*Dear Glyn*

The First Minister recently attended a stakeholder presentation on the Aberporth Technology Park concept where he met with representatives from Ceredigion County Council, the WDA and Dwr Cymru. Dwr Cymru confirmed that they have allocated £9 million in their investment plan towards the proposed £10.5 million water supply scheme which will transfer water from the Claerwen Reservoir in Powys to South Ceredigion. The company is currently considering potential funding options to help meet the £1.5 million shortfall.

*Yours*

*Andrew*
