

**WRITTEN ASSEMBLY QUESTION
FOR ANSWER BY
THE MINISTER FOR HEATH AND SOCIAL SERVICES
ON 11 MAY 2020**

Rhun ap Iorwerth (Ynys Môn): What was the level of stock of (a) FFP3 masks, (b) FFP2 masks, (c) fluid-repellent gowns, (d) fluid-resistant gowns and (e) protective visors on 1 January 2020, and each fortnight since that date?
WAQ80051 (e)

Vaughan Gething: NHS Wales Shared Service Partnership (NWSSP) does not hold a fortnightly stock position. A month-end stock position for each product line is provided below.

Due to the amount of PPE being used and new supplies arriving, the PPE figures change quickly.

| Stock Holdings at the end of each month | | | | |
|---|-----------|-----------|-----------|-----------|
| Product | Dec | Jan | Feb | Mar |
| Eye Protector | 1,572,700 | 1,572,400 | 1,575,035 | 1,199,550 |
| Face Visors | 1,032 | 696 | 3,384 | 2,280 |
| FFP3 Masks | 870,080 | 870,880 | 893,025 | 773,514 |
| FFP2 Masks | - | - | - | - |
| Gowns (Fluid-Resistant) | 9,888 | 8,792 | 11,040 | 258,312 |
| Gowns (Other) | 8,041 | 10,462 | 20,639 | 10,694 |

This information does not differentiate between fluid resistant and fluid repelling gowns, as the NWSSP database provides a breakdown between fluid resistant and non-fluid resistant gowns.

The table provides the details of the units held by NWSSP only and does not include stock held within NHS organisations or local authority joint equipment stores.
