Dear Julie

Further to my response to WAQ5962, I can now confirm that the information requested is not held centrally.

My officials have been in correspondence with UCAS, and these discussions have confirmed that their data does not have a specific flag to indicate those courses offered in Welsh.

It is possible to give a figure on applications to courses that have a course title in Welsh. However this figure is very low and does not capture all courses with some teaching through the medium of Welsh.

Yours ever,
