

The trade missions which I hope to lead (for part or all of the mission) are shown on the attached list. You will observe that I am therefore participating in six out of the fifteen missions.

I have today placed a copy of this letter in the Assembly Library for the record.
